Damodaran on Valuation  
From the "guru to Wall Street's gurus" comes the fundamental techniques of value investing and their applications  
Bruce Greenwald is one of the leading authorities on value investing. Some of the savviest people on Wall Street have taken his Columbia Business School executive education course on the subject. Now this dynamic and popular teacher, with some colleagues, reveals the fundamental principles of value investing, the one investment technique that has proven itself consistently over time. After covering general techniques of value investing, the book proceeds to illustrate their applications through profiles of Warren Buffett, Michael Price, Mario Gabellio, and other successful value investors. A number of case studies highlight the techniques in practice. Bruce C. N. Greenwald (New York, NY) is the Robert Heilbrunn Professor of Finance and Asset Management at Columbia University. Judd Kahn, PhD (New York, NY), is a member of Morningside Value Investors. Paul D. Sonkin (New York, NY) is the investment manager of the Hummingbird Value Fund. Michael van Biema (New York, NY) is an Assistant Professor at the Graduate School of Business, Columbia University.

Provides a reference point for practitioners, who may need to prepare or review a valuation of shares or intangible assets, and acts as a practical guide to the more straightforward valuations which are required for tax purposes. Practical Share Valuation combines decades of the authors' practical experience in order to provide a reference guide to the valuation of unquoted shares and intangible assets as well as a practical handbook for practitioners preparing more routine valuations for tax purposes. The book highlights the relevant case law relating to valuations and also provides a handy list of additional data sources to aid the valuer in gaining access to the comparator data and latest valuation standards available. Whether you need to prepare a valuation or review work prepared by another practitioner, this book provides a wealth of easily accessible information, hints and tips to help you navigate through the potential minefield of share valuations. The seventh edition includes the following updates: - Full analysis of new legislation proposed on bringing non-resident companies with UK taxable income and

gains from the disposal of UK residential property interests within the scope of corporation tax; - Guidance on new penalties in connection with offshore matters and offshore transfers (FA 2016), for inheritance tax for transfers of value on or after 1 April 2017 and for income and CGT from April 2016, in particular a new asset-based penalty for certain offshore disclosure inaccuracies and failures; - Commentary on several well-publicised litigation battles regarding failed tax avoidance schemes, such as HMRC vs Ingenious Media and HMRC vs Rangers Football Club; - Changes to the Companies Act 2006 and new reporting requirements as a result of the transition to FRS 102 and FRS 105 (effective for accounting periods on or after 1 January 2016); - Updated guidance from HMRC Shares and Assets Valuations and International Valuation Standards 2017.

Wolters Kluwer

The first book to provide a simple and practical means of valuing biotech companies The book begins with a short history of the biotechnology industry; this is important as although it is about 30 years old, the first company went public only in 1996, so it is possible to plot the course of investment waves and dips It examines the European industry and its evolution, and draws parallels between the similarities and differences between that and the US Looks at the various companies which make up the biotech industry (therapeutic; life sciences; and the medical technology

company) and gives tools for the investor to properly evaluate them  
Praise for *Biotechnology Valuation*  
"Keegan states that the valuation of Biotech companies is as much an art as a science. This brief but comprehensive review of the skills and knowledge required, not of just the financial market and sentiment, but also of the technical attributes of a company and the drug development and regulatory hurdles that must be overcome, highlights the importance of the breadth of understanding required. Biotech investing is not for the timid, but it can bring substantial returns. Keegan's book, punctuated with his personal experience and opinions, is a good place to start."

—Chris Blackwell, Chief Executive, Vectura Group plc "A user-friendly, yet thorough discussion of a notoriously difficult topic. Dr Keegan's book is a fine resource for both business types and academicians." —Steve Winokur, Managing Director, CanaccordAdams "A highly readable and comprehensive explanation of the technical and commercial parameters that influence biotechnology companies at all stages of development, providing clear context for selection from the toolkit of valuation methodologies the author recommends to assess company and product performance, or ascribe value." —Dr L.M. Allan, Director, Bioscience Enterprise Programme, University of Cambridge "A fabulous approach to a difficult topic." —Deirdre Y. Gillespie, MD, President & CEO, La Jolla Pharmaceutical Company  
Value Investing John Wiley & Sons  
Praise for *Real Options Analysis* Course  
"Dr. Mun's latest book is a logical extension of the theory and application presented in *Real Options Analysis*. More specifically, the *Real Options Analysis* Course presents numerous real options

examples and provides the reader with step-by-step problem-solving techniques. After having read the book, readers will better understand the underlying theory and the opportunities for applying real option theory in corporate decision-making." -Chris D. Treharne, President, Gibraltar Business Appraisals, Inc. "This text provides an excellent follow up to Dr. Mun's first book, Real Options Analysis. The cases in Real Options Analysis Course provide numerous examples of how the use of real options and the Real Options Analysis Toolkit software can assist in the valuation of strategic and managerial flexibility in a variety of arenas." -Charles T. Hardy, PhD, Chief Financial Officer & Director of Business Development, Panorama Research, Inc. "Most of us come to real options from the perspective of our own areas of expertise. Mun's great skill with this book is in making real options analysis understandable, relevant, and immediately applicable to the field within which you are working." -Robert Fourt, Partner, Gerald Eve (UK) "Mun provides a practical step-by-step guide to applying simulation and real options analysis-invaluable to those of us who are no longer satisfied with conventional valuation approaches alone." -Fred Kohli, Head of Portfolio Management, Syngenta Crop Protection Ltd. (Switzerland)

