Have you ever thought about what your life would be like if it revolved around you? *Me First: A Deliciously Selfish Take on Life* is an unapologetic and hilarious perspective on what it takes to get to the top and to live life on your own terms. Before making any big decision such as getting into a relationship or choosing a career path-you will start with the most important question: What do I want? The second question you will ask is: How does this decision, action, or choice benefit me directly? If it's not what you want or does not benefit you directly, don't do it. At the heart of *Me First* is the belief that YOU deserve to be happy and fulfilled. Its "Delish-isms" will show you how to become the number one priority in your life and become smarter and more strategic about your relationships, career, health, and finances. Every chapter also contains "Kick Starters" to help you get moving in the right direction. How selfish, right? Absolutely! A deliciously selfish life means taking a step back from the craziness to figure out who you are and what you want, and once you do, to own it. Because the only person holding you back from getting what you want is you.

The Keys To Success The Five Major Pieces to the Life Puzzle

5 Easy Pieces features five contributions, originally published in *Nature and Science*, demonstrating the massive impacts of modern industrial fisheries on marine ecosystems. Initially published over an eight-year period, from 1995 to 2003, these articles illustrate a transition in scientific thought—from the initially-contested realization that the crisis of fisheries and their underlying ocean ecosystems was, in fact, global to its broad acceptance by mainstream scientific and public opinion. Daniel Pauly, a well-known fisheries expert who was a co-author of all five articles, presents each original article here and surrounds it with a rich array of contemporary comments, many of which led Pauly and his colleagues to further study. In addition, Pauly documents how popular media reported on the articles and their findings. By doing so, he demonstrates how science evolves. In one chapter, for example, the popular media pick up a contribution and use Pauly's conclusions to contextualize current political disputes; in another, what might be seen as nitpicking by fellow scientists leads Pauly and his colleagues to strengthen their case that commercial fishing is endangering the global marine ecosystem. This structure also allows readers to see how scientists' interactions with the popular media can shape the reception of their own, sometimes controversial, scientific studies. In an epilog, Pauly reflects on the ways that scientific consensus emerges from discussions both within and outside the scientific community.

5 EASY PIECES

The uneasy pieces of this book are well-written, challenging and stimulating. They come from the pen of Australian biblical scholars within the Anglican communion, who are skilled in both exegesis and hermeneutical theory. Each essay addresses the question of homosexuality in the Bible, looking at passages in the Old Testament and the New Testament which are often used as a basis for rejecting homosexuality in Christian ethics. Each essays argues, on the contrary, that there is no biblical warrant for condemning either a homosexual orientation or a faithful and committed homosexual relationship. The book, as a whole, makes it crystal clear that both sides of the debate take seriously the Bible as the inspired word of God, and both are seeking to discern the Scriptures in order to hear Gods voice speaking to us today.

The Great Five Faolan's Pen Publishing

The first edition of this book was published in Italian in 1989, about two years after the death of Ludovico Quaroni; this edition in English is addressed mainly to non-Italian scholars with an interest in modern architecture in Italy. Given the imperfect parallel between musical and literary composition, therefore, in this book an intimate intellectual atmosphere prevails, which reveals the author's skill in creating a narrative and also in engaging in a type of critical writing that is rarely undertaken by architect-intellectuals. The five episodes in the book cover almost thirty years, from 1958 to 1987, which were years that remained deeply preserved in the author's memory. The literary form of the pieces gives all of them a common structure: they are dialogues; usually consisting of brief exchanges of few words, spoken or written, between the author (Lucio Barbera) and Quaroni. In one of them - *Charisma* - the dialogue takes place between Quaroni and a larger chorus. In another - *Elective Misunderstanding* - we have a double dialogue at a distance, a trio, if we return to the musical metaphor, between Quaroni, Lodovico Barbiano di Belgiojoso and Barbera. The last piece is a longer conversation by Quaroni on himself; a taking stock and a valediction. On the frontispiece, Barbera gives a clear indication of his intentions: "For students of Architecture who

are well-educated and for architects interested in getting to know better a Master of their trade".
