Asian Educational Services

The invention of the telescope constituted one era in Astronomy; its perfection in our day, another; and the discoveries of the spectroscope a third—no less important than either of the others. Many of the earliest books, particularly those dating back to the 1900s and before, are

now extremely scarce and increasingly expensive.

We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Books and Pamphlets, Including Serials and Contributions to Periodicals Cambridge University Press

The record of each copyright registration listed in the Catalog includes a description of the work copyrighted and data relating to the copyright claim (the name

of the copyright claimant as given in the application for registration, the copyright date, the copyright registration number, etc.).

London Encyclopædia, Or, Universal Dictionary of Science, Art, Literature, and Practical Mechanics

Read Books Ltd

This unprecedented collection of 27,000 quotations is the most comprehensive and carefully researched of its kind, covering all fields of science and mathematics. With this vast compendium you can

readily conceptualize and embrace the written images of scientists, laymen, politicians, novelists, playwrights, and poets about humankind's scientific achievements.

Approximately 9000 high-quality entries have been added to this new edition to provide a rich selection of quotations for the student, the educator, and the scientist who would like to introduce a presentation with a relevant quotation that provides perspective and historical background on

his subject. Gaither's Dictionary of Scientific Quotations, Second Edition, provides the finest reference source of science quotations for all audiences. The new edition adds greater depth to the number of quotations in the various thematic arrangements and also provides new thematic categories.

George Washington University Bulletin

A colourful history of 170 years of scientific discovery at the United States Naval Observatory. Annual Reports of the War

Department 1861-1891 include meteorological reports. House documents "A complete catalogue of the writings of Sir John Herschel": v. 3, p. 220-227.
