Professor of Applied Linguistics at Universidade Federal de Minas Gerais and a researcher sponsored by CNPq, a Brazilian research agency. She is the editor of the Brazilian Applied Linguistics Journal and the Identity, Motivation and Autonomy in Language Learning Over the last few years L2 motivation research has taken an exciting new turn by focusing increasingly on the language learner's situated identity and various self-perceptions. As a result, the concept of L2 motivation is currently in the process of being radically reconceptualised and re-theorised in the context of contemporary notions of self and identity. Motivation, Language Identity and the L2 Self A significant construct in language learning research, identity is defined as "how a person understands his or her relationship to the world, how that relationship is structured across time and space, and

how the person understands possibilities for the future". Recognizing language as a social practice, identity highlights how language constructs and is constructed by a variety of relationships. Identity and language learning - Wikipedia Motivation in second and foreign language learning - Volume 31 Issue 3 - Zoltán Dörnyei. ...
