Collocations are essential for communication, especially in the field of business; however, the knowledge of collocations is often insufficient. The aim of the work is to compare the effectiveness of using authentic vs. non-authentic materials for teaching Business English collocations to bachelor programme pre-experience learners by means of conducting the quasi-experiment. The data collection tools, namely, classroom observation, course evaluation questionnaire and test results showed that the group that was taught the collocations using authentic materials made more considerable progress than the group, in which non-authentic materials were employed. It is concluded that authentic materials designed using corpora and business-related websites analysis facilitate learners' collocational competence

and should be incorporated in teaching. *Five-Minute Activities for Business English Compass* This book gathers some of the latest approaches to Lexicology and Lexicography, which span from research on language for specific purposes to the study of lexical constellations and translation. It aims to present a multifaceted insight on current trends and, thus, includes papers that explore lexical processes in several areas, which comprise fields so diverse and riveting such as the language of cinema, fashion, tourism, and even comics. In addition, other papers examine the lexicon of well-established professional languages, such as the language of law, medicine and business, by revealing leading-edge perspectives on topics such as translation, word-formation, cultural clashes, or lexical selection. Key issues on learning and teaching are also considered, as part of a long tradition in the study of professional and academic languages that posits users' learning needs as the cornerstone

to the study of these languages. Therefore, this work proposes a strong emphasis on lexis and terminology, which are highlighted as the fundamental core of the definition and analysis of specialized languages. All in all, this publication intends, on the one hand, to embrace current trends in the study of specialized lexicon and terminology from the perspective of both Lexicology and Lexicography, and, on the other hand, to open new possibilities for future research.

Routledge  
This edited collection presents the state of the art in research related to lexical combinations and their restrictions in Spanish from a variety of theoretical approaches, ranging from Explanatory Combinatorial Lexicology

to Distributed Morphology and Generative Lexicon Theory. Section 1 offers a presentation of the main theoretical and descriptive approaches to collocation. Section 2 explores collocation from the point of view of its lexicographical representation, while Section 3 offers a pedagogical perspective. Section 4 surveys current research on collocation in Catalan, Galician and Basque. Collocations and other lexical combinations in Spanish will be of interest to students of Hispanic linguistics. Teaching English Online - Business English through Coaching and Conversation - Lesson Plan Ebook - 92 pages Are you an existing Online English Teacher with a desire to incorporate Business English into your teaching arsenal? This Ebook could be for you! As an experienced Online English Teacher with a background in HR and over 20 years of work experience, I largely specialise in Business English, teaching via the popular language-learning platform, Italki, in addition

to offering private lessons on my website. The vast majority of my students are B1-C2 level ADULT PROFESSIONALS based in Russia, and across Europe. Many work in particular fields such as IT, Banking and HR. Students such as these may be working for an international company, are relocating to an English-speaking country, or may simply want to focus on their interview technique. The issue is, however, is that much of the Business English material available to teachers has a tendency to focus on overly-formal language, outdated situations and generalised vocabulary which may not be relevant to individual students. Also, professionals may be able to describe the technical intricacies of their job role, but struggle when it comes to discussing behaviours. 2020 has also seen a change in Business English. Boardroom meetings have turned into Zoom calls, Job Interviews take place over Skype, and the use of informal language on modern communication platforms has become far more prominent. This Ebook is effectively the second half of my FULL Business English Ebook - this option

is for any existing, experienced who are simply looking for some structured, conversational lesson plans to use with students. Classroom lessons and textbooks for advanced students are not necessarily useful. Advanced students want to have a conversation, build their confidence and learn new, relevant vocabulary. This Ebook consists of over 60 behavioural, skills-based, issues-based, and industry-specific conversational lesson plans. Each lesson plan contains useful prompts for the teacher, relevant phrasal verbs, idioms, and collocations for the student to use during a lesson, in addition to pre-work/technical prompts for both the student and teacher in the industry-specific topics. These lesson plans will last you forever!! You can also find examples of behavioural interview questions which are typically asked in modern times, particularly around failure and reflection, leadership skills and more, instead of the typical "What are your strengths and weaknesses" questions. Overall, Business English students need support with confidence. This can only be achieved through

1-2-1 coaching and conversation. If you are a new teacher who would simply like further detail and guidance on the WHY and HOW of Business English through Coaching and Conversation, you can pick up the FULL Ebook on this site. Happy Teaching!

Collocations Dictionary | 6000 Useful Collocations | Example Sentences of Collocations | Collocation exercises A collocation is a combination of words that are often used together and sound natural together J.R. Firth, a British linguist first used the term "collocation" in its linguistic sense. These combinations are natural and sound "right" to native English speakers. In contrast, other combinations may be unnatural and sound "wrong". You should say "light rainfall" and not "skinny rainfall" You should say "take a printout" and not "perform a printout" You should say "dog barks" and not "dog yells" You should say "don't commit

a crime" and not "don't do a crime" You should say "sweet memory" and not "syrupy memory" You should say "strong criticism and not "muscular criticism"

If learners of English wish to acquire active command of the English language, i.e., if they wish to be able to express themselves fluently and accurately in speech and writing, they must learn to deal with the combination of words into phrases, sentences and texts. The collocations in this text have been selected to make it as useful and easy to use as possible for learners of English. A special effort has been made to identify and incorporate collocations that are used in the business area, thus, contributing to a better business English fluency.

