A Memoir of the Pacific War Simon and Schuster
A Finalist for the Gilder Lehrman Prize for Military History at the New-York Historical Society The definitive account of General Douglas MacArthur's rise during World War II, from the author of the bestseller *The Admirals*. World War II changed the course of history. Douglas MacArthur changed the course of World War II. *MACARTHUR AT WAR* will go deeper into this transformative period of his life than previous biographies, drilling into the military strategy that Walter R. Borneman is so skilled at

conveying, and exploring how personality and ego translate into military successes and failures. Architect of stunning triumphs and inexplicable defeats, General MacArthur is the most intriguing military leader of the twentieth century. There was never any middle ground with MacArthur. This in-depth study of the most critical period of his career shows how MacArthur's influence spread far beyond the war-torn Pacific.

Samuel Johnson is a writer of such significance that his era — the second half of the 18th century — is known as the Age of Johnson. Starting out as a Grub Street journalist, he made his mark on history as a poet, author, moralist, literary critic, political commentator, and lexiconographer. We, as moderns, need to

know this man, and W. Jackson Bate's formidable biography, with its uncanny depth and empathy, is the book that makes that happen. Professor W. Jackson Bate is a lyrical writer who deftly explains the effect Johnson has had on scholars, critics, and readers of all kinds through the past 200 years: "The reason Johnson has always fascinated so many people of different kinds," Bate writes, "is not simply that [he] is so vividly picturesque and quotable . . . The deeper secret of his hypnotic attraction, especially during our own generation, lies in the immense reassurance he gives to human nature." Bate delves deep into the character that formed Johnson's intellect and fueled his prodigious contribution to literature, religion, politics, and our understanding of the nature of humankind, revealing the fascinating nature — both odd and adored — of this literary luminary.

DOUGLAS MACARTHUR

Little, Brown

A "lively and engaging" history of the Middle Ages (Dallas Morning News) from the acclaimed historian William Manchester, author of *The Last Lion*. From tales of chivalrous knights to the barbarity of trial by ordeal, no era has been a greater source of awe, horror, and wonder than the Middle Ages. In handsomely crafted prose, and with the grace and authority of his extraordinary gift for narrative history, William Manchester leads us from a civilization tottering on the brink of collapse to the grandeur of its rebirth: the dense explosion of energy that spawned some of history's greatest poets, philosophers, painters, adventurers, and reformers, as well as some of its most

spectacular villains. "Manchester provides easy access to a fascinating age when our modern mentality was just being born."

--Chicago Tribune

The Last Lion: Winston Spencer Churchill: Visions of Glory, 1874-1932 is the first volume in William Manchester's epic three volume *The Last Lion* - the best-selling and definitive biography of one of Britain's pre-eminent prime ministers. When Winston Churchill was born in Blenheim Palace, Imperial Britain stood at the splendid pinnacle of her power. Yet within a few years, the Empire would hover on the brink of a catastrophic new era. This first volume of the best-selling biography of the adventurer, aristocrat, soldier, and statesman covers the first 58 years of the remarkable man whose courageous vision guided the destiny of those darkly troubled times and who looms today as one of the

greatest figures of the twentieth century.

The Generals Pickle Partners Publishing

The bestselling classic that indelibly captures the life and times of one of the most brilliant and controversial military figures of the twentieth century. "Electric...Tense with the feeling that this is the authentic MacArthur...Splendid reading." -- New York Times Inspiring, outrageous... A thundering paradox of a man. Douglas MacArthur, one of only five men in history to have achieved the rank of General of the United States Army. He served in World Wars I, II, and the Korean War, and is famous for stating that "in war, there is no substitute for victory." American Caesar examines the exemplary army career, the stunning successes (and lapses) on the battlefield, and the turbulent private life of the soldier-hero whose mystery and appeal created a uniquely American legend.

Marie Sklodowska Curie (1867–1934) was the first woman scientist to win worldwide acclaim and was, indeed, one of the great scientists of the twentieth century. Written by Curie's daughter, the renowned international activist Eve Curie, this biography chronicles Curie's legendary achievements in science, including her pioneering efforts in the study of radioactivity and her two Nobel Prizes in Physics and Chemistry. It also spotlights her remarkable life, from her childhood in Poland, to her storybook Parisian marriage to fellow scientist Pierre Curie, to her tragic death from the very radium that brought her fame.

