Looking for luck, love, wealth, and health? The world's best-selling writer on feng shui takes you step-by-step down the road to happiness! Lillian Too, renowned author of books and articles on this ancient Chinese art, divulges the secrets of controlling the powerful forces of ch'i to bring success into our lives. With 179 tips on everything from personalizing interior decoration to improving family relations, it's the most practical, thorough, systematic, and stunningly illustrated guide to eliminating every obstacle standing in the way of contentment. Enrich personal space by identifying auspicious corners, good fortune directions, and life-enhancing elements, and organize the household to intensify their beneficial qualities. Need to improve finances? Grow orange or lime plants, whose ripening fruits symbolize prosperity, or hang coins or bells on the doors. Sleep on an authentic Feng Shui bed, let carpets create solid foundations, and fill vases with the right flowers. Protect the home or office from the "shar chi" or "killing breath" of open shelves. And there's a reason traditional Chinese matriarchs keep cleaning paraphernalia out of sight—they know that visible brooms will "sweep away" the family's livelihood. Try one of many effective methods for ensuring togetherness and harmony between kinfolk, for helping children do well at school, and for attracting romance. As you put these time-tested ideas into practice, you'll feel your world getting better and better! 160 pages (all in color), 7 3/4 x 9 1/4. DELUXE PAPERBACK WITH FLAPS.

However impressive the economic success of Penang has been over the past four decades, structural conditions in the region call for a fundamental reconfiguration of this Malaysian state's competitive advantage. In the 1970s, the ageing entrepot transformed itself into a manufacturing hub for the electronics industry and a well-known tourist site. This outward-looking model of economic growth has underpinned Penang's economic development up until the present. The question that now arises is whether Penang's present mode of development will continue to be effective, or whether it will have to transform itself.

Chinese cuisine has had a deep impact on culinary traditions in Southeast Asia, where the lack of certain ingredients and access to new ingredients along with the culinary knowledge of local people led Chinese migrants to modify traditional dishes and to invent new foods. This process brought the cuisine of southern China, considered by some writers to be "the finest in the world," into contact with a wide range of local and global cuisines and ingredients. When Chinese from Southeast Asia moved on to other parts of the world, they brought these variants of Chinese food with them, completing a cycle of culinary reproduction, localization and invention, and globalization. The process does not end there, for the new context offers yet another set of ingredients and culinary traditions, and the "embedding and fusing of foods" continues, creating additional hybrid forms. Written by scholars whose deep familiarity with Chinese cuisine is both personal and academic, *Chinese Food and Foodways in Southeast Asia and Beyond* is a book that anyone who has been fortunate enough to encounter Southeast Asian food will savour, and it provides a window on this world for those who have yet to discover it.
