What would one call taking teens with no evident running talent and putting them through breakneck training combined with mantras from the rock n' roll, techniques from Kenya, philosophy from Australia and turning them champions? Is it revolutionary? Or just plain crazy?Bill Aris has heard both, but one thing is indisputable. Everything Aris does with his runners—male and female—is new and extraordinary, and he has created a new American running dynasty. The runners of Fayetteville-Manlius High School, or F-M, have won the last nine out of ten national championships and have the best cumulative record in cross country history. F-M's domination has shocked the sport for its defiance of accepted running principles and limitations. One year, the girls defeated the 2nd-place team in the country by an average of 59 seconds per girl in a 5k race. Another year, the F-M girls' ran faster than their Kenyan counterparts, who had come to Oregon as a showcase. Across the country, top coaches all whisper, "How do they do it?"From adopting long-forgotten Spartan creeds to focusing on teenaged developmental psychology and gender-blindness in training, *The Running Revolutionaries* is a must read for millions of runners and the millions more who strive for better performance.

### KELLY MORAN

The History Press

A lush, richly layered novel and an enduring testament to the power of storytelling In the near future, after a storm strikes New York City, the strangeness begins. A down-to-earth gardener finds that his feet no longer touch the ground. Abandoned at the mayor's office, a baby identifies corruption with her mere presence, marking the guilty with blemishes and boils. A seductive gold digger is soon tapped to combat forces beyond imagining. It is the onset of an epic war between light and dark, spanning a thousand and one nights, in which beliefs are challenged, words act like poison, silence is a disease, and a noise may contain a hidden curse. Inspired by the traditional 'wonder tales' of the East, *Two Years, Eight Months and Twenty-Eight Nights* is satirical and bawdy, full of cunning and folly, rivalries and betrayals, kismet and karma, rapture and redemption.

Paddy Doherty, a young English twenty-something, has loved motorbikes for as long as he could remember, almost as long as his best pal, "Mucka" O'Neal. But a chance conversation over a pint, on a sunny summer's afternoon, buys him a one-way ticket into the insane world of motorcycle racing. Stoically partnered by "Mucka", the pair embark on an adventure into the adrenaline-packed life of motorcycle racers. Rivalry, romance, disaster and success pave the track of this gritty, earthy, humorous adventure around the motor-racing circuits of the UK. From the cold winter's morning of their nervous first race at Mallory Park, the racers progress through the ranks, making colourful friends, and dangerous enemies along the way. Paddock parties, crashes, tears and above all, laughter run rich throughout this genuinely funny and heartfelt adventure. But how will it end for them, on a podium with champagne, or in a hospital bed? *The Racers* unfolds in a climax of burnt rubber, all the way to the chequered flag.

The majestic high-wheel bicycle, with its spider wheels and rubber tires, emerged in the mid-1870s as the standard bicycle. A common misconception is that, bound by Victorian dress and decorum, women were unable to ride it, only taking up cycling in the 1880s with the advent of the chain-driven safety bicycle. On the contrary, women had been riding and even racing some form of the bicycle since the first vélocipèdes appeared in Europe early in the nineteenth century. Challenging the understanding that bicycling was a purely masculine sport, *Muscle on Wheels* tells the story of women's high-wheel racing in North America in the 1880s and early 1890s, with a focus on a particular cyclist: Louise Armaindo (1857–1900). Among Canada's first women professional athletes and the first woman who was truly successful as a high-wheel racer, Armaindo began her career as a strongwoman and trapeze artist in Chicago in the 1870s before discovering high-wheel bicycle racing. Initially she competed against men, but as more women took up the sport, she raced them too. Although Armaindo is the star of *Muscle on Wheels*, the book is also about other women cyclists and the many men – racers, managers, trainers, agents, bookmakers, sport administrators, and editors of influential cycling magazines – who controlled the sport, especially in the United States. The story of working-class Victorian women who earned a living through their athletic talent, *Muscle on Wheels* showcases an exciting moment in women's and athletic history that is often forgotten or misconstrued.

In this highly original history of the world's most famous bicycle race, Christopher S. Thompson, mining previously neglected sources and writing with infectious enthusiasm for his subject, tells the compelling story of the Tour de France from its creation in 1903 to the present. Weaving the words of racers, politicians, Tour organizers, and a host of other commentators together with a wide-ranging analysis of the culture surrounding the event including posters, songs, novels, films, and media coverage Thompson links the history of the Tour to key moments and themes in French history. Examining the enduring popularity of Tour racers, Thompson explores how their public images have changed over the past century. A new preface explores the long-standing problem of doping in light of recent scandals.

Galvanized by Erasmus' teaching on free will, Martin Luther wrote "De servo arbitrio", or "The Bondage of the Will", insisting that the sinful human will could not turn itself to God. In this first study to investigate the sixteenth-century reception of "De servo", Robert Kolb unpacks Luther's theology and recounts his followers' ensuing disputes until their resolution in the Lutheran churches' 1577 "Formula of Concord".

Until the 1970s, North America was considered a backwater with respect to world championship-level motorcycle road racing. European racers viewed American riders as being less talented and rode around in circles on tracks made of dirt. That all changed when Kenny Roberts exploded onto the Grand Prix racing scene and became the first American to win the world championship in motorcycle road racing's premier class. Roberts' success launched an era of American dominance that lasted for nearly 20 years and still echoes through the annals of the sport. This is the story of the legendary American riders who beat the Europeans at their own game, including Freddie Spencer, Eddie Lawson, Wayne Rainey, Kevin Schwantz, Kenny Roberts Jr., and the most recent American world champion, Nicky Hayden. With additional chapters about the American World Superbike champions and those Americans who competed for the World Championship, this is the story road racing fans have been waiting decades to read.

Written and curated by Alicia Mariah Elfving, founder of TheMotoLady.com and the Women's Motorcycle Show, and arguably the most notable advocate for women in the motorcycling hobby, The MotoLady's Book of Women Who Ride subverts all the tired women-and-motorcycle tropes, offering the true stories of the women past and present who ride and wrench as well as anyone, proving every bit as indispensable to maintaining and growing a positive motorcycling culture. Historically, depictions of women in motorcycle culture tend to objectify—from the outlaw motorcycle club "biker babe" to cheesecake photography to posturing celebrities with motorcycles as props. The truth is much different. From the early days of motorcycle culture more than 100 years ago, women have played a central role in making the motorcycle a legitimate form of transportation, recreation, and motorsport. Elfving presents more than 70 figures in the motorcycle world, from the Americas to Europe and even the Middle East and South Asia—stunt riders, racers, builders, customizers, organizers, and more. Elfving links today's women motorcyclists with those of the past and illustrates the freedom represented by two wheels, and how motorcycles allow women to transcend cultural expectations confidently. You'll meet riders such as: Sofi Tsingos, who raises money for charities by building and auctioning motorcycles. Safety ambassador Brittany Morrow, who found her calling after surviving a high-speed crash with no gear. The Van Buren sisters, who in 1916 were among the first motorcyclists to ride coast to coast and the first women to ride to the summit of Pikes Peak. The late Jessi Combs, an iconic TV personality, metal fabricator, and land-speed record holder. Overwhelmingly positive, Elfving instills confidence and can-do rather than providing an echo chamber of common complaints among women in motorcycling. In addition, The MotoLady's Book of Women Who Ride is illustrated throughout with contemporary and historical photos of the author's subjects, comprising a beautiful as well as inspiring package.
