A Guide to Professional Policing
National Learning Corporation

Based on interviews with former police officers, this book addresses two main issues. Firstly, the question of how the police themselves viewed the priorities of the job and what they considered their role to be. This is the first study to consider this question and its implications for the style and content of police work. Secondly, it challenges the view of the prewar period as a "Golden Age", and shows that policing from the 1930s to the 1960s was not as unproblematic as has often been assumed. Police violence and the fabrication of evidence were more prevalent than the cosy image of the British TV series Dixon of Dock Green would have us believe. The fact that this image often went unchallenged has much to do with prevailing concepts of

masculinity and with the greater moral certitude of the police within a more stable and stratified society.

Learn how to beat the competition and get the law enforcement job you want by understanding your own underlying Emotional Intelligence and Behavioral Traits, and how they will be measured in interviews. There are seven behavioral competencies found in everyone's emotional makeup that are recognized in The Law Enforcement Officer Emotional Intelligence & Behavioral Competency Profile developed by Dr. Zendzian (2003). These competencies are seen in behaviors that employers will observe when interviewing people for law enforcement positions. The brief time that interviewers and oral board

panelists spend with candidates during an interview will provide a snapshot of who they are at that moment in time. It is not only WHAT you say that counts, but HOW well you say it! This Guidebook begins with a discussion of learning styles and focuses on understanding the importance that mental reasoning assumes during an interview. You will learn why you must master each of the seven behavioral competencies. Insight is provided into what interviewers are looking for when rating your responses. You will learn to develop strategies and tactics for performing better when applying your emotional intelligence to questions that are asked. This book contains ALL of the techniques, hints, and skills that people who have mastered interviewing use when

answering questions. Now you can know what to expect, along with the types of questions you will be asked, during an oral interview. Avoid scoring low in any interview. You will be guided through correct and incorrect responses to sample questions. There is a list of twenty-five topics from which interview questions have been drafted. Don't show up to an interview unprepared and looking dumbfounded learn WHAT to say and HOW to say it. Learning how to Master the Interview will result in dramatically higher scores on your next interview.

The contents of this book are designed specifically for law enforcement officers,

front-line supervisors, and managers who have reached the point in their careers where they are ready to advance their rank. The focus of this information is on the police promotional oral interview. In a majority of police agencies across the country the oral interview is both the most critical part of the promotion process and the most difficult. An officer's performance during the oral interview is paramount because the process is highly competitive. Officers must "out-score" others also vying for promotion. This is difficult in that candidates may be competing against dozens or even hundreds of other police personnel many of whom may have greater education or more experience. The goal of this book is to provide professional law enforcement

officers with a highly effective and valuable preparatory edge. This "edge" translates into real-world techniques, easy-to-apply skills, and a wealth of information on how to be distinctive and perform in an exceptional manner during the oral interview. The police officer, deputy, supervisor, or manager who utilizes the content of this unique book correctly can stand out among the other candidates, be more competitive, achieve preparatory confidence, and up their performance toward higher interview scores.

The uneasy balance between these worlds is shattered when Starr witnesses the fatal shooting of her childhood best friend Khalil at the hands of a police

officer. Khalil was unarmed. Soon afterward, his death is a national headline. Some are calling him a thug, maybe even a drug dealer and a gangbanger. Protesters are taking to the streets in Khalil's name. Some cops and the local drug lord try to intimidate Starr and her family. What everyone wants to know is: what really went down that night? And the only person alive who can answer that is Starr. But what Starr does—or does not—say could upend her community. It could also endanger her life. Want more of Garden Heights? Prepare to be shocked. From the man The Wall Street Journal hailed as a "Swiftean satirist" comes the most shocking book ever written! The Borowitz Report: The Big Book of Shockers, by award-winning fake journalist Andy Borowitz, contains page after page of "news stories" too hot, too

controversial, too -- yes, shocking -- for the mainstream press to handle. Sample the groundbreaking reporting from the news organization whose motto is "Give us thirty minutes -- we'll waste it."

HOW TO BECOME A POLICE OFFICER: THE INSIDER'S GUIDE

Cambridge University Press

Despite the obvious importance of eyewitness information in criminal investigation, police receive surprisingly little instruction on how to conduct an effective interview with a cooperative eyewitness. More than half of police departments have no formal training whatsoever for newly appointed investigators. Most texts in police science either completely omit the issue of effective interviewing techniques or

provide only superficial coverage. This manual provides guiding principles to effective interviewing, with specific techniques to be used and others to be avoided. There are principles of memory retrieval so that the reader will understand why to employ specific techniques -- for example, when to use open-ended versus direct short-answer questions, effective use of pauses, asking follow-up questions, cues to name and number recall, etc. There is the strategy of interview sequential structure -- that is, what to probe for at the beginning, middle, and end of the interview. Also included are practical exercises and real-world experiences. The book will also be helpful for attorneys in conducting investigative interviews.

Fully up to date with recent research and practice, including the most recent AHA guidelines, this model resource for the practising emergency medicine resident allows for a case-based interactive approach to studying for the Oral Boards

examination, while also providing an excellent introduction to the field. Featuring 126 cases derived from the Model of Clinical Practice of Emergency Medicine, with an emphasis on EKGs, CT scans, X-rays and ultrasounds, it now includes diagnoses such as nursemaid's elbow, multiple sepsis cases, the suicidal patient, and Cushing's syndrome, as well as a chapter on the scoring of Oral Boards. Practising alone or with a partner, the reader can review critical actions and key clinical pearls for each case. The appendices contain high-yield information on subjects emphasised in the Oral Boards examination, such as pediatric, cardiovascular, traumatic, and toxicological disorders. This book truly allows the reader to feel actively immersed in the case.
