This striking work of narrative nonfiction tells the true story of six-year-old Sachiko Yasui's survival of the Nagasaki atomic bomb on August 9, 1945, and the heartbreaking and lifelong aftermath. Having conducted extensive interviews with Sachiko Yasui, Caren Stelson chronicles Sachiko's trauma and loss as well as her long journey to find

peace. This book offers readers a remarkable new perspective on the final moments of World War II and their aftermath.

Sachiko HarperCollins Hiroshima is the story of six people—a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest—who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize-winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final chapter of Hiroshima.

A great big hug in book form, *Snuggle Puppy* is a year-round valentine from parent to child. It is bright, chunky, a pleasure to hold, and has a die-cut cover that reveals a glimpse of the joy inside before it's even opened. Best of all, it's packed, of course, with pure Boynton: her inimitable language, her inimitable illustrations, her inimitable sense of fun. OOO, *Snuggle Puppy* of mine! Everything about you is especially fine. I love what you are. I love what you do. Fuzzy little *Snuggle Puppy*, I love you. Featuring a sweet and cuddly doggie cast and rhyming verse, *Snuggle Puppy* is the perfect bedtime book to read last, because of an ending that kids will want again and again: I started with OOO. . . . Now we'll end like this: [BIG SMOOCH!] Oversized lap edition also available—perfect for reading aloud!

This "brilliantly

conceived" novel imagines a devastating nuclear attack on America and the official government report of the calamity (Eric Schlosser, author of *Fast Food Nation* and *Command and Control*). "The skies over the Korean Peninsula on March 21, 2020, were clear and blue." So begins this sobering report by the Commission on the Nuclear Attacks against the United States, established by Congress and President Donald J. Trump to investigate the horrific events of the following three days. An independent, bipartisan panel led by nuclear expert Jeffrey Lewis, the commission was charged with finding and reporting the relevant facts, investigating how the nuclear war began, and determining whether our government was adequately prepared. Did President Trump and his advisers understand North Korean views about nuclear weapons? Did the tragic milestones of that fateful month—North Korea's accidental shoot-down of Air Busan flight 411, the retaliatory strike by South Korea, and the tweet that triggered vastly more carnage—inevitably lead to war? Or did America's

leaders have the opportunity to avert the greatest calamity in the history of our nation? Answering these questions will not bring back the lives lost in March, 2020. It will not rebuild New York, Washington, or the other cities reduced to rubble. But at the very least, it might prevent a tragedy of this magnitude from occurring again. It is this hope that inspired *The 2020 Commission Report*. "I couldn't put the book down, reading most of it in the course of one increasingly intense evening. If fear of nuclear war is going to keep you up at night, at least it can be a page-turner."—*New Scientist*

Killing the Rising Sun

Houghton Mifflin Harcourt

By the New York Times bestselling author of *The Bone Clocks* and *Cloud Atlas* | Longlisted for the Man Booker Prize In 2007, Time magazine named him one of the most influential novelists in the world. He has twice been short-listed for the Man Booker Prize. The New York Times Book Review called him simply "a genius." Now David Mitchell lends fresh credence to The Guardian's claim that "each of his books seems entirely different from that which preceded it." *The Thousand Autumns of Jacob de Zoet* is a stunning departure for this brilliant, restless, and wildly ambitious author, a giant leap forward by even his own high standards. A bold and epic novel of a rarely visited point in history, it is a work as exquisitely

rendered as it is irresistibly readable. The year is 1799, the place Dejima in Nagasaki Harbor, the "high-walled, fan-shaped artificial island" that is the Japanese Empire's single port and sole window onto the world, designed to keep the West at bay; the farthest outpost of the war-ravaged Dutch East Indies Company; and a de facto prison for the dozen foreigners permitted to live and work there. To this place of devious merchants, deceitful interpreters, costly courtesans, earthquakes, and typhoons comes Jacob de Zoet, a devout and resourceful young clerk who has five years in the East to earn a fortune of sufficient size to win the hand of his wealthy fiancée back in Holland. But Jacob's original intentions are eclipsed after a chance encounter with Orito Aibagawa, the disfigured daughter of a samurai doctor and midwife to the city's powerful magistrate. The borders between propriety, profit, and pleasure blur until Jacob finds his vision clouded, one rash promise made and then fatefully broken. The consequences will extend beyond Jacob's worst imaginings. As one

