At no time in American history has an understanding of the role and the art of diplomacy in international relations been more essential than it is today. Both the history of U.S. diplomatic relations and the current U.S. foreign policy in the twenty-first century are major topics of study and

interest across the nation and around the world. Spanning the entire history of American diplomacy—from the First Continental Congress to the war on terrorism to the foreign policy goals of the twenty-first century—Guide to U.S. Foreign Policy traces not only the growth and development of diplomatic policies and traditions but also the shifts in public opinion that shape diplomatic trends. This comprehensive, two-volume reference shows how the United States gained “the strength of a giant” and also analyzes key

world events that have determined the United States’ changing relations with other nations. The two volumes’ structure makes the key concepts and issues accessible to researchers: The set is broken up into seven parts that feature 40 topical and historical chapters in which expert writers cover the diplomatic initiatives of the United States from colonial times through the present day. Volume II’s appendix showcases an A-to-Z handbook of diplomatic terms and concepts, organizations, events, and

issues in American foreign policy. The appendix also includes a master bibliography and a list of presidents; secretaries of state, war, and defense; and national security advisers and their terms of service. This unique reference highlights the changes in U.S. diplomatic policy as government administrations and world events influenced national decisions. Topics include imperialism, economic diplomacy, environmental diplomacy, foreign aid, wartime negotiations, presidential influence, NATO and its role in the twenty-first century, and the response to terrorism. Additional featured topics include the influence of the American two-party system, the impact of U.S. elections, and the role of the United States in international organizations. Guide to U.S. Foreign Policy is the first comprehensive reference work in this field that is both historical and thematic. This work is of immense value for researchers, students, and others studying foreign policy, international relations, and U.S. history.

ABOUT THE EDITORS Robert J. McMahon is the Ralph D. Mershon Professor of History in the Mershon Center for International Security Studies at The Ohio State

University. He is a leading historian of American diplomatic history and is author of several books on U.S. foreign relations. Thomas W. Zeiler is professor of history and international affairs at the University of Colorado at Boulder and is the executive editor of the journal *Diplomatic History*.

AMERICAN FOREIGN POLICY SINCE WORLD WAR II

Routledge

There are important reasons for the distinct yet significant course adjustments in American and Western foreign policy, which is currently focused on the Middle Eastern and Chinese "hot spots." In early 2012, the United States "pivoted" to make the Far East its military and strategic first priority, thereby downgrading the Middle East. This change in priorities has been accompanied by a curtailed military budget and the end of the two-war doctrine. Amitai Etzioni argues that pivoting towards the Far East is premature and flawed in principle. China can and should be treated for the near future as a potential partner in a changing global order, rather than contained and made

into an enemy. At the same time, he argues, the true hot spots continue to be in the Middle East, albeit not in Iraq or Afghanistan, but in Iran and Pakistan. Less urgent but of great importance are the ways the West deals with a complex and varied Muslim world, with political Islamic parties and social movements, and with future waves of Arab awakening. Here the distinction between security and nation building becomes essential for both normative and strategic reasons. Etzioni expects that we will see few armed humanitarian interventions of the kind we witnessed in 2011 in Libya. To this end, he examines policies that threaten and favor the promotion of human rights. This timely book is written with Etzioni's customary deep appreciation for important issues.

Rise to Globalism Beacon Press (MA) Thoroughly revised edition of an essential text, incorporating a wealth of new material on American foreign policy since 9/11. The second edition of this concise masterwork includes vast amounts of new material on American foreign policy in the post-9/11 era, including the war in Iraq. Holsti explores the poorly understood role of public opinion in international affairs,

looking at Americans' capacity to make informed judgments about issues far removed from their personal experience. "Impressively comprehensive and current: an excellent revision of a book by the #1 authority on the topic. This new edition will remain at the forefront for consultation and textbook adoption on the topic for years to come." -Bruce Russett, Yale University "I thought the first edition was the best single treatment of the subject-so, apparently, did the student who 'borrowed' my copy-and this is a worthy successor. The new edition almost flawlessly accomplishes the goal Holsti sets for himself: an update of his landmark book in light of emerging research and the dramatically changed state of the world that confronts U.S. foreign policy." -Randy Siverson, University of California, Davis "For those who are curious about the impact of 9/11 on American public opinion, for serious students of the relationship between foreign policy and public opinion, for anyone who wants to understand contemporary American opinion about the United States' place in the world, and for citizens tired of conventional wisdom about a difficult and important subject,

