Things Fall Apart Walter de Gruyter Gotoff's commentary combines subtle analysis of language with vigorous historical and political discussion. It will appeal greatly to readers at every level of experience.--Holly W. Montague, Amherst College "A fine analysis of the prose stylistics of Cicero's three Caesarian speeches in which the dynamics of both sentence structure and

the orator's rhetorical strategies are admirably developed. Everyone from advanced undergraduate to advanced scholar will benefit from this commentary.--T. James Luce, Jr., Princeton University This is a detailed analysis of three speeches that Cicero delivered before Julius Caesar on behalf of the Romans who, like himself, had opposed Caesar in the recent civil war. Gotoff's commentary, which includes new texts for each of the speeches, identifies the techniques Cicero used and examines his psychology of persuasion. Originally published in 1993. One Thousand and One Nights Anchor THINGS FALL APART tells two overlapping, intertwining stories, both of which center around Okonkwo, a “strong man” of an Ibo village in Nigeria. The first of these stories traces Okonkwo's fall from grace with the tribal world in which he lives, and in its classical purity of line and economical beauty it provides us with a powerful fable about the immemorial conflict between the individual and society. The second story, which is as modern as the first is ancient, and which elevates the book to a tragic plane, concerns the clash of

cultures and the destruction of Okonkwo's world through the arrival of aggressive, proselytizing European missionaries. These twin dramas are perfectly harmonized, and they are modulated by an awareness capable of encompassing at once the life of nature, human history, and the mysterious compulsions of the soul. THINGS FALL APART is the most illuminating and permanent monument we have to the modern African experience as seen from within.

Seminar paper from the year 2010 in the subject American Studies - Literature, grade: 1,3, Johannes Gutenberg University Mainz, course: Introduction to Literary Studies, language: English, abstract: This paper will show which rhetorical strategies Antony uses to convince the plebeians of his opinion, that Caesar was murdered and no tyrant

and therefore should be avenged. After Brutus' speech the audience is sure that it was tyrannicide and that they should be happy, so Antony did not have an easy task in convincing them, especially because he could not plot the rebellion openly because then he would have broken his word not to blame the conspirators. (3.1.245) So he has to use several stylistic devices and pretend that the audience plots it all by themselves and to analyze how the mood in the public changes throughout his speech is fascinating to retrace.

The Osier Cage SAGE

Since Jacob Burckhardt's *Kultur der Renaissance in Italien* (1869) rhetoric as a significant cultural factor of the renaissance has largely been neglected. The present study seeks to remedy this

deficit regarding the arts by concentrating on literary theory and its aspects of imagination (*inventio*), genre (*dispositio* of the genera), style (*elocutio*), mnemonic architecture (*memoria*) and representation (*actio*), with illustrative examples taken from Shakespeare's works, but also on the intermedial rhetoric of painting and music. Particular attention is given to the rhetorical ideology of the Renaissance.

Hamlet, probably composed between 1599 and 1601, takes place in Denmark and tells how Prince Hamlet carries out his revenge on his uncle Claudius who murdered Hamlet's father, the king, and holds the usurped crown as well as nuptials with Gertrude, the mother of Hamlet. The play is vividly traced around

insanity (both real and feigned) and the course from deep pain to inordinate anger. It also explores the themes of betrayal, revenge, incest and moral corruption.

Politicians enact three main roles in political discourse - narrator, interlocutor and character - to achieve specific goals. This book explains these roles and how they constitute discursive strategies, correlating with political aims. In short: politicians evoke voices in discourse to strategically position themselves in relation to social actors and events. The book describes these strategies and analyzes the manner in which they are employed by three very different politicians - Fidel Castro, Hugo Chavez

and George W. Bush. The roles are studied cross-culturally and from different ideological backgrounds. This book explains how political ideologies are constructed, defined and redefined by linguistic means, showing specific ways in which politicians manipulate language to achieve the goals on their political agenda. It applies new methodological approaches to the analysis of political discourse and also contributes to the sparse literature on political discourse analysis of Spanish-speaking politicians.

THE ART OF CAESAR'S BELLUM CIVILE

Yale University Press

Traditional approaches have reduced Caesar's Bellum Civile to a tool for

teaching Latin or to one-dimensional propaganda, thereby underestimating its artistic properties and ideological complexity. Reading strategies typical of scholarship on Latin poetry, like intertextuality, narratology, semantic, rhetorical and structural analysis, cast a new light on the *Bellum Civile*: Ciceronian language advances Caesar's claim to represent Rome; technical vocabulary reinforces the ethical division between 'us' and the 'barbarian' enemy; switches of focalization guide our perception of the narrative; invective and characterization exclude the Pompeians from the Roman community, according to the mechanisms of rhetoric; and the very structure of the work promotes Caesar's cause. As a piece of literature interacting with its cultural and

socio-political world, the *Bellum Civile* participates in Caesar's multimedia campaign of self-fashioning. A comprehensive approach, such as has been productively applied to Augustus' program, locates the *Bellum Civile* at the interplay between literature, images and politics.

