“Marshals irrefutable evidence to succinctly demolish the mythic version of the crisis . . . sober analysis.” —The Atlantic This book exposes the misconceptions, half-truths, and outright lies that have shaped the still dominant but largely mythical version of what happened in the White House during those harrowing two

weeks of secret Cuban missile crisis deliberations. More than a half-century after the event, it is surely time to demonstrate, once and for all, that Robert F. Kennedy's Thirteen Days and the personal memoirs of other ExComm members cannot be taken seriously as historically accurate accounts of the ExComm meetings. This book, from the first historian to listen to and evaluate the White House tapes made during the crisis, does exactly that. "Stern is not alone in questioning the precision of the transcripts offered, but he has made the most painstaking attempt to clarify what was really said and done." —Journal of American History

An honest and practical handbook that reveals important insights into relationships between men and women and work, *Play Like a Man, Win Like a Woman*, is a must-read for every woman who wants to leverage her power in the workplace. Women make up almost half of today's labor force, but in corporate America they don't share half of the power. Only four of the Fortune 500 company CEOs are women, and it's only been in the last few years that even half of the Fortune 500 companies have more than one female officer. A major reason for this? Most women were never taught how to play the game of business. Throughout her career in the super-competitive, male-dominated media industry, Gail Evans, one of the country's most powerful executives, has met innumerable women who tell her that they feel lost in the workplace, almost as if they were playing a game without knowing the directions. In this book, she reveals the secrets to the playbook of success and teaches women at all levels of the organization—from assistant to vice president—how to play the game of business to their advantage. Men know the rules because they wrote them, but women often feel shut out of the process because they don't know when to speak up, when to ask for responsibility, what to say at an interview, and a lot of other key moves that can make or break a career. Sharing with humor and candor her years of lessons from corporate life, Gail Evans gives readers practical tools for making the right decisions at work. Among the rules you will learn are: • How to Keep Score at Work • When to Take a Risk • How to Deal with the Imposter Syndrome • Ten Vocabulary Words That Mean Different Things to Men and Women • Why Men Can be Ugly, and You Can't • When to Quit Your Job

#1 NEW YORK TIMES BESTSELLER • More than two million copies in print! The premier resource for how to deliver results in an uncertain world, whether you're running an entire company or in your first management job. "A must-read for anyone who cares about business."—The New York Times When Execution was first published, it changed the way we did our jobs by focusing on the critical importance of "the discipline of execution": the ability to make the final leap to success by actually getting things done. Larry Bossidy and Ram Charan now reframe their empowering message for a world in which the old rules have been shattered, radical change is becoming routine, and the ability to execute is more important than ever. Now and for the foreseeable future: • Growth will be slower. But the company that executes well will have the confidence, speed, and resources to move fast as new opportunities emerge. • Competition will be fiercer, with companies searching for any possible advantage in every area from products and technologies to location and management. • Governments will take on new roles in their national economies, some as partners to business, others imposing constraints. Companies that execute well will be more attractive to government entities as partners and suppliers and better prepared to adapt to a new wave of regulation. • Risk management will become a top priority for every leader. Execution gives you an edge in detecting new internal and external threats and in weathering crises that can never be fully predicted. Execution shows how to link together people, strategy, and operations, the three core processes of every business. Leading these processes is the real job of running a business, not formulating a "vision" and leaving the work of carrying it out to others. Bossidy and Charan show the importance of being deeply and passionately engaged in an organization and why robust dialogues about people, strategy, and operations result in a business based on intellectual honesty and realism. With paradigmatic case histories from the real world—including examples like the diverging paths taken by Jamie Dimon at JPMorgan Chase and Charles Prince at Citigroup—Execution provides the realistic and hard-nosed approach to business success that could come only from authors as accomplished and

insightful as Bossidy and Charan.

A stunning fifty-year visual history of LGBTQ pride marches, parades, and protests, taken from the New York Times photo archives. It began in New York City on June 28, 1969. When police raided the Stonewall Inn—a bar in the Greenwich Village neighborhood, known as a safe haven for gay men—violent demonstrations and protests broke out in response. The Stonewall Riots, as they would come to be known, were the first spark in the wildfire that would become the LGBTQ rights revolution. Fifty years later, the LGBTQ community and its supporters continue to gather every June to commemorate this historic event. Here, collected for the first time by The New York Times, is a powerful visual history of five decades of parades and protests of the LGBTQ rights movement. These photos, paired with descriptions of major events from each decade as well as selected reporting from The Times, showcase the victories, setbacks, and ongoing struggles for the LGBTQ community. "To take in the breadth of [PRIDE's] contents—to see the scope of LGBTQ+ rights, from the first Christopher Street Day march in 1970 to protests for transgender rights just last year—is to witness the power of visibility firsthand." —them. "This book is a powerful visual history of five decades of parades and protests for equality. Educational and visually enriching, complete with photos from The New York Times, this book is the perfect companion for any coffee table." —BookTrib

This authoritative work provides an essential perspective on terrorism by offering a rare opportunity for analysis and reflection

at a time of ongoing violence, threats, and reprisals. Some of the best international specialists on the subject examine terrorism's complex history from antiquity to the present day and find that terror, long the weapon of the weak against the strong, is a tactic as old as warfare itself. Beginning with the Zealots of the first century CE, contributors go on to discuss the Assassins of the Middle Ages, the 1789 Terror movement in Europe, Bolshevik terrorism during the Russian Revolution, Stalinism, "resistance" terrorism during World War II, and Latin American revolutionary movements of the late 1960s. Finally, they consider the emergence of modern transnational terrorism, focusing on the roots of Islamic terrorism, al Qaeda, and the contemporary suicide martyr. Along the way, they provide a groundbreaking analysis of how terrorism has been perceived throughout history. What becomes powerfully clear is that only through deeper understanding can we fully grasp the present dangers of a phenomenon whose repercussions are far from over. This updated edition includes a new chapter analyzing the rise of ISIS and key events such as the 2015 Paris attacks.

