An accessible and well-informed tour through a little-known, important aspect of race in American history.

Wiley AP U.S. History Princeton Review

"We've got some difficult days ahead," civil rights activist Martin Luther King, Jr., told a crowd gathered at Memphis's Clayborn Temple on April 3, 1968. "But it really doesn't matter to me now because I've been to the mountaintop. . . . And I've seen the promised land. I may not get there with you. But I want you to know tonight that we as a people will get to the promised land." These prophetic words, uttered the day before his assassination, challenged those he left behind to see that his "promised land" of racial equality became a reality; a reality to which King devoted the last twelve years of his life. These words and other are commemorated here in the only major one-volume collection of this seminal twentieth-century American prophet's writings, speeches, interviews, and autobiographical reflections. A Testament of Hope contains Martin Luther King, Jr.'s essential thoughts on nonviolence, social policy, integration, black nationalism, the ethics of love and hope, and more.

New technologies have radically transformed our relationship to information in general and to little bits of information in particular. The assessment of history learning, which for a century has

valued those little bits as the centerpiece of its practice, now faces not only an unprecedented glut but a disconnect with what is valued in history education. More complex processes—historical thinking, historical consciousness or historical sense making—demand more complex assessments. At the same time, advances in scholarship on assessment open up new possibilities. For this volume, Kadriye Ercikan and Peter Seixas have assembled an international array of experts who have, collectively, moved the fields of history education and assessment forward. Their various approaches negotiate the sometimes-conflicting demands of theoretical sophistication, empirically demonstrated validity and practical efficiency. Key issues include articulating the cognitive goals of history education, the relationship between content and procedural knowledge, the impact of students' language literacy on history assessments, and methods of validation in both large scale and classroom assessments. *New Directions in Assessing Historical Thinking* is a critical, research-oriented resource that will advance the conceptualization, design and validation of the next generation of history assessments.

Using letters, diaries, and regimental newspapers to take us inside the minds of Civil War soldiers—black and white, Northern

and Southern—as they fought and marched across a divided country, this unprecedented account is "an essential contribution to our understanding of slavery and the Civil War" (The Philadelphia Inquirer). In this unprecedented account, Chandra Manning With stunning poise and narrative verve, Manning explores how the Union and Confederate soldiers came to identify slavery as the central issue of the war and what that meant for a tumultuous nation. LETTER OF CHRISTOPHER COLUMBUS TO RAFAEL SANCHEZ

Princeton Review

This volume serves as an invaluable study guide covering all of the key political, social, and cultural concepts of the turbulent 1960s. The 1960s were a polarizing decade, beginning brightly and with hope but ending in disappointment and disarray. By the end, traditional values had been subverted, political institutions had been overturned, and marginalized groups had battled their own government to win equal rights and freedoms. The clear-cut foreign policies of the postwar era brought mixed results, and the world's mightiest nation became mired in a war it could not win. This overview of the 1960s covers all of the key political, social, and cultural concepts of the decade through topical and biographical entries, primary documents, a sample document-based essay question and top tips, and period-specific learning objectives. The book contains an Introduction that presents the historical themes of the period. Alphabetical encyclopedic entries relating to the period specific themes comprise the core reference material in the book. The book also contains a range of primary documents with their own introductions and a sample document-based essay question. Other features include a list of "Top Tips," a thematically tagged chronology, and a list of specific learning objectives readers can use to gauge their working knowledge and understanding of the period.

Stamp's classic work offers a revisionist explanation for the radical failure to achieve equality for blacks, and of the effect that Conservative rule had on the subsequent development of the South. Refuting former schools of thought, Stamp challenges the notions that slavery was somehow just a benign aspect of Southern culture, and how the failures during the reconstruction period created a ripple effect that is still seen today. Praise for *The Era of Reconstruction*: " . . . This "brief political history of reconstruction" by a well-known Civil War authority is a thoughtful and detailed study of the reconstruction era and the distorted legends still clinging to it."—Kirkus Reviews "It is to be hoped that this work reaches a large audience, especially among people of influence, and will thus help to dispel some of the myths about Reconstructions that hamper efforts in the civil rights field to this day."—Albert Castel, Western Michigan University *New Directions in Assessing Historical Thinking* Oxford University Press

THE FEDERALIST PAPERS

Princeton Review

One hundred years after the Tulsa Race Massacre, *Across the Tracks* is a celebration and memorial of Greenwood, Oklahoma. In *Across the Tracks: Remembering Greenwood, Black Wall Street, and the Tulsa Race Massacre*, author Alverne Ball and illustrator Stacey Robinson have crafted a love letter to Greenwood, Oklahoma. Also known as Black Wall Street, Greenwood was a community whose importance is often overshadowed by the atrocious massacre that took place there in 1921. *Across the Tracks* introduces the reader to the businesses and townsfolk who flourished in this unprecedented time of prosperity for Black Americans. We learn about Greenwood and why it is essential to remember the great achievements of the community as well as the tragedy which nearly erased it. However, Ball is careful to recount the eventual recovery of Greenwood. With additional supplementary materials including a detailed preface, timeline, and historical essay, *Across the Tracks* offers a thorough examination of the rise, fall, and rebirth of Black Wall Street.