CDA and PDA Made Simple cuts many long stories short and encapsulates a long-standing tradition in modern and contemporary linguistics. The theoretical scope of the book encompasses a lengthy review of relevant studies in the area of critical discourse analysis (CDA), and, more broadly, in the areas of power, control, ideology and politics as realized and enacted in discourse. The

book also brings together a detailed theoretical background on the main tenets and assumptions, tools and recipes, trends and extensions and critiques and applications of critical and political discourse analysis (PDA). Its analytical focus is predominantly on how ideology and power are linguistically and meta-linguistically realized, specifically through transitivity, modality, metadiscourse and presupposition in some discourse genres in English.

Rome and Rhetoric Springer

The enemy were overpowered and took to flight. The Romans pursued as far as their strength enabled them to run' Between 58 and 50 BC Julius Caesar conquered most of the area now covered by France, Belgium and Switzerland, and invaded Britain twice, and The Conquest

of Gaul is his record of these campaigns. Caesar's narrative offers insights into his military strategy and paints a fascinating picture of his encounters with the inhabitants of Gaul and Britain, as well as lively portraits of the rebel leader Vercingetorix and other Gallic chieftains. The Conquest of Gaul can also be read as a piece of political propaganda, as Caesar sets down his version of events for the Roman public, knowing he faces civil war on his return to Rome. Revised and updated by Jane Gardner, S. A. Handford's translation brings Caesar's lucid and exciting account to life for modern readers. This volume includes a glossary of persons and places, maps, appendices and suggestions for further reading.

Studies on the Text of Caesar's *Bellum civile* is a companion volume to Damon's revised Oxford Classical Texts edition of Caesar's *Bellum civile*, his account of his civil war with Pompey. Comprising three parts, this volume investigates the detailed philological arguments that underpin the revised edition of the text. The first part supplements the preface of the Oxford Classical Texts edition, providing an expanded background on the history of the text and a more detailed argument for the shape of the stemma. The second part is a discussion of nature and the causes of the difficulties present in the text of the *Bellum civile* and their consequences for the revised edition. The third part presents a series of around 75 notes on

different areas of the text, exploring in depth the contentions behind the various remedies suggested in the critical apparatus of the Oxford Classical Texts edition.

Literary Rhetoric A&C Black

Renaissance plays and poetry in England were saturated with the formal rhetorical twists that Latin education made familiar to audiences and readers. Yet a formally educated man like Ben Jonson was unable to make these ornaments come to life in his two classical Roman plays. Garry Wills, focusing his attention on Julius Caesar, here demonstrates how Shakespeare so wonderfully made these ancient devices vivid, giving his characters their own personal styles of Roman speech. Shakespeare also makes Rome present and animate by casting

his troupe of experienced players to make their strengths shine through the historical facts that Plutarch supplied him with. The result is that the Rome English-speaking people carry about in their minds is the Rome that Shakespeare created for them. And that is even true, Wills affirms, for today's classical scholars with access to the original Roman sources.--From publisher description.

Gorgias: Encomium of Helen Penguin
Winner of the Pulitzer Prize, Toni Morrison's *Beloved* is a spellbinding and dazzlingly innovative portrait of a woman haunted by the past. Sethe was born a slave and escaped to Ohio, but eighteen years later she is still not free. She has borne the unthinkable and not gone mad, yet she is still held captive by

memories of Sweet Home, the beautiful farm where so many hideous things happened. Meanwhile Sethe's house has long been troubled by the angry, destructive ghost of her baby, who died nameless and whose tombstone is engraved with a single word: Beloved. Sethe works at beating back the past, but it makes itself heard and felt incessantly in her memory and in the lives of those around her. When a mysterious teenage girl arrives, calling herself Beloved, Sethe's terrible secret explodes into the present. Combining the visionary power of legend with the unassailable truth of history, Morrison's unforgettable novel is one of the great and enduring works of American literature.

This classic novel of a perfectly engineered society is “one of the most prophetic dystopian works of the twentieth century” (The Wall Street Journal). Half a millennium from now, in the World State, the watchword is that every one belongs to every one else. No matter what class of human you are bred to be—from the intellectual Alphas to the Epsilons who provide the manual labor—you are a part of the efficient, well-oiled whole. You are nourished,

secure, and blissfully serene thanks to the freely distributed drug called soma. And while sex is strongly encouraged, the old way of procreation is forbidden, eliminating even the pains of childbirth. But when a man and woman journey beyond these confines to where the “savages” reside, and bring back two outsiders, the cracks begin to show. Named as one of the 100 best English-language novels of the twentieth century by the Modern Library, *Brave New World* is one of the first truly dystopian novels. Influenced by the historic events of Huxley’s era yet as relevant today as ever, it is a remarkable depiction of the conflict between progress and the human spirit. “Chilling. . . .