Winston Spencer Churchill, 1874 - 1965 Little, Brown

Written in his own hand and finished only weeks before his death, this memoir by Gen. Douglas MacArthur spans more than half a

century of modern history. His vantage point at center stage during the major controversies of the twentieth century afforded him unique views of the conflicts in which he played a vital role. No soldier in recent times has been more admired—or reviled. Liberator of the Philippines, shogun of occupied Japan, victor of the battle of Inchon, the general was a national hero when suddenly relieved of his duties by President Truman in 1950. His supporters believe his genius for command and skill as a strategist stand as landmarks in military history. His critics are not so kind, calling him a gigantic ego paying homage to himself in this book. Regardless, *Reminiscences* is a moving final testament by one of America's most decorated heroes, decade by decade, battlefield by battlefield. After graduation from West Point with the highest average ever achieved by a cadet, MacArthur served in Vera Cruz during the Mexican uprisings and later in World War I. His courage in the trenches and his leadership of the famous Rainbow Division won him seven Silver Stars. Appointed Supreme Commander of Allied Forces in the Pacific in World War II, he was the architect of the campaign to drive the Japanese from their strongholds at Bataan, Corregidor, and New Guinea. His account of the war is dramatically punctuated with revealing portraits of key personalities and insights into his stands on controversial issues. Richly illustrated throughout. "Douglas MacArthur's memoirs...record an extraordinary and controversial public career of more than fifty years—as MacArthur wanted it remembered."—*Newsweek* "MacArthur was praised and blamed most of the time for the wrong reasons. His *Reminiscences*, written in the last two years of his life, should help put him back in perspective."—*Time*

William Manchester's epic and definitive account of President John F. Kennedy's assassination--now restored to print in a new paperback edition. As the world still reeled from the tragic and historic events of November 22, 1963, William Manchester set out, at the request of the Kennedy family, to create a detailed, authoritative record of the days immediately preceding and following President John F. Kennedy's death. Through hundreds of interviews, abundant travel and firsthand observation, and with unique access to the proceedings of the Warren Commission, Manchester conducted an exhaustive historical investigation, accumulating forty-five volumes of documents, exhibits, and transcribed tapes. His ultimate objective -- to set down as a whole the national and personal tragedy that was JFK's assassination -- is brilliantly achieved in this galvanizing narrative, a book universally acclaimed as a landmark work of modern history.

Seymour Morris Jr. combines political history, military biography, and business management to tell the story of General Douglas MacArthur's tremendous success in rebuilding Japan after World War II in *Supreme Commander*, a lively, in-depth work of biographical history complementary to *The Generals*, *The Storm of War*, and *Truman*. He is the most decorated general in American history—and the only five five-star general to receive the Medal of Honor. Yet Douglas MacArthur's greatest victory was not in war but in peace. As the uniquely titled Supreme Commander for the Allied Powers, he was charged with transforming a defeated, militarist empire into a beacon of peace and democracy—"the greatest gamble ever attempted," he called it. A career military man, MacArthur had no experience in politics, diplomacy, or economics. A vain, reclusive, and self-centered man, his many enemies in Washington thought he was a flaming peacock, and few, including President Harry Truman's closest advisors, gave him a chance of succeeding. Yet MacArthur did so brilliantly, defying timetables and expectations. *Supreme Commander* tells for the first time, the story of how MacArthur's leadership achieved a nation-building success that had never been attempted before—and never replicated since. Seymour Morris Jr. reveals this flawed man at his best who treated a defeated enemy with respect; who made informed and thoughtful decisions yet could be brash and stubborn when necessary, and who led the Occupation with intelligence, class, and compassion. Morris analyzes MacArthur's key tactical choices, explaining how each contributed to his accomplishment, and

paints a detailed picture of a true patriot—a man of conviction who proved to be an outstanding and effective leader in the most extraordinary circumstances.

In *Empire's Mistress* Vernadette Vicuña Gonzalez follows the life of Filipina vaudeville and film actress Isabel Rosario Cooper, who was the mistress of General Douglas MacArthur. If mentioned at all, their relationship exists only as a salacious footnote in MacArthur's biography—a failed love affair between a venerated war hero and a young woman of Filipino and American heritage. Following Cooper from the Philippines to Washington, D.C. to Hollywood, where she died penniless, Gonzalez frames her not as a tragic heroine, but as someone caught within the violent histories of U.S. imperialism. In this way, Gonzalez uses Cooper's life as a means to explore the contours of empire as experienced on the scale of personal relationships. Along the way, Gonzalez fills in the archival gaps of Cooper's life with speculative fictional interludes that both unsettle the authority of “official” archives and dislodge the established one-dimensional characterizations of her. By presenting Cooper as a complex historical subject who lived at the crossroads of American colonialism in the Philippines, Gonzalez demonstrates how intimacy and love are woven into the

infrastructure of empire.

American Caesar Douglas MacArthur 1880 - 1964

An in-depth journey through America and the world in the postwar years, from a New York Times–bestselling historian and biographer. Among his many accomplishments, William Manchester was especially known for his book *The Death of a President*, the award-winning account of the assassination of John F. Kennedy that embroiled him in a lawsuit filed by Jackie Kennedy. The title essay in this collection recounts the experience of publishing that book, and of his battle with JFK's widow. In addition, *Controversy* includes a wide range of journalistic pieces published in the period between World War II and Vietnam, covering events from the Bay of Pigs fiasco to Watergate and highlighting the insights and observations of a distinguished career that earned the author the National Humanities Medal and the Abraham Lincoln Literary Award, among other honors. “A work of love, even passion. . . . Mr. Manchester's final telling of the death of Kennedy is most moving.” —Gore Vidal