Holsti's study is not only interesting and topical, it is essential." -Maxine Isaacs, Kennedy School of Government, Harvard University "In an age of almost weekly polling on foreign policy, Holsti's insights are indispensable. He delivers double tour de force in this new edition, providing his own current and historical research along with a comprehensive synthesis of the existing literature. His analysis of the relationships between public opinion and foreign policy since 9/11 will prove particularly valuable for students and scholars alike." -Richard Eichenberg, Tufts University "Holsti combines a vast knowledge of political history and a mastery of the relevant scholarship with up-to-date empirical data to address the question of what role the general public can play in shaping foreign policy. This revised edition is a remarkable achievement." -Shoon Murray, School of International Service, American University [US Foreign Policy Since 1945](#) Routledge This book describes how American international policy alternates between engagement and disengagement cycles in world affairs. These cycles provide a unique way to understand, assess, and

describe fluctuations in America's involvement or non-involvement overseas. In addition to its basic thesis, the book presents a fair-minded account of four presidents' foreign policies in the post-Cold War period: George H.W. Bush, Bill Clinton, George W. Bush, and Barack Obama. It suggests recurring sources of cyclical change, along with implications for the future. An engaged or involved foreign policy entails the use of military power and diplomatic pressure against other powers to secure American ends. A disengaged or noninvolved policy relies on normal economic and political interaction with other states, which seeks to disassociation from entanglements.

AMERICAN FOREIGN POLICY SINCE WORLD WAR II

Routledge

This best-selling text presents the best synthesis of current scholarship available to emphasize the theme of expansionism and its manifestations. Volume 2 includes recently declassified documents, and provides the opportunity to consider new perspectives on topics such as the American intervention in the Bolshevik

Revolution, the origins of the Cold War and the Korean War, and the Cuban missile crisis. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

SCIENCE AND AMERICAN FOREIGN RELATIONS SINCE WORLD WAR II

Transaction Publishers

In *American Foreign Policy and the Challenges of World Leadership: Power, Principle, and the Constitution*, preeminent scholar and renowned advisor on national security Loch K. Johnson offers students an insider's portrait of U.S. foreign policy that explores its underlying and driving constitutional principles. Featuring an engaging and accessible writing style, this unique book focuses on the fundamentals of foreign policy--its theory, historical evolution, institutions, and instruments--and offers an in-depth look at the tools that the U.S. uses to defend and advance its interests abroad, including diplomacy, trade, aid, war-making, moral suasion, spying, and covert action. It also shows how the personalities of people who hold high offices and other little-known, behind-

the-scenes factors can influence foreign policy. Contemporary issues, including global terrorism, nuclear weapons proliferation, global environmental degradation, world population pressures, and migration issues, are addressed throughout. **FEATURES** Uses a levels-of-analysis approach, highlighting the significance of three levels where foreign policy is shaped: in the international setting, in domestic politics, and at the individual level Chapter outlines, lists of learning objectives, and lists of key constitutional questions for each chapter help direct students' reading Brief chapter-opening vignettes highlight historical events of significance to the study of U.S. foreign policy "Perspectives on American Foreign Policy" text boxes present excerpts from key documents or insights from top experts

AMERICAN FOREIGN POLICY IN A NEW ERA

Twelve

US Foreign Policy since 1945 is an essential introduction to postwar US foreign policy. It combines chronologic and thematic chapters to provide an historical

account of US policy and to explore key questions about its design, control and effects. New features of this second edition include: expanded coverage of the Cold War new chapters on the post-Cold War era a chronology and a new conclusion that draws together key themes and looks to the future. Covering topics from American foreign policy-making, US power and democratic control,

AMERICAN FOREIGN POLICY SINCE WORLD WAR II, SEVENTEENTH EDITION

CQ Press

Since the success of the best-selling first edition, the world has remained fascinated with US foreign policy, not least because of the far-reaching consequences of the US led invasion of Iraq. This fully updated textbook follows the events of the past two and a half years including the 2004 presidential campaign, whilst still providing a comprehensive introduction to all aspects of American foreign policy. Chapter headings include: from colony to superpower the post-Cold War decade the role of Congress the media and public opinion the US and terrorism. Examining

the administrations of George Bush, Bill Clinton and George W. Bush, it explains the complex interaction between the institutions of power, the key actors and the non-governmental organizations to give a complete picture of foreign policy. With a complete glossary of terms, this textbook is ideal for those studying American politics or international relations. Companion website available at: www.routledge.com/textbooks/0415358655

