Leadership is the engine of growth, in any walk of life. Leadership is often portrayed as the singular capability of an individual at the helm of an

organisation. Theories and models of leadership that abound miss the point that true leadership is a highly multi-faceted and highly inclusive endeavour. This book *Leadership for India Inc.: An Experiential Treatise* is a unique work that is contextually relevant and culturally appropriate. Given that leadership with an Indian perspective is studied and researched less than it ought to be, this book fills a major gap. This book studies leadership from several practical and unique

angles, and brings forth insights, models and constructs that are not often the mainstay of published leadership literature. The perspectives that are laid out in the book are fresh and original as well as offbeat and philosophical. The book presents a rich tapestry of the deep and diversified insights borne out of the author's over four decades of working with leaders and working as a leader, which are discussed in a practical and fulsome manner. The book with its Prologue,

forty chapters and Epilogue that cover comprehensively and in depth all aspects of leadership, serves as an experiential treatise for established as well as aspirant leaders for India Inc. It would equally serve as a reference text book for students and academicians as well as professionals and leaders. The book is dedicated, very appropriately, to the greatest leader of all times, Mahatma Gandhi.

Social problems in our global community are complex and seem intractable. Most of us would like to help, but don't feel that as

individuals we can make a difference. But a particular type of person confronts such problems head on—a person that best-selling authors Frank LaFasto and Carl Larson call the humanitarian leader. Based on their groundbreaking research, LaFasto and Larson trace an inner path of seven critical choices. The path begins with connecting deeply and personally with the needs of others and culminates in leading the way for others to get involved. Their first seven chapters describe these

choices. The final three chapters explore the impact of 31 remarkable people on the world's problems, the relationship between helping and personal happiness, and practical advice for getting started in a helping effort. [Ten Traits of Highly Effective Principals](#) Oxford University Press
