Clouds* Jazzybee Verlag

This clear and comprehensive anthology, culled from the vast corpus of Christian mystical literature by the renowned theologian and historian Bernard McGinn, presents nearly one hundred

selections, from the writings of Origen of Alexandria in the third century to the work of twentieth-century mystics such as Thomas Merton. Uniquely organized by subject rather than by author, *The Essential Writings of Christian Mysticism* explores how human life is transformed through the search for direct contact with God. Part one examines the preparation for encountering God through biblical interpretation and prayer; the second part focuses on the mystics' actual encounters with God; and part three addresses the implications of the mystical life, showing how mystics have been received over time, and how they practice their faith through

private contemplation and public actions. In addition to his illuminating Introduction, Bernard McGinn provides accessible headnotes for each section, as well as numerous biographical sketches and a selected bibliography. Praise for *The Essential Writings of Christian Mysticism* "No one is better equipped than Bernard McGinn to provide a thorough and balanced guide to this vast literature....This is an anthology which deserves to be read not only by those who study Christian history and theology, but by believers who long to deepen their own lives of prayer and service." -- Anglican Theological Review "Bernard McGinn, a preeminent historian and

interpreter of the Christian mystical tradition, has edited this fine collection of mystical writings, organizing them thematically....McGinn offers helpful introductions to each thematic section, author and entry, as well as a brief critical bibliography on mysticism. Published in the Modern Library Classic series, this is a great value." - Christian Century "No-one is better equipped than Professor McGinn to provide a thorough and balanced guide to this vast literature. A first-class selection, by a first-class scholar." -- Rowan Williams, Archbishop of Canterbury "This accessible anthology by the scholarly world's leading historian of the

Western Christian mystical tradition easily outstrips all others in its comprehensiveness, the aptness of its selection of texts, and in the intelligent manner of its organization." -- Denys Turner, Horace Tracy Pitkin Professor of Historical Theology, Yale Divinity School "An immensely rich anthology, assembled and introduced by our foremost student of mysticism. Both the scholar and the disciple will find God's plenty here." -- Barbara Newman, Professor of English, Religion, and Classics, John Evans Professor of Latin, Northwestern University "An unusually clear and insightful exposition of major texts selected by one of the greatest

scholars in the field of Christian mysticism, based on his vast erudition and uniquely sensitive interpretation. Like his other books, this one too is destined to become a classic." -- Professor Moshe Idel, Hebrew University, Jerusalem

A practicing Buddhist and Oriental linguist recounts supernatural events she witnessed in Tibet during the 1920s. Intelligent and witty, she describes the fantastic effects of meditation and shamanic magic — levitation, telepathy, more. 32 photographs. In this sixth and final

volume in the Foundation of Buddhist Thought series, Geshe Tashi Tsering brings his familiar, helpful approach to the esoteric practices of Buddhist tantra. Anticipating the many questions Westerners have upon first encountering tantra's colorful imagery and veiled language, Tantra uses straight talk to explain deities, initiations, mandalas, and the body's subtle physiology of channels and chakras. Tantric Buddhism provides a quick avenue to buddhahood by means of dissolving the body's wind energies into the central channel at the heart, mimicking the transformations of consciousness that occur at the time of death. Guiding readers systematically from

tantra's generation stage through to the full enlightenment of the completion stage, Geshe Tashi Tsering even unpacks a simple compassion practice composed by the Dalai Lama, using it to illustrate the building blocks common to all such visualization techniques. Tantra is a fitting conclusion to this accessible and practical series. Foundations of Tibetan Mysticism Dharma Publishing
Now in a fully corrected edition, one of the true spiritual classics of the twentieth century. Published for the first time with an index and Cardinal Hans Urs von Balthasar's afterword, this new English publication of Meditations on the Tarot is the landmark

edition of one of the most important works of esoteric Christianity. Written anonymously and published posthumously, as was the author's wish, the intention of this work is for the reader to find a relationship with the author in the spiritual dimensions of existence. The author wanted not to be thought of as a personality who lived from 1900 to 1973, but as a friend who is communicating with us from beyond the boundaries of ordinary life. Using the 22 major arcana of the tarot deck as a means to explore some of humanity's most penetrating spiritual questions, *Meditations on the Tarot* has attracted an unprecedented range of praise from across

the spiritual spectrum.

