 This book revisits the
 early systemic formation
 of meditation practices
 called 'yoga' in South Asia
 by employing metaphor
 theory. Karen O'Brien-Kop
 also develops an
 alternative way of
 analysing the reception
 history of yoga that aims
 to decentre the

Eurocentric and
 imperialist enterprises of
 the nineteenth-century to
 reframe the cultural
 period of the 1st - 5th
 centuries CE using
 categorical markers from
 South Asian intellectual
 history. Buddhist
 traditions were just as
 concerned as Hindu
 traditions with meditative
 disciplines of yoga. By
 exploring the
 intertextuality of the
 Patanjalayogasastra with
 texts such as
 Vasubandhu's
 Abhidharmakosabhasya
 and Asanga's

Yogacarabhumisastra, this
 book highlights and
 clarifies many
 ideologically Buddhist
 concepts and practices in
 Patanjala yoga. Karen
 O'Brien-Kop demonstrates
 that 'classical yoga' was
 co-constructed
 systemically by both
 Hindu and Buddhist
 thinkers who were
 drawing on the same
 conceptual metaphors of
 the period. This analysis
 demystifies early yoga-
 meditation as a timeless
 'classical' practice and
 locates it in a specific
 material context of

agrarian and urban economies.

Japanese Car John Wiley & Sons

When the war ended on August 15, 1945, I was a naval engineering cadet at the Kure Navy Yard near Hiroshima, Japan. A week later, I was demobilized and returned to my home in Tokyo, fortunate not to find it ravaged by firebombing. At the beginning of September, a large contingent of the American occupation forces led by General Douglas MacArthur moved its base from Yokohama

to Tokyo. Near my home I watched a procession of American military motor vehicles snaking along Highway 1. This truly awe-inspiring cavalcade included jeeps, two-and-a-half-ton trucks, and enormous trailers mounted with tanks and artillery. At the time, I was a 21-year-old student in the Machinery Section of Engineering at the Tokyo Imperial University. Watching that magnificent parade of military vehicles, I was more than impressed by the gap in industrial strength

between Japan and the U. S. That realization led me to devote my whole life to the development of the Japanese auto industry. I wrote a small article concerning this incident in *Nikkei Sangyo Shimbun* (one of the leading business newspapers in Japan) on May 2, 1983. The English translation of this story was carried in the July 3, 1983 edition of the *Topeka Capital-Journal* and the September 13, 1983 issue of the *Asian Wall Street Journal*. The *Topeka Capital-Journal* headline read,

"MacArthur's Jeeps Were the Toyota Catalyst.
Toyota Landcruiser Repair Manual Springer Science & Business Media
A "powerful and original" (The Times) historical saga that follows the quest for identity, redemption and home in the wake of World War II. One night in autumn 1944, a gunshot echoes through the alleyways of a small town in occupied Poland. An SS officer is shot dead by a young Polish Jew, Margarita Ejzenstain. In retaliation, his commander orders the

execution of thirty-seven Poles--one for every year of the dead man's life. First hidden by a sympathetic German couple, Margarita must then flee the brutal advance of the Soviet army with her newborn baby. So begins a thrilling panorama of intermingled destinies and events that reverberate from that single act of defiance. Kingdom of Twilight follows the lives of Jewish refugees and a German family resettled from Bukovina, as well as a former SS officer,

chronicling the geographical and psychological dislocation generated by war. A quest for identity and truth takes them from refugee camps to Lübeck, Berlin, Tel Aviv, and New York, as they try to make sense of a changed world, and of their place in it. Hypnotically lyrical and intensely moving, Steven Uhly's epic novel is a finely nuanced yet shattering exploration of universal themes: love, hatred, doubt, survival, guilt, humanity, and redemption.

The book follows the two children as they embark on an adventure, which begins with the discovery of a hidden witch's haven in a graveyard and Jordan's first encounter with the spirit world - but by now means the first for Sebastian. Then a haunted observatory on the outskirts of town yields a clue - a piece of an intriguing map leading to, what they believe to be, hidden treasure. After collecting the rest of the clues from around the town, Jordan and

Sebastian search for the treasure, but instead of rubies, emeralds and gold doubloons, they find themselves lead to a doorway into another world, called the Phantom Realm.

Loni and Erick have been together for five years, but their marriage is slowly going down the drain. Erick is emotionally abusive and distant, but Loni is hesitant to leave him because of the scar that travels from the side of her face to her

shoulder. She does not believe no other man could love her for who she is. When Loni receives a robot who looks and acts like a human, she begins doubting her marriage. Leaving her husband for a robot seems like a silly idea, until she realizes the robot loves her more than her own husband does. This robot makes her feel beautiful and important, showing her how a woman should be treated. For years, Loni has put up with Erick's emotional and verbal abuse. Now, with this robot treating her the

way she should be treated and things only getting worse between her and her husband, she has a decision to make. Should she leave Erick for the robot? When Loni files for divorce, Erick promises to

change. Will Loni forgive him, even though he may truly change or will she divorce him for a caring robot? Find out inside.
