## MARIELA JOYCE

**The Barrio Gangs of San Antonio, 1915-2015** Cambridge University Press  
 With skill, imagination, and wit, Yamashita defines an emerging challenge of twenty-first century global society.

**Suetonius, the Biographer** Ledizioni  
 This book provides examples of the best modern scholarship on rhetoric in the renaissance. Lawrence Green, Lisa Jardine, Kees Meerhoff, Dilwyn Knox, Brian Vickers, George Hunter, Peter Mack, David Norbrook and Pat Rubin look at the reception of Aristotle's Rhetoric in the renaissance; the place of rhetoric in Erasmus's career, Melanchthon's teaching, and sixteenth century protestant schools; the rhetoric textbook; the use of rhetoric in Raphael, renaissance drama, Elizabethan romance, and seventeenth century political writing. It will become essential reading for advanced studies in English, rhetoric, art history, history, history of education, history of ideas, political theory, and reformation history.

**The Book of Causes** American Psychiatric Pub  
 Plutarch's Lives of great Greek and Roman public figures are among the central texts of European culture. Like most Greek authors Plutarch had been virtually unknown in Western Europe during the Middle Ages, but when Renaissance humanists rekindled interest in Greek language and culture, he became one of the most widely read authors of the period. Marianne Pade discusses the many Latin translations of the Lives produced during the fifteenth century, examines their diffusion in manuscripts and printed books and shows how Plutarch came to influence fifteenth-century Italian culture. The overwhelming interest in the Lives can be explained by studying the way Classical Antiquity was used for ideological purposes in Renaissance Italy. To a great extent the historical effects of the biographies reflect the ideologies of the environments in which they were translated and read. The purpose of the biographies, and often of the forewords of the translations as well, was to evoke or create a city's national myths or to promote a patron or the city itself. The second volume contains an edition of all the letters of dedication and a catalogue of the preserved manuscripts.

**An Illini Place** BRILL  
 "We know we need to improve our traditional school system, both public and private. But how? More homework? Better-qualified teachers? Longer school days or school years? More testing? More funding? No, no, no, no, and no. Montessori Madness! explains why the incremental steps politicians and administrators continue to propose are incremental steps politicians and administrators continue to propose are incremental steps in the wrong direction. The entire system must be turned on its head. This book ask parents to take a look--one thirty-minute observation--at a Montessori school. Your picture of what educations should look like will never be the same"--Back cover.

**The Reception of Plutarch's Lives in Fifteenth-century Italy** American Classical League  
 Unlike conventional grammars, this guide to Spanish usage, for students with basic knowledge, focuses on areas of vocabulary and grammar causing the most difficulty to English speakers. The new edition has been extensively revised and updated to emphasize Latin-American (particularly Mexican) usage.

Significantly expanded vocabulary sections now include examples which contextualize each word or expression. Finally, some completely new material has been added on semi-technical vocabulary and Anglicisms. First Edition Hb (1992) 0-521-42123-3 First Edition Pb (1992) 0-521-26987-3

**Cicero, On Pompey's Command (De Imperio), 27-49** Berlitz Travel  
 This book, first published in 2003, provides a comprehensive and structured vocabulary for all levels of undergraduate Spanish courses. It offers a broad coverage of the concrete and abstract vocabulary relating to the physical, cultural, social, commercial and political environment, as well as exposure to commonly encountered technical vocabulary. The accompanying exercises for private study and classroom use are designed to promote precision and awareness of nuance and register, develop good dictionary use, and encourage effective learning. The book includes both Iberian and Latin American vocabulary, and clearly identifies differences between the two varieties. • Consists of twenty units each treating a different area of human experience • Units are divided into three levels which allows core vocabulary in each area to be learned first, and more specialised or complex terms to be added at later stages • Vocabulary is presented in alphabetical order for ease of location.

**Berlitz Cruising and Cruise Ships 2017** Oxford University Press  
 This 2002 book is a guide to Italian usage for students who have already acquired the basics of the language and wish to extend their knowledge. Unlike conventional grammars, it gives special attention to those areas of vocabulary and grammar which cause most difficulty to English-speakers. Careful consideration is given throughout to questions of style, register, and politeness which are essential to achieving an appropriate level of formality or informality in writing and speech. It surveys the contemporary linguistic scene in Italy and gives ample space to the new varieties of Italian that are emerging in modern Italy. The influence of the dialects in shaping the development of Italian is also acknowledged. Clear, readable and easy to consult via its two indexes, this is an essential reference for learners seeking access to the finer nuances of the Italian language.

