Psychoanalytic Pluralism and the Case Study Method. The clinical case study is clinical research par excellence. Extra-clinical research consists in the

application of different methodologies developed in the natural and human sciences, to the study of the unconscious mind. Leuzinger-Bohleber refers to empirical psychotherapy research, ... Frontiers | Clinical Case Studies in Psychoanalytic and ... George Clinical Case Studies Intracerebral hemorrhage is the most serious form of stroke with high rates of mortality and a low chance of recovery to functional independence. In Asia-Pacific, it affects more than one million people annually, kills one third of them and leaves most survivors with disability. Case Studies Archive | George Clinical Case studies are in-depth investigations of a single person, group, event or community. Typically, data are gathered from a variety of sources and by using several different methods (e.g. observations & interviews). The case study research method originated in clinical medicine (the case history, i.e. the patient's personal history). Case Study Method in Psychology | Simply Psychology Case study. For instance, clinical science has produced both well-known case studies of individuals and also case studies of clinical practices. However, when "case" is used in an abstract sense, as in a claim, a proposition, or an argument, such a case can be the subject of many research methods, not just case study research. Case study - Wikipedia Journal of Clinical and Cosmetic Dermatology (ISSN 2576-2826) Journal of Clinical Case Studies (ISSN 2471-4925) Journal of Clinical Anesthesia and Management (ISSN 2470-9956) Journal of Clinical and Laboratory Medicine (ISSN 2572-9578) Journal of Diabetes Research and Therapy (ISSN 2380-5544) Case study. For instance, clinical science has produced both well-known case studies of individuals and also case

studies of clinical practices. However, when "case" is used in an abstract sense, as in a claim, a proposition, or an argument, such a case can be the subject of many research methods, not just case study research.
