One year ago I had bad credit. I was so very frustrated. I did not know how to fix it and everything I did seemed to make it worse. I had been renting for a long time and really wanted to purchase a new home for my family. So I began a one year project to fix my credit once and for all. I did not hire anyone to help, just a lot of research. I will be closing on my new

house on April 30th 2015 with really great credit. No one else is on my loan, just me. It was amazing to see banks beg for my business. I wrote this book to help others like me. This books breaks down the mysteries and even contains letters and numbers that you will need to make things right. Good luck to everyone who is reading this and I will see you on the other side!

The book's three parts take a real-life approach to the law: Sales Systems--progresses logically from formation of agreements to a discussion of terms, performance, and remedies

Payment and Credit Systems--covers checking accounts, credit cards, wire transfers, letters of credit, and payment systems of the future, such as stored-value cards and electronic money; competition for deferring payment, negotiable instruments and liquidity, remedies under state law and remedies in bankruptcy, and creation of security interests and secured transactions Creditor-Third Party Relationship--deals with perfection, maintaining perfection, priority, and competitions for collateral. This approach shows students that the law is one element of a system that includes legal rules, the people who engage in transactions, contracts designed to guide the transaction, and the physical tools used to consummate them. To make their casebook an effective teaching and learning tool, the authors: present material in a series of 55 self-contained assignments, each designed for a 50- to 60-minute class use expository text, case excerpts, sample documents, forms, and problems in the assignments make their text more extensive and their case excerpts briefer to give students all the information they need to solve the

Do you struggle each month to make minimum credit card payments? Are you 30, 60, or even 90 days late on several accounts? If so, you aren't alone.

According to a January 2010 report from the U.S. Federal Reserve, there are 609.8 million credit cards held by U.S.

consumers, and the average credit card debt per household is \$15,519. In the last 12 months, 15 percent of American adults, or nearly 34 million people, have been late making a credit card payment, and 8 percent (18 million people) have missed a payment entirely, according to the National Foundation for Credit Counseling. If these statistics hit home for you, don't turn to bankruptcy to solve your financial woes. This book will provide you with the tools to legally settle your credit card

accounts — without ruining your financial situation for years to come. How to Legally Settle Your Personal Credit Card Debt for Pennies on the Dollar is for everyone who is unable to pay mounting minimum payments on their credit cards. You will learn everything you need to know about the basics of credit card debt, including interest rates, finance charges, minimum payments, and late fees. Discover what actually happens to your credit when you are late making your payments or stop making payments altogether and how long it takes before your credit cards debt is sold to a collection agency. This book will provide tips and strategies for negotiating with your original creditor and collection agencies and sample settlement letters you can use when working with creditors. Equip yourself with proven strategies for legally challenging the validity of your credit card debt and information on how to determine whether your rights are being violated under the Fair Debt Collection Practices Act. You will find out the advantages of not filing bankruptcy and how to work with credit counselors and avoid debt-reduction scams. Once you have successfully settled your debt and

avoided bankruptcy, you will learn how to avoid repeating these mistakes in the future by setting budgets, cutting costs, and lowering interest rates. Learn how the Credit Card Accountability, Responsibility, and Disclosure Act, which went into effect in February 2010, affects you as a consumer. While these new rules do not absolve consumers of their obligations, they do mean that credit card companies can no longer retroactively increase rates, charge misleading late fees, or use over-limit fee traps. We have spent hundreds of hours interviewing top financial experts, bill collectors, and individuals just like you who were able to legally settle their credit card debt without resorting to bankruptcy. If you are tired of dodging phone calls from collectors or worrying about how missed payments have ruined your credit score, get yourself back to a more stable financial situation — one where credit card debt is a thing of the past.

Using a hands-on approach, *The ABCs of Debt: A Case Study Approach to Debtor/Creditor Relations and Bankruptcy Law, Fifth Edition* bridges the difference between understanding bankruptcy concepts and applying them with confidence. Parsons begins with the premise that the specialized study of bankruptcy requires an adequate foundation in other aspects of debtor/creditor relations. This foundational knowledge is reinforced by realistic, current case studies that introduce, explain, and illustrate bankruptcy law and procedure. Students see how a bankruptcy case unfolds, from the moment a debtor makes contact with a lawyer until the case is closed. That chronological, step-by-step approach is used to study cases filed under Chapter 7, Chapter 13, and Chapter 11. This book aspires not just to teach

students “about” bankruptcy, but also to teach them how to “do” bankruptcy. Broad coverage includes bankruptcy law, debt creation, secured transactions, the law of liens, and debt collection. New to the Fifth Edition: Updated to reflect significant court decisions regarding debt collection and bankruptcy including: *Czyzewski v. Jevic Holding Corp.* which struck down structured settlements regarding a Chapter 11 debtor that conflict with §507 priorities unless affected creditors consent *Midland Funding, LLC v. Appling*, holding that a materially false statement in writing about a single asset can be a “statement respecting the debtor’s financial condition,” rendering debt related to the asset nondischargeable under §523(a)(2)(B) *Epic Systems Corp. v.
