Introduction to Sociology Sociology: A Brief Introduction This three volume reference set offers a comprehensive look at the roles race and ethnicity play in society and in our daily lives. General readers, students, and scholars alike will appreciate the informative coverage of intergroup relations in the United States and the comparative examination of race and ethnicity worldwide. These volumes offer a foundation to understanding as well as researching racial and ethnic diversity from a multidisciplinary perspective. Over a hundred racial and ethnic groups are described, with additional thematic essays offering insight into broad topics that cut across group boundaries and which impact on society. The encyclopedia has alphabetically arranged author-signed essays with references to guide further reading. Numerous cross-references aid the reader to explore beyond specific entries, reflecting the interdependent nature of race and ethnicity operating in society. The text is supplemented by photographs, tables, figures and custom-designed maps to provide an engaging visual look at race and ethnicity. An easy-to-use statistical appendix offers the latest data with carefully selected historical comparisons to aid study and research in the area

Columbia University Press

In its second edition, this book takes a fresh approach to the study of sports, presenting key concepts such as socialization, economics, gender, race, ethnicity, religion, politics, the media and the role of sports in society. The authors offer a critical examination but highlight also the many positive aspects of sports. Each chapter concludes with a popular culture section, showing how films, television, video games, music and short stories have contributed to our understanding of sports' significance to our lives. Other features include up-to-date information--such as statistics on player and owner salaries--and a look at recent controversies in sports, such as performance-enhancing drugs, domestic violence, online gambling and the growing concern over concussions and post-career health problems. The value of sports for people with physical disabilities and special needs is discussed, as well as the development of sports studies programs and the continuing importance of "sportsmanship." The final chapter explores how social media, as well as new forms of virtual reality and the prevalence of video gaming, are reshaping the concept of what constitutes a sport. Instructors considering this book for use in a course may request an examination copy here.

Contemporary Strategy Analysis Text Only McGraw-Hill Humanities Social

Sociology: A Brief Introduction invites students to take sociology

with them in their daily lives. This successful, student-friendly program includes strong coverage of race, ethnicity, and globalization. The approachable material encourages students to develop their sociological imaginations and start to think like a sociologist. Paired with Connect, a personal and adaptive learning experience, students learn to apply sociology's three theoretical frameworks to the world around them.

RELATIONAL SOCIOLOGY

Pearson

The God Delusion caused a sensation when it was published in 2006. Within weeks it became the most hotly debated topic, with Dawkins himself branded as either saint or sinner for presenting his hard-hitting, impassioned rebuttal of religion of all types. His argument could hardly be more topical. While Europe is becoming increasingly secularized, the rise of religious fundamentalism, whether in the Middle East or Middle America, is dramatically and dangerously dividing opinion around the world. In America, and elsewhere, a vigorous dispute between 'intelligent design' and Darwinism is seriously undermining and restricting the teaching of science. In many countries religious dogma from medieval times still serves to abuse basic human rights such as women's and gay rights. And all from a belief in a God whose existence lacks evidence of any kind. Dawkins attacks God in all his forms. He eviscerates the major arguments for religion and demonstrates the supreme improbability of a supreme being. He shows how religion fuels war, foments bigotry and abuses children. The God Delusion is a brilliantly argued, fascinating polemic that will be required reading for anyone interested in this most emotional and important subject.

White Fragility McGraw-Hill Ryerson

Like its predecessors, the tenth edition of this text reflects Rick Schaefer's mission to bring readers a comprehensive, up-to-date presentation that teaches them how to think critically about society and their own lives from a wide range of classical and contemporary perspectives. Combining balanced coverage of theory with current research findings, distinctive social policy sections, examples of interest to students, and abundant learning aids and exercises, this text will help students develop a sociological imagination. An optional package combines Schaefer, *Sociology*, with PowerWeb, Tenth Edition and Reel Society Interactive Movie 2.0 CD-ROM at nominal extra cost. "The introductory sociology class provides the ideal laboratory in which to study our own society and those of our global neighbors. The distinctive emphasis on social policy found in this text shows students how to use the sociological imagination in examining such public policy issues as sexual harassment, the AIDS crisis, welfare reform, the death penalty, and privacy and censorship in an electronic age." – Richard T. Schaefer