*Business Benchmark Upper Intermediate Business Vantage Student's Book* Cambridge University Press  
 This language course book provides the tools to communicate effectively throughout the development of construction projects. It includes the most important vocabulary, grammar and expressions for the successful collaboration in English-speaking planning teams. The 16 chapters are organised according to the planning phases of a project, introducing essential vocabulary from the brief and feasibility study through to the completion and acceptance of a scheme. The planning and development of a single-family home provides a

framework to practise business skills, such as telephoning, writing emails and negotiating. Important grammar structures have been included to offer readers the opportunity to refresh and practise elements appropriate to the phase of construction. In addition to the book contents, readers have access not only to audios by scanning the QR codes at the conversations but also the Springer Nature Flashcards-App, which can be downloaded free of charge, to learn vocabulary more effectively with 320 digital flashcards. According to the Common European Framework of Reference for Languages, the level of this book is B2/C1. Oxford Business English Dictionary Winfield Trivette II Business Phrasal Verbs (CorpusLAB Series) contains explanations and exercises related to the most common phrasal verbs used in Business English. The book also covers common phrases and collocations used in Business English. So, for example, the book covers not just a phrasal verb like "put in" but phrases such as "put in a bid." The book is informed by the analysis of American

English used in business situations and the example sentences used in the book are based on real language. English collocations in use : advanced ; how words work together for fluent and natural English ; self-study and classroom use Springer Science & Business Media Short activities reflecting real-life business situations to complement both tailored and coursebook based materials. *English for Planning and Building Professionals* Cambridge Scholars Publishing Textual Patterns introduces corpus resources, tools and analytic frameworks of central relevance to language teachers and teacher educators. Specifically it shows how key word analysis, combined with the systematic study of vocabulary and genre, can form the basis for a corpus informed approach to language teaching. The first part of the book gives the reader a strong grounding in the way in which language teachers can use corpus analysis tools (wordlists, concordances, key words) to describe language patterns in general and

text patterns in particular. The second section presents a series of case studies which show how a key word / corpus informed approach to language education can work in practice. The case studies include: General language education (i.e. students in national education systems and those following international examination programmes), foreign languages for academic purposes, literature in language education, business and professional communication, and cultural studies in language education.

English for Successful International Communication (B2), specially designed for young adults studying Business English at B2 level in Spain, is divided into fifteen 10-page units. Each main unit is divided into three sections: Reading, Listening and Looking at Language, while Put it into Practice tasks, involving students in research and presentation projects, are intended to conclude each unit in a meaningful way. In addition to the main units, after every three units there is a Revision & Extension section, where students revise and further develop their understanding of important vocabulary and language items previously dealt with. Interspersed throughout the book are

five Business Skills mini-units and five Work on Writing mini-units. In the former, students are introduced to a topic, given advice from experts in the field and then asked to practice each skill through role plays and informal presentations; in the latter, students are provided with writing tips and asked to analyze a work-related text type before being given the chance to write a similar text of their own. English for Successful International Communication (B2) was born out of ESIC's 5 Cultures Program, which incorporates the areas of Service to Stakeholders, Excellence, Responsibility, Diversity and Innovation. The innovative content and subject matter of each unit was selected with Business students—specifically, ESIC stakeholders—in mind, and is intended to reflect material they deal with in their degree program coursework. The diverse range of topics is designed to help students not only to further develop their linguistic skills, but also to think more critically about the world around them. In an effort to promote increased excellence,

E.S.I.C. (B2) includes professional guidance and practical insights into emerging topics in the world of Business, Marketing and Advertising (e.g. Corporate Social Responsibility, Big Data and Influencers).

### **COMMUNICATING IN BUSINESS ENGLISH**

Cambridge University Press  
The papers published in this volume were originally presented at the Sixth International Conference on Teaching and Language Corpora (4-7 July 2004 Granada, Spain) and reflect the latest developments that have taken place in the field of the teaching applications of text corpora, with a special emphasis on their use in the foreign language classroom. The book is divided into three main sections. The first section sets the scene for what this collection of essays aims to be. It deals with the issue of what corpus linguistics can do not only for the understanding of the nature of language itself but also for so fundamental and miraculous a matter such as language learning and language acquisition. The second section tackles the issues of corpus design

and corpus exploitation and provides the reader with a great variety of evidence in favour of corpora exploitation for the building of a successful teaching environment. The final section deals with practical applications of corpora in the foreign language classroom. Although each of the papers here reports particular experiences in very different teaching and learning contexts, as a whole they show that corpora can be used on the spot in a language teaching context by teachers and learners without extensive training in computational tools, and studies of linguistics features can be tailored to specific pedagogic context and learning requirements. The book represents a solid contribution to linguistic studies and language teaching and it is a good example of the diversity of the scientific lines in which corpus linguistics is involved at the present moment.

About the Book Have Fun: Learn to Speak and Understand American English, or What You Don't Know Might Hurt You. A Book of Helpful Tips by Milena Kunin Portney has been designed for learners of English as a Second Language (ESL) who live in the United States. It covers a number of grammatical, lexical, and stylistic issues that (with some tutoring) will enable one to function on an acceptable level in the new environment without spending too much time in a classroom. The target students must have been already exposed to American English in their everyday lives and possibly attended some ESL or Basic Literacy classes, but still find it difficult to speak and understand English. In spite of the wide range of educational backgrounds

as well as language exposure, they have been observed to share similar gaps in their knowledge of English, which inevitably hinder further language acquisition.