cynical colleague asks, "Who ain't a gambler in the glorious Orient, with his very life?" A magnificent mix of luminous writing, prodigious research, and heedless imagination, *The Thousand Autumns of Jacob de Zoet* is the most impressive achievement of its eminent author. Praise for *The Thousand Autumns of Jacob de Zoet* "A page-turner . . . [David] Mitchell's masterpiece; and also, I am convinced, a masterpiece of our time."—Richard Eder, *The Boston Globe* "An achingly romantic story of forbidden love . . . Mitchell's incredible prose is on stunning display. . . . A novel of ideas, of longing, of good and evil and those who fall somewhere in between [that] confirms Mitchell as one of the more fascinating and fearless writers alive."—Dave Eggers, *The New York Times Book Review* "The novelist who's been showing us the future of fiction has published a classic, old-fashioned tale . . . an epic of sacrificial love, clashing civilizations and enemies who won't rest until whole family lines have been snuffed out."—Ron Charles, *The Washington Post* "By any

standards, The Thousand Autumns of Jacob de Zoet is a formidable marvel.”—James Wood, The New Yorker “A beautiful novel, full of life and authenticity, atmosphere and characters that breathe.”—Maureen Corrigan, NPR Look for special features inside. It's 1945, and the world is in the grip of war. Hideki lives with his family on the island of Okinawa, near Japan. When the Second World War crashes onto his shores, Hideki is drafted to fight for the Japanese army. He is handed a grenade and a set of instructions: Don't come back until you've killed an American soldier. Ray, a young American Marine, has just landed on Okinawa. This is Ray's first-ever battle, and he doesn't know what to expect -- or if he'll make it out alive. All he knows that the enemy is everywhere. Hideki and Ray each fight their way across the island, surviving heart-pounding ambushes and dangerous traps. But then the two of them collide in the middle of the battle... And

choices they make in that single instant will change everything. Alan Gratz, New York Times bestselling author of Refugee, returns with this high-octane story of how fear and war tear us apart, but how hope and redemption tie us together. Reviews for Refugee: "An absolute must read for people of all ages" - Hannah Greendale, Goodreads "Like RJ Palacio's Wonder, this book should be mandatory reading..." - Skip, Goodreads "I liked how the book linked history with adventure, and combined to make a realistic storyline for all three characters" - AJH, aged 11, Toppsta *A Song for Nagasaki* Carolrhoda Books On August 9th, 1945, the US dropped an atomic bomb on Nagasaki. It killed a third of the population instantly, and the survivors, or hibakusha, would be affected by the life-altering medical conditions caused by the radiation for the rest of their lives. They were also marked with the stigma of their exposure to radiation, and fears of the consequences for their children. Nagasaki follows the previously unknown stories of five survivors

and their families, from 1945 to the present day. It captures the full range of pain, fear, bravery and compassion unleashed by the destruction of a city. Susan Southard has interviewed the hibakusha over many years and her intimate portraits of their lives show the consequences of nuclear war. Nagasaki tells the neglected story of life after nuclear war and will help shape public debate over one of the most controversial wartime acts in history. Published for the 70th anniversary of the Hiroshima and Nagasaki bombs, this is the first study to be based on eye-witness accounts of Nagasaki in the style of John Hersey's Hiroshima. On August 9th, 1945, three days after the atomic bombing of Hiroshima, a 5-tonne plutonium bomb was dropped on the small, coastal city of Nagasaki. The explosion destroyed factories, shops and homes and killed 74,000 people while injuring another 75,000. The two atomic bombs marked the end of a global war but for the tens of thousands of survivors it was the beginning of a new life marked with the stigma of being hibakusha (atomic bomb-affected people).

Susan Southard has spent a decade interviewing and researching the lives of the hibakusha, raw, emotive eye-witness accounts, which reconstruct the days, months and years after the bombing, the isolation of their hospitalisation and recovery, the difficulty of re-entering daily life and the enduring impact of life as the only people in history who have lived through a nuclear attack and its aftermath. Following five teenage survivors from 1945 to the present day Southard unveils the lives they have led, their injuries in the annihilation of the bomb, the dozens of radiation-related cancers and illnesses they have suffered, the humiliating and frightening choices about marriage they were forced into as a result of their fears of the genetic diseases that may be passed through their families for generations to come. The power of Nagasaki lies in the detail of the survivors' stories, as deaths continued for decades because of the radiation contamination, which caused various forms of cancer. Intimate and compassionate, while being grounded in historical research

Nagasaki reveals the censorship that kept the suffering endured by the hibakusha hidden around the world. For years after the bombings news reports and scientific research were censored by U.S. occupation forces and the U.S. government led an efficient campaign to justify the necessity and morality of dropping the bombs. As we pass the seventieth anniversary of the only atomic bomb attacks in history Susan Southard captures the full range of pain, fear, bravery and compassion unleashed by the destruction of a city. The personal stories of those who survived beneath the mushroom clouds will transform the abstract perception of nuclear war into a visceral human experience. Nagasaki tells the neglected story of life after nuclear war and will help shape public discussion and debate over one of the most controversial wartime acts in history. *A Pale View of Hills* Univ of California Press From the bestselling author of *Kafka on the Shore*: A magnificent coming-of-age story steeped in nostalgia, "a masterly novel" (The New York Times Book Review)

blending the music, the mood, and the ethos that were the sixties with a young man's hopeless and heroic first love. Now with a new introduction by the author. Toru, a serious young college student in Tokyo, is devoted to Naoko, a beautiful and introspective young woman, but their mutual passion is marked by the tragic death of their best friend years before. As Naoko retreats further into her own world, Toru finds himself drawn to a fiercely independent and sexually liberated young woman. Stunning and elegiac, *Norwegian Wood* first propelled Haruki Murakami into the forefront of the literary scene.

