State

the function of the digestive system (4 components). Ingest: bring food into the body Digest: break down food into monomers Absorb: nutrients for use by the body Eliminate: unusable remnants of food 2. Digestive System - Duchess Park Biology 12 DIGESTION • During digestion, proteins are broken down into amino acids, carbohydrates into glucose, fats to glycerol and fatty acids, and nucleic acids to nucleotides. Mouth • Your mouth is where digestion (both chemical and mechanical) begins. • The mouth receives food, chews it up (mechanical), moistens it, and starts to digest any starch (chemical) in the food. Biology 12 Digestion Study Guide - DIGESTION Biology 12 ... Biology 12: The Digestive System. STUDY. PLAY. Mechanical (or physical) digestion. Increases the surface area eg. chewing, peristalsis, and emulsification by bile. Chemical digestion. The breakdown of food by digestive enzymes and other chemicals. Parotid glands. Biology 12: The Digestive System Questions and Study Guide ... • Digestion is an EXTRACELLULAR process. It occurs within the gut (a

tube that runs from mouth to anus). • Digestion is achieved through the cooperation of a number of body parts and organ systems, and its coordination depends on the actions of several key HORMONES. Let's first look at the parts of the digestive system: Mouth | Biology 12 - The Digestive System 1. State the function of the digestive system (4 components). 2. Define the following terms and give two examples of each: a. mechanical digestion b. chemical digestion 3. Label a diagram of the digestive system. 4. Trace the path of food during digestion. 5. Give functions of the digestive structures. 6. Study Guide - Duchess Park Biology 12 Biology 12 Textbook: BC Biology 12 Human Biology Study Guide - Answer Key Digestive System 1. State the function of the digestive system (4 components). Ingest: bring food into the body Digest: break down food into monomers Absorb: nutrients for use by the body Eliminate: unusable remnants of food 2. Biology 12 Digestion Study Guide Answer Key Biology 32 - Digestion Study Guide Block: 2. 4. 7. 9. 10. a) What is

digestion? b) What is the difference between digestion and absorption? c) Between chemical and mechanical digestion?

a) Digestion: the mechanical and chemical breaking down of food into particles and then molecules small enough to enter the internal environment of the body. KMBT 654-20140501154408 - Biology 12 - Study Guide Key Define pancreas. Produces important enzymes and hormones that help break down foods and serves both endocrine and exocrine functions - they help with the digestion of food. Define small intestine. The part of the intestine where most of the digestion and absorption of food takes place. Define appendix. Biology 12 - Digestive System & Enzymes Questions and ... In the human digestive system, large organic masses are broken down into smaller particles that the body can use as fuel. This is a complex process. The breakdown of the nutrients requires the coordination of several enzymes secreted from specialized cells within the mouth, stomach, intestines, and liver. The major organs or structures that coordinate

digestion within the human body include the mouth, esophagus, stomach, small and large intestines, and liver. Human Digestive System Chapter 15: Study Guide. Original Document: Chapter 15 Study Guide 1. What is peristalsis? ___ muscular movements that push food through the alimentary canal ___ 2. What are papillae and where are they located? ___ taste buds, tongue ___ 3. What is the roof of the oral cavity called (2 parts): _ soft and hard palate Where is the uvula? Study Guide - Digestive System - The Biology Corner Biology 12 Digestion Study Guide - DIGESTION Biology 12 ... 1. State the function of the digestive system (4 components). 2. Define the following terms and give two examples of each: a. mechanical digestion b. chemical digestion 3. Label a diagram of the digestive system. 4. Trace the path of food during digestion. 5. Biology 12 Digestion Study Guide - orrisrestaurant.com Biology 12 - Digestion Study Guide. a) What is digestion? b) What is the difference between digestion and absorption? c) Between chemical and mechanical digestion? 2.

Compare the composition of the food we eat with the molecules that our cells actually use. 3. a) How many teeth do adults have? b) What are the four types of teeth and their functions? 4. Biology 12 - Digestion Study Guide - Digestive System - The Biology Corner Biology 12 - Digestion Study Guide. a) What is digestion? b) What is the difference between digestion and absorption? c) Between chemical and mechanical digestion? 2. Compare the composition of the food we eat with the molecules that our cells actually use. 3. a) How many teeth do adults have? Biology 12 Digestion Study Guide - old.dawnclinic.org Biology 12 - Digestion - Biology 12 - Digestion Study Guide. a) Most animals cannot digest cellulose, so that grass, an ubiquitous plant, cannot satisfy their nutritional needs. Glencoe Biology Chapter 12 Study Guide Answers | - North Carolina Standard Course of Study for .