A Living Buddhism for the West Singing Dragon

Presents a translation and commentary to the oldest known extant Taoist text, *Inward Training (Nei-yeh)*, which is composed of short poetic verses devoted to the practice of breath meditation and its resultant insights about human nature and the cosmos. Roth argues that *Inward Training* is the basis of early Taoism, and suggests that there may be more continuity between early philosophical Taoism and later Taoist religion than scholars have thought.

One of the most common issues clients face is lack of energy,

vitality or prana and this book presents a simple yet revolutionary breathing approach to restore balance. Grounded in the yogic teachings, this text introduces the Buteyko breathing method as a more contemporary way of understanding the original intention of pranayama. Through extensive research, Robin Rothenberg establishes that as with Dr. Buteyko's breath retraining technique, the ancient yogis prescribed breathing less not more. Vedic science and physiology are broken down and explained in accessible ways. The book presents a new understanding and application of breathing to address a wide range of ailments, including COPD,

asthma, hay-fever, autoimmune disorders, anxiety, sleep apnoea and neurological conditions.

"The End of Faith articulates the dangers and absurdities of organized religion so fiercely and so fearlessly that I felt relieved as I read it, vindicated....Harris writes what a sizable number of us think, but few are willing to say."—Natalie Angier, New York Times In *The End of Faith*, Sam Harris delivers a startling analysis of the clash between reason and religion in the modern world. He offers a vivid, historical tour of our willingness to suspend reason in favor of religious beliefs—even when

these beliefs inspire the worst human atrocities. While warning against the encroachment of organized religion into world politics, Harris draws on insights from neuroscience, philosophy, and Eastern mysticism to deliver a call for a truly modern foundation for ethics and spirituality that is both secular and humanistic. Winner of the 2005 PEN/Martha Albrand Award for Nonfiction.

'It tells of terrible journeys, of men masked against the sun (riding through ethereal regions with their feet frozen), of welcoming fog-girt monasteries lit by butter lamps at the journey's end' New Statesman The Way of the White Clouds is the remarkable narrative of a pilgrimage which could not be made today. Lama Anagarika Govinda was among the last to journey through Tibet before its invasion by the Chinese. His unique account is not only a spectacular and gloriously poetic story of exploration and discovery, it is also invaluable for its sensitive and clearly presented interpretation of the Tibetan tradition. 'Why is it that the fate of

Tibet has found such a deep echo in the world? There can only be one answer: Tibet has become the symbol of all that present-day humanity is longing for! Lama Anagarika Govinda *Foundations of Tibetan Mysticism* Penguin Group

principles. Lama Govinda explains the esoteric principles of mantra and completely discusses the meaning of OM MANI PADME HUM -- the path of universality, the path of unification, the path of creative vision, the path of integration -- ending with the path of the Great Mantra. Foundations of Tibetan Mysticism Foundations of Tibetan Mysticism "The Mystic Christ is an ancient tale of mystic union, salvation, and enlightenment. It is the careful uncovering of a lost treasure of immeasurable value, long buried in the suffocating darkness of conventional orthodoxy on one side, and blind fundamentalist extremism on the other. From the viewpoint of the

world's mystical religious traditions, the brilliant light of the Master's way is revealed as a penetrating radical non-duality unifying all people and all of life. His path to this all-embracing unity is the spiritual practice of pure selfless love. Love God intensely, love our neighbor as our own Self, bless those that curse us, and pray for those that mistreat us. Love has been lost, becoming nothing more than a word in the dictionary and, yet, it remains the foundation of Jesus' message."