THE CRISIS OF AMERICAN FOREIGN POLICY

Cambridge University Press
No nation has maintained such an immense stature in world politics as the United States has since the Cold War's end. In the wake of the 9/11 attacks, prompting the global war on terrorism and the U.S. invasion of Afghanistan and Iraq, along with American economic and "soft power" primacy, there has been increased interest in and scrutiny of American foreign policy. The Routledge Handbook of American Foreign Policy brings together leading experts in the field to examine current trends in the way scholars study

the history and theories of American conduct in the world, analysis of state and non-state actors and their tools in conducting policy, and the dynamics of a variety of pressing transnational challenges facing the United States. This volume provides a systematic overview of all aspects of American foreign policy and drives the agenda for further, cutting edge research. Contributors bring analytic depth and breadth to both the ways in which this subject is approached and the substance of policy formulation and process. The Handbook is an invaluable resource to students, researchers, scholars, and journalists trying to make sense of the broader debates in international relations. [American Foreign Policy and the Challenges of World Leadership](#) Springer
America has a long history of diplomacy—ranging from Benjamin Franklin, Alexander Hamilton, and Thomas Jefferson to Henry Kissinger, Ronald Reagan, and James Baker—now is your chance to see the impact these Americans have had on the world. Recounting the actors and events of U.S. foreign policy, Zoellick identifies five traditions that have emerged from America's encounters with

the world: the importance of North America; the special roles trading, transnational, and technological relations play in defining ties with others; changing attitudes toward alliances and ways of ordering connections among states; the need for public support, especially through Congress; and the belief that American policy should serve a larger purpose. These traditions frame a closing review of post-Cold War presidencies, which Zoellick foresees serving as guideposts for the future. Both a sweeping work of history and an insightful guide to U.S. diplomacy past and present, *America in the World* serves as an informative companion and practical adviser to readers seeking to understand the strategic and immediate challenges of U.S. foreign policy during an era of transformation.

SPECIAL PROVIDENCE

Cambridge University Press
A comprehensive account of ideology and its role in the foreign policy of the United States of America, this book investigates the way United States foreign policy has been understood, debated and explained in the period since the US emerged as a

global force, on its way to becoming the world power. Starting from the premise that ideologies facilitate understanding by providing explanatory patterns or frameworks from which meaning can be derived, the authors study the relationship between ideology and foreign policy, demonstrating the important role ideas have played in US foreign policy. Drawing on a range of US administrations, they consider key speeches and doctrines, as well as private conversations, and compare rhetoric to actions in order to demonstrate how particular sets of ideas – that is, ideologies – from anti-colonialism and anti-communism to neo-conservatism mattered during specific presidencies and how US foreign policy was projected, explained and sustained from one administration to another. Bringing a neglected dimension into the study of US foreign policy, this book will be of great interest to students and researchers of US foreign policy, ideology and politics.

American Foreign Policy Since World War II
Princeton University Press

This is the latest edition of a major work on the history of American foreign policy. The volume reflects the revisionism

prevalent in the field but offers balanced accounts. Changes from the earlier edition include a reworked final chapter featuring new material on the Reagan Administration and the nuclear arms race, and an expanded coverage of the 1865-1895 period. It contains numerous illustrations: photographs, graphs and charts, maps, and contemporary cartoons. ISBN 0-669-12664-0 (pbk.): \$14.50.

US Foreign Policy After The Cold War New York : Praeger

The United States should respond to the COVID-19 reordering moment and stop deterioration in the balance of power with China, bolster relations with India and Europe, and reform the way it deals with allies and partners.

PUBLIC OPINION AND AMERICAN FOREIGN POLICY, REVISED EDITION

Penguin

The cold war came to a grinding halt during the astounding developments of 1989-1991. The Berlin Wall fell, Eastern European countries freed themselves from Soviet domination, and the Soviet Union itself disintegrated after witnessing a failed coup presumably aimed at restoring

a communist dictatorship. Suddenly the “evil empire” was no more, and U.S. foreign policy was forever changed. This volume explores the revisions to a variety of bureaucratic institutions and policy areas in the wake of these political upheavals.

Guide to U.S. Foreign Policy Oxford University Press, USA

This affordable text offers a clear, concise and readable narrative and analytical history of American foreign policy since the Spanish-American War. Special attention is given to the controversial issues and contrasting views that surround major wars and foreign policy decisions that the United States has made from 1895 to the present. The book narrates events and policies but goes further to emphasize the international setting and constraints within which American policy-makers had to operate, the domestic pressures on those policy-makers, and the ideologies, preferences, and personal idiosyncrasies of the leaders themselves.