A Song for Nagasaki Fromm International In this haunting work of journalistic investigation, Haruki Murakami tells the story of the horrific terrorist attack on Japanese soil that shook the entire world. On a clear spring day in 1995, five members of a religious cult unleashed poison gas on the Tokyo subway system. In attempt to discover why, Haruki Murakami talks to the people who lived through the catastrophe, and in so doing lays bare the Japanese psyche. As

he discerns the fundamental issues that led to the attack, Murakami paints a clear vision of an event that could occur anytime, anywhere.

I first heard of Takashi Nagai while living in

Hiroshima and have been an admirer of his life-work

ever since: doctor, father, researcher, man of God,

and teacher. In the 1980s I was principal of Hiroshima

International School and served for several years

on the Board of Directors of the World Friendship

Center (WFC). The WFC was founded on August 6,

1955, the tenth anniversary of the

Hiroshima atomic bombing, by Barbara

Reynolds, an American Quaker activist, author,

and peace educator and the noted "peace

surgeon" Dr. Tomin Harada. Barbara and her

family lived a number of years in Hiroshima

beginning in 1951 where her husband worked for

the Atomic Bomb Casualty Committee (ABCC)

studying the effects of

atomic radiation on children. The WFC, staffed

by volunteers, serves as a bed and breakfast for

visitors, and as a gathering place for

hibakusha (a-bomb victims), local citizens and

visiting peace activists. Years later in 1975

Barbara established the Peace Resource Center at

the Quaker affiliated Wilmington College in

Ohio; the Center houses the largest collection

outside Japan of materials related to the atomic

bombings of Hiroshima and Nagasaki.

In novels such as *Silence*, Endō Shūsaku examined

the persecution of Japanese Christians in

different historical eras. Sachiko, set in Nagasaki

in the painful years between 1930 and 1945,

is the story of two young people trying to find love

during yet another period in which Japanese

Christians were accused of disloyalty to their

country. In the 1930s, two young Japanese

Christians, Sachiko and Shūhei, are free to play

with American children in their neighborhood. But

life becomes increasingly difficult for them and

other Christians after Japan launches wars of

aggression. Meanwhile, a Polish Franciscan priest and former missionary in Nagasaki, Father Maximillian Kolbe, is arrested after returning to his homeland. Endō alternates scenes between Nagasaki—where the growing love between Sachiko and Shūhei is imperiled by mounting persecution—and Auschwitz, where the priest has been sent. Shūhei's dilemma deepens when he faces conscription into the Japanese military, conflicting with the Christian belief that killing is a sin. With the A-bomb attack on Nagasaki looming in the distance, Endō depicts ordinary people trying to live lives of faith in a wartime situation that renders daily life increasingly unbearable. Endō's compassion for his characters, reflecting their

struggles to find and share love for others, makes Sachiko one of his most moving novels. [The Atomic Bombings of Hiroshima and Nagasaki](#) Harvard University Press The powerful and riveting new book in the multimillion-selling Killing series by Bill O'Reilly and Martin Dugard Autumn 1944. World War II is nearly over in Europe but is escalating in the Pacific, where American soldiers face an opponent who will go to any length to avoid defeat. The Japanese army follows the samurai code of Bushido, stipulating that surrender is a form of dishonor. Killing the Rising Sun takes readers to the bloody tropical-island battlefields of Peleliu and Iwo Jima and to the embattled Philippines, where General Douglas MacArthur has made a

triumphant return and is plotting a full-scale invasion of Japan. Across the globe in Los Alamos, New Mexico, Dr. J. Robert Oppenheimer and his team of scientists are preparing to test the deadliest weapon known to mankind. In Washington, DC, FDR dies in office and Harry Truman ascends to the presidency, only to face the most important political decision in history: whether to use that weapon. And in Tokyo, Emperor Hirohito, who is considered a deity by his subjects, refuses to surrender, despite a massive and mounting death toll. Told in the same page-turning style of Killing Lincoln, Killing Kennedy, Killing Jesus, Killing Patton, and Killing Reagan, this epic saga details the final moments of World War II like never before.