FOUNDATIONS OF TIBETAN MYSTICISM

An amazing, often overlooked story of the man who brought Yoga and Tibetan culture to

America. Theos Bernard's colorful, enigmatic, and sometimes contradictory life captures an intersection of East and West that changed our world. After years of forcibly stopping foreigners at the borders, the leaders of Tibet opened the doors to their kingdom in 1937 for Theos Bernard. He was the third American to set foot in Tibet and the first American ever initiated into Tantric practices by the highest lama in Tibet. When Bernard left that sacred land, he was sent home with fifty mule loads of priceless, essential Buddhist scriptures from government and monastery vaults. Bernard brought these writings to America,

where he achieved celebrity as a spiritual master. Appearing four times on the cover of the largest-circulation magazine of the day, befriending some of the most famous figures of his era, including Charles Lindbergh, Lowell Thomas, Ganna Walska, and W. Y. Evans-Wentz, and working with legendary editor Maxwell Perkins, the charismatic and controversial “White Lama” introduced a new vision of life and spiritual path to American culture before mysteriously disappearing in the Himalayas in 1947. Biography, travel and adventure, a history of Tibet’s opening to the West, and the story of Buddhism and Yoga’s arrival in America, *White Lama: The Life*

of Tantric Yogi Theos Bernard, *Tibet’s Lost Emissary to the West* is the first work to tell his groundbreaking story in full and is a narrative that thrills from beginning to end. Includes 15 photographs shot in Tibet in 1937 by Theos Bernard, part of a collection that has been described as the best photographic record of Tibet in existence.

A fascinating
exploration of the role
that magic has played
in the history of
Buddhism As far back
as we can see in the
historical record,
Buddhist monks and
nuns have offered
services including
healing, divination, rain
making, aggressive
magic, and love magic
to local clients.
Studying this history,
scholar Sam van
Schaik concludes that
magic and healing
have played a key role
in Buddhism's
flourishing, yet they
have rarely been
studied in academic
circles or by Western

practitioners. The exclusion of magical practices and powers from most discussions of Buddhism in the modern era can be seen as part of the appropriation of Buddhism by Westerners, as well as an effect of modernization movements within Asian Buddhism. However, if we are to understand the way Buddhism has worked in the past, the way it still works now in many societies, and the way it can work in the future, we need to examine these overlooked aspects of Buddhist practice. In *Buddhist Magic*, van Schaik takes a book of spells and rituals--one of the earliest that has survived--from the Silk Road site of Dunhuang as the key reference

point for discussing Buddhist magic in Tibet and beyond. After situating Buddhist magic within a cross-cultural history of world magic, he discusses sources of magic in Buddhist scripture, early Buddhist rituals of protection, medicine and the spread of Buddhism, and magic users. Including material from across the vast array of Buddhist traditions, van Schaik offers readers a fascinating, nuanced view of a topic that has too long been ignored.  "We are in the midst of a powerful psychedelic renaissance. After four decades of hibernation, the promise of the psychoactive '60s--that

deeper self-awareness, achieved through reality-bending substances and practices, will lead to greater external harmony--is again gaining a major following. The signs are everywhere, from the influence of today's preeminent psychedelic thinker Daniel Pinchbeck, to the renewed interest in the legacy of Terence McKenna, and to the upsurge of collective, inclusive (and overtly tripped-out) cultural phenomena like the spectacle of Burning Man. The Psychedelic Experience, created in the movement's early years by the prophetic shaman-professors Timothy Leary, Ralph

Metzner, and Richard Alpert (Ram Dass), is a foundational text that serves as a model and a guide for all subsequent mind-expanding inquiries. In this wholly unique book, the authors provide an interpretation of an ancient sacred manuscript, The Tibetan Book of the Dead, from a psychedelic perspective. The Psychedelic Experience describes their discoveries in broadening spiritual consciousness through a combination of Tibetan meditation techniques and psychotropic substances."-- Amazon.com.
