Unveiled in this book are the secrets of the occult sciences of Yantra, Mantra and Tantra to help the reader achieve worldly success and spiritual enlightenment. Detailed instructions are given for the preparation and application of Yantras for specific purposes: to win favours, defeat for selecting and using Mantras to attain miraculous powers, and fulfilment of one's desires, are explained in detail. In the Tantra section of the book, methods of treatment of diseases by

herbs are given. Information is provided about Tantric articles and where to obtain them. *Pointers to Profession* Motilal Banarsidass Astrology is both Science and Art. Hence only the talented can appreciate and understand it. Rightly Visnugupta declares that nobody other than a sage can master the ocean-like science of astrology. The great Varahamihira declares, "No sin will creep into a place that is sanctified by the presence of a true astrologer. No person who studies and

divines the course of destiny will ever be found in hell but will reside permanently in the world of Brahman. This book brings to the fore not only the rationality of astrology but also the nature and structure of the correct knowledge that our forefathers possessed regarding the predictable influences of planets on human beings, and gives a spiritual bias to astrology. The reader is taken step by step in this work from the rudiments Viz., the distribution of constellations in the

Zodiacal belt which is divided into twelve Signs, and the planetary hierarchy, through the method of calculating the ascendant and other houses of a natal chart, assessment of the strengths, influences, aspects, affliction, mutual relations etc., of the planets, to the final stage of reading the brighter and darker sides of the subject's life, his chances of success and failure, their periods, ingress of the soul into the mortal coil and exit there from as well as its departure to

other worlds according to its karma. "In this book, an attempt has been made to give a good account of the science of astrology, with a view to making the reader a good and true astrologer. It also shows that astrology does not make a man a fatalist, helpless automation in the hands of a merciless Fate. It should, on the other hand, help him to take to self-exertion and self-help. This hoary lore, according to the author, is to be practised not for selfish ends but to guide the needy and the

distressed, to remove the cause of their suffering and to turn their attention towards God.

It gives me immense pleasure to bring forth the second revised edition of my highly cherished work of Bhrigu Samhita, an ancient and unique treatise in predictive astrology. I was equally elated and feel ecstatic for having received encouraging as well as critical responses from the esteemed and avid readers. It deference to their valuable suggestions and also some ambiguity

pointed by them, I have revised some part of the chapter on “Basic Astrology” and also brought about improvement and amplifications in certain parts of the analyses of various charts wherein the evolved principles which are specifically important in delineating horoscopes on the format of Bhrigu Samhita are further explained. This was done with a view to make the explanations more cogent in comprehend. This will also address the concern sown

by the valued readers in some places of earlier narrations.

Transits are one of the main means used in horoscope reading. They are used to forecast future trend and developments. Astrological transit is about interpreting the ongoing movement of the planets as they transit the horoscope. These transits are studied in the Natal Charts to tell about the

timing or fructification of the events. In this book the initial chapters deal with the basic understanding of the meaning of Transit, the rules to be applied and about the planets. We have also dealt with the rules to be applied in predicting the result of transiting planets. Basic Transit Rules of planets in Houses, Signs, Nakshatra and Divisional Charts is explained at length. The book then dwells in factors that modify the results of a Transit. It then goes into explaining the

impact of the transiting inner planets. I have also gone in details explaining the impact of Jupiter, Saturn, Nodes and Mars in Transit with various permutation and combination.