**Latin America and the New Global Order** Springer  
 Villa Madama, Raphael's late masterwork of architecture, landscape, and decoration for the Medici popes, is a paradigm of the Renaissance villa. The creation of this important, unfinished complex provides a remarkable case study for the nature of architectural invention. Drawing on little known poetry describing the villa while it was on the drawing board, as well as ground plans, letters, and antiquities once installed there, Yvonne Elet reveals the design process to have been a dynamic, collaborative effort involving humanists as well as architects. She explores design as a self-reflexive process, and the dialectic of text and architectural form, illuminating the relation of word and image in Renaissance architectural practice. Her revisionist account of architectural design as a process engaging different systems of knowledge, visual and verbal, has important implications for the relation of architecture and language, meaning in architecture, and the translation of idea into form.

**Using Spanish** University of Notre Dame Press  
 Laliberte means freedom in French, but Laliberte gives freedom new meaning. This title takes you inside Laliberte's world, followed by over-the-top partying by night. It lets you experience relentless drive of this visionary, his passion for life, the Cirque,

and women.  
**Letters at 3am** Rowman & Littlefield  
 Presenting the stories of Zeus and Europa, Theseus and Ariadne, the birth of Athens and the fall of Troy, in all their variants, Calasso also uncovers the distant origins of secrets and tragedy, virginity, and rape. "A perfect work like no other. (Calasso) has re-created . . . the morning of our world."--Gore Vidal. 15 engravings.

## USING ITALIAN

Cambridge University Press  
 The islands of Chiloé, in southern Chile, are rich in folklore and possess a vibrant local music culture but recent developments, such as the introduction of salmon aquaculture, have disrupted traditional lifestyles. This study analyses the impact of modernity in the region and describes a number of creative engagements with it.

**Architectural Invention in Renaissance Rome** Arms & Armour  
 In Dante's Commedia: Theology as Poetry, an international group of theologians and Dante scholars provide a uniquely rich set of perspectives focused on the relationship between theology and poetry in the Commedia. Examining Dante's treatment of questions of language, personhood, and the body; his engagement with the theological tradition he inherited; and the implications of his work for contemporary theology, the contributors argue for the close intersection of theology and poetry in the text as well as the importance of theology for Dante studies. Through discussion of issues ranging from Dante's use of imagery of the Church to the significance of the smile for his poetic project, the essayists offer convincing evidence that his theology is not what underlies his narrative poem, nor what is contained within it: it is instead fully integrated with its poetic and narrative texture. As the essays demonstrate, the Commedia is firmly rooted in the medieval tradition of reflection on the nature of theological language, while simultaneously presenting its readers with unprecedented, sustained poetic experimentation. Understood in this way, Dante emerges as one of the most original theological voices of the Middle Ages. Contributors: Piero Boitani, Oliver Davies, Theresa Federici, David F. Ford, Peter S. Hawkins, Douglas Hedley, Robin Kirkpatrick, Christian Moevs, Vittorio Montemaggi, Paola Nasti, John Took, Matthew Treherne, and Denys Turner.

University of Illinois Press  
 Noting previously unrecognised allusions to literary works and contemporary events, this book presents an original portrait of the miscellanist Aulus Gellius ("Attic Nights") as a satirical writer and a Roman intellectual working within the cultural milieu of Antonine Rome.

**Gellius the Satirist** WRTH Publications  
 Why does the University of Illinois campus at Urbana-Champaign look as it does today? Drawing on a wealth of research and featuring more than one hundred color photographs, An Illini Place provides an engrossing and beautiful answer to that question. Lex Tate and John Franch trace the story of the university's evolution through its buildings. Oral histories, official reports, dedication programs, and developmental plans both practical and quixotic inform the story. The authors also provide special chapters on campus icons and on the buildings, arenas and other spaces made possible by donors and friends of the university. Adding to the experience is a web companion that includes profiles of the planners, architects, and presidents

instrumental in the campus's growth, plus an illustrated inventory of current and former campus plans and buildings.