Learn to effectively deliver business aligned cybersecurity outcomes In The CISO Evolution: Business Knowledge for Cybersecurity Executives, information security experts Matthew K. Sharp and Kyriakos "Rock" Lambros deliver an insightful and practical resource to help cybersecurity professionals develop the skills they need to effectively communicate with senior management and boards. They assert business aligned cybersecurity is crucial and demonstrate how business acumen is being put into action to deliver meaningful business outcomes. The authors use illustrative stories to show professionals how to establish an executive presence and avoid the most common pitfalls experienced by technology experts when speaking and presenting to executives. The book will show you how to: Inspire trust in senior business leaders by properly aligning and setting expectations around risk appetite and capital allocation Properly characterize the indispensable role of cybersecurity in your company's overall strategic plan Acquire the necessary

funding and resources for your company's cybersecurity program and avoid the stress and anxiety that comes with underfunding. Perfect for security and risk professionals, IT auditors, and risk managers looking for effective strategies to communicate cybersecurity concepts and ideas to business professionals without a background in technology. The CISO Evolution is also a must-read resource for business executives, managers, and leaders hoping to improve the quality of dialogue with their cybersecurity leaders.

### **INTERNATIONAL MERGERS AND ACQUISITIONS**

John Wiley & Sons

This book focuses on the valuation needed to apply IFRS (International Financial Reporting Standards), and provides coverage of financial instruments – indeed this is the starting point of the exposition. The book adopts a logical sequence where models of financial instruments are explained first and models of other assets (such as property, an enterprise, or multiple intangibles) are presented as extensions. The book uses mathematical notation in presenting many of the models, but the focus is on application rather than proof. The mathematics is presented at a level that assumes sufficient background in high school algebra and coordinate geometry, prior knowledge of elementary probability, and a knowledge of basic statistics. Readers should also be aware of what linear regression does and should be able to run a regression and interpret the output. Calculus is not assumed. The models discussed almost always require a computer to apply. However, the emphasis is on understanding the models rather than

learning computer skills, especially in the case of financial instruments.

This newly updated guide for matrimonial lawyers and accountants is the companion publication for Feder's Valuation Strategies in Divorce. In individual chapters, detailed information is provided on how to evaluate specific types of marital assets; the particular accounting and financial conventions that affect the owner's income from the asset and the value of the asset; and the rules, regulations and issues peculiar to the particular asset. The reader is also provided with checklists of documents needed to appraise the asset, sources of industry information, lists of trade associations and journals, a bibliography, and a case study and report. Part I on closely-held corporations contains chapters devoted to automobile dealerships, media companies, high-tech companies, property and casualty insurance companies, construction companies, and small businesses such as bars, restaurants and gas stations. Part II covers the evaluation of various professional practices, and Part III discusses the valuation of different types of real estate assets. Federal civil service pensions, military pensions and the pensions provided by Fortune 500 corporations are examined in Part IV. The methodologies for evaluating

personal property, such as gems, jewelry, and oriental rugs are found in Part V. Besides aiding attorneys and accountants, this publication will be of great assistance to appraisers, actuaries, and pension experts.

The Limited Liability Partnership were introduced in India vide the Limited Liability Partnership Act, 2008. LLP has combined the flexibility of a partnership and the advantages of limited liability of a company at a low compliance cost. Limited Liability Partnership Law effective from 1st April 2009 is a new business vehicle that provides the benefits of limited liability of a company but allows its partners the flexibility of organizing their internal management on the basis of a mutually arrived agreement. The new concept of LLP is gaining strength in India. Procedures for LLP compliance have changed since 2009. Taxation of LLP has been made clear by the provisions made in the Income-tax Act, 1961 through the Finance (No 2) Act 2009 and Finance Act, 2010. An attempt has been made in this book to analyze the provisions of Limited Liability Partnership Act, Rules and its taxation keeping in mind the practical difficulties, which a business entity/professional could face while adhering to the provisions contained in laws. Tables, charts and examples have been used sparingly to make the provisions understand easily. Book would be immensely useful for Company Secretaries, Law professionals, Chartered Accountants and everyone concerned with formation, incorporation, conversion, administration & management, accounting & audit and taxation of a LLP.
