### **A WALKER SAGA BOOK ONE**

Penguin

I'm the dying leader of the human resistance. He's the Alpha of the D.C. pack. He's as rough and cold as they come and destined to be my enemy. But he needs me for something only a human can achieve. If I can pull off his mission, he's got something no human can give me: a chance at living beyond the next few months. When I agreed, I knew I might lose my life, but danger has never scared me. I didn't know I might also lose my heart... This romance novel can be read alone, but it's set in a common world with book one.

### **VISCERAL REACTION**

Semiotic, Linguistic, and Discursive  
Orientations Social/Interactional  
Orientations Theory, Metatheory,  
Methodology, and Inquiry

### **SAVAGE ONE: BORN WILD #2**

The WildsI met a Plaguer today, one of the very few who survived the last outbreak of Bloody Death. She said horrible things about me and my companions. We all called her crazy afterward and claimed this was the reason they needed to be locked up. They spread lies that could hurt our fragile world, nearly brought to extinction 150 years ago. But here's the catch: she was right about me. I have a niggling fear that she was right about my friends, as well. What if the Plaguers are right about the people in charge? What if they are right about everything? This book is for all the Plaguers, the truth sayers branded and marked as liars, often hunted and sometimes forgotten. This book is for the girl who was right. Jinxed

An introduction to the art of rhetoric explains how persuasion can profoundly influence personal and professional successes and reveals an array of techniques employed by such personalities as Aristotle and Winston Churchill.

*From a Culture of Violence to a Culture of Peace* Houghton Mifflin Harcourt

"This work is a tour-de-force in cross-cultural scholarship, both sound and bold, constructing a new and refreshing theory on the rise to prominence of rebirth eschatology in India.

Obeyesekere argues convincingly that 'ethicization' of rebirth through the

theory of karma was the new ingredient that transformed a commonplace belief into a central philosophical and eschatological principle in most of Indian theologies. This is a book that will engage and challenge anthropologists, classicists, and Indologists alike, as well as non-specialists interested in culture and religion."—Patrick Olivelle, University of Texas at Austin "This is a book in the grand tradition of comparative studies, pulling together anthropology, psychology, psychoanalysis, classics, Indology, and history of religions, but in a distinctly contemporary mode. Few scholars would attempt such a project today, let alone pull it off so intriguingly as Obeyesekere does. A brilliant and intellectually courageous book."—Paul B. Courtright, Emory University, author of *Ganesha, Lord of Obstacles, Lord of Beginnings* *The Complete Series* Strong Hold Publishing

Bound by duty. Marked by fate. I'm Krystin Blackwood, and I've only ever been good at one thing: killing demons of Darkness. But at twenty-four, I'm about to face my toughest challenge yet: shifting from working alone to joining a team of three other Hunters. Newbie Hunters. They don't know their magik, they barely know their place in the world, and when they find out the secrets I've been carrying, they'll definitely decide it's safer if they don't know me. But unfortunately for them—and me—Darkness has other plans. Lady Azar, Darkness's heir, stole my new team leader's son two years ago. Now, she and her lackeys are rallying to exchange Ben's son for me because of the power I wield. I'm one-half of a prophecy to save an ancient city the Powers of Good lost centuries ago. And if I fail or die before that

happens, the destruction of that city will be felt across all planes of existence. If we can't find Ben's son before All Hallows' Eve and somehow save him without putting my life at risk, that existential explosion will absolutely happen. But it'll be nothing compared to the destruction wrought if Lady Azar changes Ben's son into a demon... and her minion. Because the only thing more dangerous than me with a blade is a father's wrath. This complete series boxset contains all five books of the Hunter Circles Series: *The Hunted*, *The Traitor*, *The Changed*, *The Hero*, and *The Power*. All are full-length 60k+ urban fantasy adventure novels full of non-stop action-packed adventure and demon-fighting, magic, gray anti-heroes, a slow-burn romance, and a story full of heart from the very first page. Scroll up and start the Hunter Circles Series today! *Wild One* Strong Hold Publishing, LLC

[More to the Story](#) Penguin UK

I went from being an outcast in Salem, to living in Xest, a world that exists solely on magic. I have a good job brokering hopes and wishes, a hot boss, and a cool place to live. My life is a witch's dream. Except there are a couple of teensy little problems. I might've accidentally gotten infused with some magic that didn't belong to me. The hot boss? I might be falling in love with him, to my detriment. If that isn't enough, heaven and hell have finally caught up to me, demanding I return the extra magic or else. Too bad I don't know how to do that.