[Vertical Readings in Dante's Comedy](#) Cornell East Asia Series  
[Metamorphoses Latin America and the New Global Order](#) Ledizioni  
[Aratus and the Astronomical Tradition](#) Spring Publications  
 Vertical Readings in Dante's Comedy is a reappraisal of the poem by an international team of thirty-four scholars. Each vertical reading analyses three same-numbered cantos from the three canticles: Inferno i, Purgatorio i and Paradiso i; Inferno ii, Purgatorio ii and Paradiso ii; etc. Although scholars have suggested before that there are correspondences between same-numbered cantos that beg to be explored, this is the first time that the approach has been pursued in a systematic fashion across the poem. This collection – to be issued in three volumes – offers an unprecedented repertoire of vertical readings for the whole poem. As the first volume exemplifies, vertical reading not only articulates unexamined connections between the three canticles but also unlocks engaging new ways to enter into core concerns of the poem. The three volumes thereby provide an indispensable resource for scholars, students and enthusiasts of Dante. The volume has its origin in a series of thirty-three public lectures held in Trinity College, the University of Cambridge (2012-2016) which can be accessed at the 'Cambridge Vertical Readings in Dante's Comedy' website.

#### **AD LUCILIUM EPISTULAE MORALES**

Texas A&M University Press

The most comprehensive source available on medium wave, shortwave, FM broadcast, and television broadcast information, this handbook continues to be the ultimate guide for the serious radio listener.

Global geopolitical relations are being shaken to their roots, and no region in the world is more entangled in this than Latin America. Trump's foreign policy is transforming the role played by the United States on the world stage, questioning multilateralism and casting a shadow on the whole idea of global governance. Other world powers, especially Russia and China, are not sitting idly by. The European Union has an opportunity to take on the mantle of guarantor of liberal values and the multilateral order, and to strengthen its alliance with Latin American countries. This report helps to delve deeper into the region's shifting dynamics. How are the US, China, and the EU competing in terms of political alliances and economic projection towards the Latin American region? And how are some of the main Latin American countries (namely Brazil, Mexico, and Venezuela) contributing to change the regional picture?

#### **THE MUSIC OF THE SEVENTEENTH CENTURY**

[Metamorphoses Latin America and the New Global Order](#)

Kubo Sakae's *Land of Volcanic Ash* (Kazanbaichi) is recognized as the major socialist realist drama of pre-war Japan. The play, which describes the struggles of a reform-minded intellectual in the Hokkaido countryside, is based on events surrounding the famine of 1934. It has been described "not only as Kubo Sakae's most representative work, but as the finest realist drama of the pre-war period."

**30 Days of Night** Open Book Publishers

Why were the stars so important in Rome? Their literary presence far outweighs their role as a time-reckoning device, which was, in any case, superseded by the synchronization of the civil and solar years under Julius Caesar. One answer is tied to their usefulness in symbolizing a universe built on "intelligent design." From Plato's time onwards, the stars are most often seen in literature

as evidence for a divine plan in the layout and maintenance of the cosmos. Moreover, particularly in the Roman world, divine and human governance came to be linked, one striking manifestation of this being the predicted enjoyment of a celestial afterlife by emperors. Aratus' *Phaenomena*, a didactic poem in Greek hexameters, composed c. 270 BC, which describes the layout of the heavens and their effect on the lives of men, was an ideal text in expressing such relationships: a didactic model which was both accessible and elegant, and which combined the stars with notions of divine and human order. Across a period extending from the late Roman Republic and early Empire until the age of Christian humanism, the impact of this poem on the literary environment is apparently out of all proportion to its relatively modest size and the obscurity of its subject matter. It was translated into Latin many times between the first century BC and the Renaissance, and carried lasting influence outside its immediate genre. *Aratus and the Astronomical Tradition* answers the question of Aratus' popularity by looking at the poem in the light of Western cosmology. It argues that the *Phaenomena* is the ideal vehicle for the integration of astronomical "data" into abstract cosmology, a defining feature of the Western tradition. This book embeds Aratus' text into a close network of textual interactions, beginning with the text itself and ending in the sixteenth century, with Copernicus. All conversations between the text and its successors experiment in some way with the balance between cosmology and information. The text was not an inert objet d'art, but a dynamic entity which took on colors often in conflict in the ongoing debate about the place and role of the stars in the world. With this detailed treatment of Aratus' poem and its reception, Emma Gee resituates a peculiar literary work within its successive cultural contexts and provides a benchmark for further research.