SOCIOLOGY: A BRIEF INTRODUCTION

Pearson College Division

One of the most important books ever written on Ulysses, Dublin's Joyce established Hugh Kenner as a significant modernist critic. This pathbreaking analysis presents Ulysses as a "bit of anti-matter that Joyce sent out to eat the world." The author assumes that Joyce wasn't a man with a box of mysteries, but a writer with a subject : his native European metropolis of Dublin. Dublin's Joyce provides the reader with a perspective of Joyce as a supremely important literary figure without considering him to be the revealer of a secret doctrine.

SOC

Simon and Schuster

'Simultaneous invention' has become commonplace in the natural sciences, but is still virtually unknown within the sphere of social science. The convergence of two highly compatible versions of Critical Realism from two independent sources is a striking exception. Pierpaolo Donati's Relational Sociology develops 'upwards' from sociology into a Realist meta-theory, unlike Roy Baskhar's philosophy of science that works 'downwards' and 'underlabours' for the social sciences. This book systematically introduces Donati's Relational Sociology to an English readership for the first time since he began to advance his approach thirty years ago. In this eagerly awaited book, Pierpaolo Donati shifts the focus of sociological theory onto the relational order at all levels. He argues that society is constituted by the relations people create with one another, their emergent properties and powers, and internal and external causal effects. Relational Sociology provides a distinctive variant upon the Realist theoretical conspectus, especially because of its ability to account for social integration. It will stimulate debate amongst realists themselves and, of course, with the adversaries of realism. It is a valuable new resource for students of social theory and practising social theorists.

TECHNIQUES AND GUIDELINES FOR SOCIAL WORK

PRACTICE

Cengage Learning

A resounding best seller, this series of classic articles written by key sociologists and social thinkers will compliment any introductory sociology textbook. This reader serves as a foundation where students can read original works that teach the fundamental ideas of sociology. Priced right as a stand-alone and free when bundled with Wadsworth introductory texts, this brief reader is a convenient and painless way to bring the "great thinkers" to your students.

For courses in Race and Ethnic Relations Understand the changing dynamics of the U.S. population Understanding race and ethnic relations is essential to understanding the United States - where we've been as well as where we're going. Throughout the fourteenth edition of Racial and Ethnic Groups, author Richard T. Schaefer helps students view race and ethnic relations in a socio-historical context, so they can understand the past and best shape the future. The text's student-friendly framework is packed with engaging first-person accounts that illuminate the changing dynamics of the U.S. population, and reveal the stories behind these changes. Incorporating the latest statistics and data, Racial and Ethnic Groups enables educators to stay current in this ever-changing area of study. Also available with MySocLab MySocLab for the Race and Ethnicity course extends learning online,

engaging students and improving results. Media resources with assignments bring concepts to life, and offer students opportunities to practice applying what they've learned. And the Writing Space helps educators develop and assess concept mastery and critical thinking through writing, quickly and easily. Please note: this version of MySocLab does not include an eText. Racial and Ethnic Groups, Fourteenth Edition is also available via REVEL(tm), an immersive learning experience designed for the way today's students read, think, and learn. Learn more.

Sociology : an Introduction Pearson

Three basic premises guide this highly successful introductory text - first that theory and research must be both comprehensive and clear, second that the text must show how sociology is relevant both to the study of society and to students' lives and third that sociology can play a valuable role in teaching critical thinking skills. To that end, this solid, well respected text combines a balanced three-perspective approach with excellent student oriented examples, and distinctive social policy sections in a concise presentation that offers an alternative to full length books.