**The Whimsy Witch Who Wasn't** MDPI  
Ryker calls it an accident. I call it another betrayal. He didn't want me to leave but didn't fight to keep me by his side. Wronged magically and devastated emotionally, I exile myself to another

country, Dorley. Now I perform tricks under a tent, my mystical gifts a common sideshow. Just as I'm accepting my self-inflicted fate, Ryker makes a move that forces me back to the Valley. But an ancient evil is stirring and follows me. With magical stones disappearing, the power I possess within makes me a target. Old hurts have to be put aside and enemies must unite or an evil strong enough to destroy us all will be unleashed.

### GUT DEEP

Tales of Xest

A darkness has settled over Xest, as roaming hordes of grousies prey on the vulnerable. Witches and warlocks fear walking the streets, as lines are being drawn, and sides are taken. There's only one way to stop the destruction coming, but tracking down an evil that doesn't want to be found isn't easy. When a demon from hell shows, threatening to take over a Xest on the brink of destruction, I only have one option: get in the way. My sacrifice, offering myself as collateral to buy us time, is driving a larger divide between me and a furious Hawk. Meanwhile, finding the origin of the evil destroying our world means delving into my own inner demons. The closer I get to the truth, the closer I get to losing Hawk, my newfound family and everything I've fought for. Reading Order:1. The Whimsy Witch Who Wasn't2. The Nowhere Witch3. The Most Wanted Witch4. ?

### JINXED

Pearson Higher Ed

This book is open access and available on [www.bloomsburycollections.com](http://www.bloomsburycollections.com). It is funded by Knowledge Unlatched. Corpus linguistics has much to offer history, being as both disciplines engage so heavily in analysis of large amounts of textual material. This book demonstrates the opportunities for exploring corpus linguistics as a method in historiography and the humanities and social sciences more generally. Focussing on the topic of prostitution in 17th-century England, it shows how corpus methods can assist in social research, and can be used to deepen our understanding and comprehension. McEnery and Baker draw principally on two sources - the newsbook *Mercurius Fumigosis* and the Early English Books Online Corpus. This scholarship on prostitution and the sex trade offers insight into the social position of women in history.

Ulysses McGraw-Hill College

Everybody has bad days, stories of horror and woe. Unless they have the wind calling their name and ghosts telling them they have bad debts, I don't have time to listen. I'm too busy with the hot guy who yelled at me because of some stupid feather, and the strange people jumping through puddles and

kidnapping me to Xest. If you don't know where Xest is, join the club. They say it's somewhere north of North, and east of East. It sure doesn't look like any place I've ever seen. So yeah, top that day and maybe I'll hear you out. Right now though, I've got to go help the hot guy keep the darkness at bay over by the Unsettled Lands, while trying to not blow things up. It's the only way I'll ever get back to Salem.

**The Only Astrology Book You'll Ever Need** Ballantine Books

Some think seeing into the future, even if it's death, is a gift. For me it has always been a curse. Magic rules this new world and my form of it is no blessing. Neither are the walls around me that I've been told are for my protection. If there is anything more cruel or vicious in the Wilds than what I've experienced here, I can't imagine it. After being sold to the highest bidder, a more ruthless monster than the one who controls me is looming. My life is on the razor's edge of disaster and about to get worse until I'm broken free, aided by one of the most unlikely allies that roams the Wilds. I'm willing to do the unthinkable and imprison another to remain free. But now my new master is hunting me and the one I've trapped is all that stands between me and an existence more horrific than death.

*First World* Univ of California Press

Noted for its integration of real-world data and case studies, this text offers sound coverage of the theoretical aspects of mathematical statistics. The authors demonstrate how and when to use statistical methods, while reinforcing the calculus that students have mastered in previous courses.

