Someone has stolen a big grey rabbit from under the mayor's nose, and suspicion immediately falls on the loafer Polyte. Mayor Lecacheur immediately sends the gendarmes to find the culprit, and feels that justice is just round the corner. However, the gendarmes find Polyte under the bed of Severin the farmer, and then the situation grows even stranger and funnier. An entertaining and fast-paced tale, "The Rabbit" is a simple story, told in an amusing manner that awards its readers with a hilarious twist in the end. Guy de Maupassant (1850-1893) was a famous French writer, best known as one of finest practitioners of the short story. Master of style and dramatic narrative, Maupassant's stories are mainly interested in the relationships between men and women, often found at the crossroads of life. One of his greatest influences was Gustave Flaubert, who introduced him to some of the central names of the time such as Emile Zola, Henry James, and Ivan Turgenev. Some of his best known works include the novels "Bel Ami" and "Une Vie", more than 300 short stories, travel books, and even an attempt at poetry.

Gary Giddins has been called "the best jazz writer in America today" (Esquire). Louis Armstrong has been called the most influential jazz musician of the century. Together this auspicious pairing has resulted in Satchmo, one of the most vivid and fascinating portraits ever drawn of perhaps the greatest figure in the history of American music. Available now at a new price, this text-only edition is the authoritative introduction to Armstrong's life and art for the curious newcomer, and offers fresh insight even for the serious student of Pops.

Through the voice of Mee Ali, readers experience the rhythms and rituals of life in rural Namibia in interconnected stories. In Oshaantu, a place where women are the backbone of the home but are expected to submit to patriarchal dominance, Mee Ali is happily married. Her friend, Kauna, however, suffers at the hands of an abusive husband. When he is found dead at home, many of the villagers suspect her of poisoning him. Backtracking from that time, the novel, with its universal appeal, reveals the value of friendships, some of which are based on tradition while others grow out of strength of character, respect, and love.

**An Abridgment of the Architecture of Vitruvius** G Street Chronicles.

Putting his player ways behind him, Jasper Dane is now strictly a one-woman man. Jasper, desperate to start a family with his wife, Abby, is devastated when she puts their baby plans on hold. Holly has just arrived back in town for the summer, and after landing a job with Jasper, the two form an unlikely friendship. Abby's immediate dislike of Holly and Jasper spending time together causes him to question his wife's fidelity. Broken hearted at Abby's sudden change of heart and suspicious of her reasons, Jasper takes action, sparking a chain of events that make his once well planned out life spiral out of control. To get what he wants, he first has to lose everything.

**Living Theater** Waveland Press

Living Theater: A History conveys the excitement and variety of theater throughout time and the dynamic way in which our interpretation of theater history is informed by contemporary scholarship. Rather than presenting readers with a mere catalog of historical facts and figures, Wilson and

Goldfarb set each period in context through an exploration of the social, political and economic conditions of the day, and create a vivid study of the developments in theater during that time. Changes to the third edition include the addition of new biographies of key players in the dramatic world, expanded existing biographies, and a completely revised chapter on early Asian theater.

Humans have long turned to gardens - both real and imaginary - for sanctuary from the frenzy and tumult that surrounds them. Those gardens may be as far away from everyday reality as Gilgamesh's garden of the gods or as near as our own backyard, but in their very conception and the marks they bear of human care and cultivation, gardens stand as restorative, nourishing, necessary havens. With Gardens, Robert Pogue Harrison graces readers with a thoughtful, wide-ranging examination of the many ways gardens evoke the human condition. Moving from the gardens of ancient philosophers to the gardens of homeless people in contemporary New York, he shows how, again and again, the garden has served as a check against the destruction and losses of history. The ancients, explains Harrison, viewed gardens as both a model and a location for the laborious self-cultivation and self-improvement that are essential to serenity and enlightenment, an association that has continued throughout the ages. The Bible and Qur'an; Plato's Academy and Epicurus's Garden School; Zen rock and Islamic carpet gardens; Boccaccio, Rihaku, Capek, Cao Xueqin, Italo Calvino, Ariosto, Michel Tournier, and Hannah Arendt - all come into play as this work explores the ways in which the concept and reality of the garden has informed human thinking about mortality, order, and power. Alive with the echoes and arguments of Western thought, Gardens is a fitting continuation of the intellectual journeys of Harrison's earlier classics, Forests and The Dominion of the Dead. Voltaire famously urged us to cultivate our gardens; with this compelling volume, Robert Pogue Harrison reminds us of the nature of that responsibility - and its enduring importance to humanity.