From the informal games of Homer's time to the highly organized contests of the Roman world, Miller has compiled a trove of ancient sources: Plutarch on boxing, Aristotle on the pentathlon, Philostratos on the buying and selling of victories, Vitruvius on literary competitions, and Xenophon on female body building. *Arete* offers readers an absorbing lesson in the culture of Greek athletics from the greatest of teachers, the ancients themselves, and demonstrates that the concepts of virtue, skill, pride, valor, and nobility embedded in the word *arete* are only part of the story from antiquity.

In the spring of 1959, eighteen-year-old Bruce Lee returned to San Francisco, the city of his birth. Although the martial arts were widely unknown in America, Bruce encountered a robust fight culture in the Bay Area, populated with talented and trailblazing practitioners such as Lau Bun, Chinatown's aging kung fu patriarch; Wally Jay, the innovative Hawaiian jujitsu master; and James Lee, the Oakland street fighter. Regarded by some as a brash loudmouth and by others as a dynamic visionary, Bruce spent his first few years back in America advocating for a modern approach to the martial arts, and showing little regard for the

damaged egos left in his wake. The year of 1964 would be an eventful one for Bruce, in which he would broadcast his dissenting worldview before the first great international martial arts gathering, and then defend it by facing down Wong Jack Man—Chinatown's young kung fu ace—in a legendary behind-closed-doors showdown. These events were a catalyst to the dawn of martial arts in America and a prelude to an icon. Based on over one hundred original interviews, *Striking Distance* chronicles Bruce Lee's formative days amid the heated martial arts proving ground that thrived on San Francisco Bay in the early 1960s.

The 15 Invaluable Laws of Growth Thomas Nelson Inc
When it comes to mentoring, women face more barriers than men. Here's how men can help change that. Increasingly, new employees and junior members of any profession are encouraged—sometimes stridently—to "find a mentor!" Four decades of research reveals that the effects of mentorship can be profound and enduring; strong mentoring relationships have the capacity to transform individuals and entire organizations. But the mentoring landscape is unequal. Evidence consistently shows that women face more barriers in securing mentorships than men, and when they do find a mentor, they may reap a narrow range of both professional and psychological benefits. *Athena Rising* is a book for men about how to eliminate this problem by mentoring women deliberately and effectively. Traditional notions of mentoring are modeled on male-to-male relationships, yet women often report a desire for mentoring that addresses their interpersonal needs. Women want mentors who not only understand this, but truly honor it. Coauthors W. Brad Johnson and David G. Smith present a straightforward, no-nonsense manual for men working in all types of institutions, organizations, and businesses to become excellent mentors to women, because as women succeed, lean in, and assume leading roles in any organization or work context, the culture will become more egalitarian, effective, and prone to retaining top talent.

The book focuses on identifying your own leadership strengths to get success. Leadership is never easy. But thankful, something else is also true. Everyone of us has the potential to be a leader every day. Many people still have a narrow understanding of what leadership really is. But the fact of the matter is that leadership doesn't begin and end at the very top. It is every bit as important, perhaps more important, in the place most of us live and work. The leadership techniques that will work best for you are the ones you nurture inside. The best selling book on Human relations.

A congresswoman and her son reveal how he survived a ten-year battle with opioid abuse—and what their family's journey to recovery can teach us about finding hope amid the unspeakable. "Beautiful and inspiring."—Maria Shriver's Sunday Paper (Book of the Week)
When Madeleine Dean discovered that her son Harry was stealing from the family to feed a painkiller addiction, she was days away from taking the biggest risk of her life: running for statewide office in Pennsylvania. For years, she had sensed something was wrong. Harry was losing weight and losing friends.

He had lost the brightness in his eyes and voice, changing from a young boy with boundless enthusiasm to a shadow of himself, chasing something she could not see. Now her worst fears had come to light. *Under Our Roof* is the story of a national crisis suffered in the intimacy of so many homes, told with incredible candor through the dual perspectives of a mother rising in politics and a son living a double life, afraid of what might happen if his secret is exposed. In this honest, bracing, yet ultimately uplifting memoir, they discuss the patterns of a family dealing with an unspoken disease, the fear that keeps addicts hiding in shame, and the moments of honesty, faith, and personal insight that led to Harry's recovery. In a country searching for answers to the devastating effects of opioids and drug abuse, *Under Our Roof* is a ray of hope in the darkness. It is not only a love story between mother and son but also an honest account of a pressing national crisis by a family poised to make a difference.
