Accounting for Decision Making and Control provides students and managers with an understanding appreciation of the strengths and limitations of an organization's accounting system

thereby allowing them to be more intelligent users of these systems. Amazon.com: Accounting for Decision Making and Control ... Decision-making in Management Accounting In management accounting, decision-making may be simply defined as choosing a course of action from among alternatives. If there are no alternatives, then no decision is required. A basis assumption is

that the best decision is the one that involves the most revenue or the least amount of cost.