BRAIN, MIND, EXPERIENCE, AND SCHOOL: EXPANDED EDITION

Prentice Hall

Introduction to Sociology 2e adheres to the scope and sequence of a typical, one-semester introductory sociology course. It offers comprehensive coverage of core concepts, foundational scholars, and emerging theories, which are supported by a wealth of engaging learning materials. The textbook presents detailed section reviews with rich questions, discussions that help students apply their knowledge, and features that draw learners into the discipline in meaningful ways. The second edition retains the book's conceptual organization, aligning to most courses, and has been significantly updated to reflect the latest research and provide examples most relevant to today's students. In order to help instructors transition to the revised version, the 2e changes are described within the preface. The images in this textbook are grayscale. Authors include: Heather Griffiths, Nathan Keirns, Eric Strayer, Susan Cody-Rydzewski, Gail Scaramuzzo, Tommy Sadler, Sally Vyain, Jeff Bry, Faye Jones

A Brief Introduction Random House

This brief 4-colour paperback text covers all of the major topics in Sociology that instructors would cover in a 12- to 14-week course. Instructors will welcome the integration of race and gender issues throughout the text. Cross-cultural coverage is extensive. It is accompanied by a first rate ancillary package, including an innovative electronic study guide. This text will appeal to students and instructors who find they are simply unable to work through an introductory Sociology text with 20 chapters or more. Videos available - contact local sales rep.

Sociology Routledge

The approach used by Hoyle, Schaefer, and Doupnik in the new edition allows students to think critically about accounting, just as they will do while preparing for the CPA exam and in their future careers. With this text, students gain a well-balanced appreciation of the Accounting profession. As Hoyle 12e introduces them to the field's many aspects, it often focuses on past controversies and present resolutions. The text continues to show the development of financial reporting as a product of intense and considered debate that continues today and into the

future. The writing style of the eleven previous editions has been highly praised. Students easily comprehend chapter concepts because of the conversational tone used throughout the book. The authors have made every effort to ensure that the writing style remains engaging, lively, and consistent which has made this text the market leading text in the Advanced Accounting market. The 12th edition includes an increased integration of IFRS as well as updated accounting standards.

Racial and Ethnic Diversity in the USA McFarland

Extraordinary Groups has had a storied history of excellence over multiple editions. Now available from Waveland Press at the start of its fifth decade of availability, its interdisciplinary approach to groups engaged in unconventional lifestyles makes it a popular textbook choice in hundreds of college courses across the social sciences, including anthropology, religion, history, and psychology. Written by sociologists, using and illustrating sociological principles, the book is appealing because it is descriptive and explanatory rather than analytical. Descriptions of the groups are interwoven with basic sociological concepts, but systematic analysis and inductive reasoning are left to the discretion of the instructor. Extraordinary Groups is a compelling overview of the broad tapestry of social life that constitutes the United States. The illustrated, full-featured Ninth Edition includes a glossary and end-of-chapter key terms, sources on the Web, and selected readings.

Sociology in Our Times Policy Press

Robert M. Grant combines a highly accessible writing style with a concentration on the fundamentals of value creation and an emphasis on practicality in this leading strategy text. In this new edition, he includes an even greater focus on strategy implementation that reflects the needs of firms to reconcile scale economies with entrepreneurial flexibility, innovation with cost efficiency, and globalization with local responsiveness. This edition also incorporates some of the key strategic issues of today including: post-financial crisis adjustment, the continuing rise of China, India and Brazil, and the increased emphasis on ethics and sustainability. Coverage is also provided on strategy in not-for-profit organizations. Contemporary Strategy Analysis, 8th Edition, is suitable for both MBA and advanced undergraduate students. It has been adopted by leading business schools all across the world.

Mapping Structure and Change McGraw-Hill Education

Like its predecessors, the tenth edition of this text reflects Rick Schaefer's mission to bring readers a comprehensive, up-to-date presentation that teaches them how to think critically about society and their own lives from a wide range of classical and contemporary perspectives. Combining balanced coverage of theory with current research findings, distinctive social policy sections, examples of interest to students, and abundant learning aids and exercises, this text will help students develop a sociological imagination. An optional package combines Schaefer, Sociology, with PowerWeb, Tenth Edition and Reel Society Interactive Movie 2.0 CD-ROM at nominal extra cost. "The introductory sociology class provides the ideal laboratory in which to study our own society and those of our global neighbors. The distinctive emphasis on social policy found in this text shows students how to use the sociological imagination in examining such public policy issues as sexual harassment, the AIDS crisis, welfare reform, the death penalty, and privacy and censorship in an electronic age." - Richard T. Schaefer