Throughout the Fifth Edition, the authors have added and updated examples and case studies, while also refining existing

features that show a clear path from theory to practice.

*Encyclopedia of Communication Theory*  
Bloomsbury Publishing

Death isn't as black and white as they say, at least not for me. I can tell you when you'll die and pull you back from the brink of death. In a world ravaged by plague, where survival might come down to the smallest misstep, I can help you cheat fate. If only I could save myself... I've been abused and abandoned, bartered and paid for. The only reason I'm alive right now is a man named Callon, who I managed to trick into sticking by me. But things are looking up when my last purchaser calls for a truce, and I land a nice comfy place to live. Except when something seems too good to be true, it usually is. There is a larger threat lurking that no one sees, and it's about to wipe out the lodge in order to get to me. In a world torn apart by wars and sickness, a safe place to lay your head is hard to find, and I won't go down without a fight.

**A TORN WORLDS ROMANCE**

Taylor Trade Publications

The Most Compelling Scientific Evidence for Life Beyond Death Ever Compiled Evidence of the Afterlife shares the firsthand accounts of people who have died and lived to tell about it. Through their work at the Near Death Experience Research Foundation, radiation oncologist Jeffrey Long and his wife, Jody, have gathered thousands of accounts of near-death experiences (NDEs) from all over the world. In addition to sharing the personal narrative of their experiences, visitors to the website are asked to fill out a one hundred-item questionnaire designed to isolate specific elements of the experience and to flag counterfeit

accounts. The website has become the largest NDE research database in the world, containing over 1,600 NDE accounts. The people whose stories are captured in the database span all age groups, races, and religious affiliations and come from all over the world, yet the similarities in their stories are as awe-inspiring as they are revealing. Using this treasure trove of data, Dr. Long explains how medical evidence fails to explain these reports and why there is only one plausible explanation—that people have survived death and traveled to another dimension.

*The History of Feminism and the Future of Women Torn Worlds*

It is the very worst time to be in the woods. Oisin's plan is to come with his bow to help Aedan and Doona lead a party of children into the forest to gather the maidenhair seedlings his people would take across the sea as they flee the trolls who hunt them as prey. Maybe he can be back in time for supper. Dyr's plan is an early evening head smash for the foolish Elves who think they can steal away to the sands of the endless eye sting water and build their strange float huts. They will make a glorious feast. But on the way, Dyr's brutes stumble across Oisin's gathering party and attack, leaving Aedan mortally wounded and scattering Doona and the children to flee in terror into the dark mountain woods, only to be run down and captured by the bloodthirsty trolls. Can Oisin find the bonfires of the trolls and rescue them before it's too late? And what then? Will any of them live long enough to reach safety?

**HUNTER CIRCLES SERIES COMPLETE**

**BOXSET**

UNESCO

A paranormal romance series. An epic journey. If the Seventine are released, will anyone survive? Abigail Swish might not love her life, living in gang-ridden New York in 2035 and training to fight and survive with Compound 23. But she is grateful for a few things, especially her no-filter-between-brain-and-mouth best friend Lucy and her escape each night into a dream world far different from her own. In fact, sometimes she lives for the fleeting moments she spends at night with the man who fuels every romantic fantasy she's ever had. But every morning reality returns. Sometimes she could just cry. But she won't; she'll keep on kicking butt instead. Then without warning, a month before her eighteenth birthday, everything changes. A guardian finds her. He explains, in a strangely familiar accent, that she was stashed on Earth for safekeeping and has been lost to her family ever since. And it is time to return home. To the First World. A land of unimagined beauty. Abigail will journey to find the family she's always hoped for and the soul mate that has been centre stage of her dreams. But in the end will the secrets lurking on First World spell disaster for not only her existence but that of all worlds? First World is book one in the Walker Saga, a seven-book paranormal fantasy series.

**Book of Haikus** Random House

A delinquent sixteen-year-old girl is sent to live with her uncle for the summer, only to learn that he is a Grim Reaper who wants to teach her the family business.
