'Jeremy Dibble has written a book which adds substantially to Stanford's reputation and which greatly enriches both British and Irish musical scholarship. It is brilliantly done.' -Irish Times
Jeremy Dibble presents the first authoritative, comprehensive study of the life and works of Charles Villiers Stanford (1852-1924), one of the most gifted and influential

composers. Dibble reveals how, although perhaps best known for his church music, Stanford was also an eminent symphonist, songwriter, and author of many fine choral works. Cosmopolitan, ambitious, and pragmatic, he was untiring in his efforts to advance the cause of British music during its renaissance at the end of the nineteenth century, promoting the music of his contemporaries, and the many pupils he taught at Cambridge and the Royal College of Music, including Vaughan Williams, Ireland, Howells, Bliss, Holst, and Gurney.

American Catholic hymnal Oxford University Press on Demand

In this, the first of a three-volume study of Byrd's complete output, under the general title *The Music of William Byrd*, the author essays a first full-scale historical and critical assessment of Byrd's sacred music to Latin words - one of the great glories of the Elizabethan Age. Each of the approximately 175 compositions is considered, at least briefly, with fuller appreciation accorded to such masterpieces as *Emendemus in Melius*, *Tristitia et anxietas*, *Iusorum animae*, *Ave verum corpus*, the lamentations and the three famous masses. There are more than sixty musical examples, some of

considerable length. In critical prose that slights neither technicalities nor the intense emotional qualities of his subject matter, the author sheds fresh and often unexpected illumination on Byrd's musical rhetoric and on his powerful, endlessly inventive musical structures. Re-examining the known facts of Byrd's life in relation to the patronage and politics of the time, the author boldly argues that while the impetus behind Byrd's early motets was primarily traditionalist and technical, that behind his *Cantiones sacrae* motets of the 1580s was essentially political: they were covert laments and protests on behalf of the embattled recusant community.