U.S. Foreign Policy Pearson College Division

American Foreign Relations: A New Diplomatic History is a compelling

narrative history of American foreign policy from the early settlement of North America to the present. In addition to economic and strategic motives, Walter L. Hixson integrates key cultural factors—including race, gender, and religion—into the story of American foreign policy. He demonstrates how these factors played a vital role in shaping the actions of the United States in world affairs. Beginning with the history of warfare and diplomacy between indigenous peoples and Europeans before the establishment of the United States, this book shows the formative influence of settler colonialism on the country's later foreign policy and the growth of American empire. Clearly written and comprehensive, the book features: Extensive illustrations, with over 100 images and maps Primary documents in each chapter, showcasing the perspectives of historical actors "Interpreting the Past" features that explore how historians' understanding of events has changed over time Selected bibliographies of key resources for further research in each chapter In one concise volume, *American Foreign Relations* covers the full sweep of American foreign

policy from the colonial period to the present day. It is an essential introduction for anyone seeking to understand the history of America's role in the world.

AMERICA IN THE WORLD

Princeton University Press
 The Gold Standard for Textbooks on American Foreign Policy
American Foreign Policy Since World War II provides you with an understanding of America's current challenges by exploring its historical experience as the world's predominant power since World War II. Through this process of historical reflection and insight, you become better equipped to place the current problems of the nation's foreign policy agenda into modern policy context. With each new edition, authors Steven W. Hook and John Spanier find that new developments in foreign policy conform to their overarching theme—there is an American "style" of foreign policy imbued with a distinct sense of national exceptionalism. This Twenty-First Edition continues to explore America's unique national style with chapters that address the aftershocks of the Arab Spring and the revival of power politics. Additionally, an

entirely new chapter devoted to the current administration discusses the implications of a changing American policy under the Trump presidency.

AMERICAN FOREIGN RELATIONS

University of Michigan Press
 Conservatives and liberals alike are currently debating the probable future of the Republican Party. What direction will conservatives and republicans take on foreign policy in the age of Obama? This book tackles this question.
American Foreign Policy: Since 1900 CQ Press
 The same aspects of American government and society that propelled the United States to global primacy have also hampered its orderly and successful conduct of foreign policy. This paradox challenges U.S. leaders to overcome threats to America's world power in the face of fast-moving global developments and political upheavals at home. The fully updated Fifth Edition of Steven W. Hook's *U.S. Foreign Policy: The Paradox of World Power* explores this paradox, identifies its key sources and manifestations, and considers its future implications as it asks

whether U.S. foreign policymakers can manage these dynamics in a manner that preserves U.S. primacy.

Sailing the Water's Edge Princeton University Press

"A valuable primer on foreign policy: a primer that concerned citizens of all political persuasions—not to mention the president and his advisers—could benefit from reading." —The New York Times An examination of a world increasingly defined by disorder and a United States unable to shape the world in its image, from the president of the Council on Foreign Relations Things fall apart; the center cannot hold. The rules, policies, and institutions that have guided the world since World War II have largely run their course. Respect for sovereignty alone cannot uphold order in an age defined by global challenges from terrorism and the spread of nuclear weapons to climate

change and cyberspace. Meanwhile, great power rivalry is returning. Weak states pose problems just as confounding as strong ones. The United States remains the world's strongest country, but American foreign policy has at times made matters worse, both by what the U.S. has done and by what it has failed to do. The Middle East is in chaos, Asia is threatened by China's rise and a reckless North Korea, and Europe, for decades the world's most stable region, is now anything but. As Richard Haass explains, the election of Donald Trump and the unexpected vote for "Brexit" signals that many in modern democracies reject important aspects of globalization, including borders open to trade and immigrants. In *A World in Disarray*, Haass argues for an updated global operating system—call it world order 2.0—that reflects the reality that power is widely distributed and that

borders count for less. One critical element of this adjustment will be adopting a new approach to sovereignty, one that embraces its obligations and responsibilities as well as its rights and protections. Haass also details how the U.S. should act towards China and Russia, as well as in Asia, Europe, and the Middle East. He suggests, too, what the country should do to address its dysfunctional politics, mounting debt, and the lack of agreement on the nature of its relationship with the world. *A World in Disarray* is a wise examination, one rich in history, of the current world, along with how we got here and what needs doing. Haass shows that the world cannot have stability or prosperity without the United States, but that the United States cannot be a force for global stability and prosperity without its politicians and citizens reaching a new understanding.
