Main goal: The goal of Functions, Statistics, and Trigonometry is to present topics from these three areas in a unified way to help students prepare for everyday life and future courses in

mathematics. Spreadsheet, graphing and CAS technology are employed to enable students to explore and investigate, and to deal with complicated functions and data. Functions, Statistics, and Trigonometry - UCSMP Buy UCSMP Functions, Statistics, and Trigonometry Quizzes and Test Masters (University of Chicago School Mathematics Project) by (ISBN: 9780673332592) from Amazon's Book Store. Everyday low prices and free delivery on eligible orders. UCSMP Functions, Statistics, and Trigonometry Quizzes and ... UCSMP Functions, Statistics, and Trigonometry Interactive Demos This website and its applets are products of The University of Chicago School Mathematics Project and were not developed by our publisher, McGraw-Hill Education (formerly Wright Group / McGraw Hill). UCSMP (use with UCSMP Functions, Statistics, and Trigonometry, Lesson 4-9) If you can't see the demo above, click here. Directions. This applet will help you to explore trig functions. To begin, the first two radio buttons at the top of the applet ($\sin(x)$ and $\cos(x)$) will select a parent function of either sine or cosine respectively. The other three ... UCSMP (use with UCSMP Functions, Statistics, and Trigonometry, Lesson 6-9) If you can't see the demo above, click here. Directions. This applet will help you to run simulations for finding chi-square numbers. Begin by inputting your hypothesized probabilities into the appropriate text boxes in the upper left. UCSMP (use with UCSMP Functions, Statistics, and Trigonometry, Lesson 3-1) If you can't see the demo above, click here. Directions. This applet will help you become familiar with the way that changing the boundaries of the window affect the appearance of the the graph. Choose your intervals either with the sliders or by typing the numbers directly
