In this book, David K. Levine questions the idea that behavioral economics is the answer to economic problems. He explores the successes and failures of contemporary economics both inside and outside the laboratory, and asks whether popular behavioral theories of psychological biases are solutions to the failures. The book not only provides an overview of popular behavioral theories and their history, but also gives the reader the tools for scrutinizing them.

"An extraordinary novel . . . a triumph of insight and storytelling." —Associated Press "A true masterpiece." —Glennon Doyle, author of Untamed An extraordinary story set in the first century about a woman who finds her voice and her destiny, from the celebrated number one New York Times bestselling author of *The Secret Life of Bees* and *The Invention of Wings* In her mesmerizing fourth work of fiction, Sue Monk Kidd takes an audacious approach to history and brings her acclaimed narrative gifts to imagine the story of a young woman named Ana. Raised in a wealthy family with ties to the ruler of Galilee, she is rebellious and ambitious, with a brilliant mind and a daring spirit. She engages in furtive scholarly pursuits and writes narratives about neglected

and silenced women. Ana is expected to marry an older widower, a prospect that horrifies her. An encounter with eighteen-year-old Jesus changes everything. Their marriage evolves with love and conflict, humor and pathos in Nazareth, where Ana makes a home with Jesus, his brothers, and their mother, Mary. Ana's pent-up longings intensify amid the turbulent resistance to Rome's occupation of Israel, partially led by her brother, Judas. She is sustained by her fearless aunt Yaltha, who harbors a compelling secret. When Ana commits a brazen act that puts her in peril, she flees to Alexandria, where startling revelations and greater dangers unfold, and she finds refuge in unexpected surroundings. Ana determines her fate during a stunning convergence of events considered among the most impactful in human history. Grounded in meticulous research and written with a reverential approach to Jesus's life that focuses on his humanity, *The Book of Longings* is an inspiring, unforgettable account of one woman's bold struggle to realize the passion and potential inside her, while living in a time, place and culture devised to silence her. It is a triumph of storytelling both timely and timeless, from a masterful writer at the height of her powers.

Following the success of my trivia website RaiseYourBrain, I published several award-winning compilations of hard-to-believe facts that have reached hundreds of thousands of readers. One of the chapters in each trivia book was "Disturbing Facts about Our World". I decided to fill an entire volume with facts about upsetting crimes and mayhem, combined with unbelievable

yet real instances of misfortune and misery. This is a book where grim examples of bigotry and hypocrisy are intertwined with amusing stories of bad luck. In the spirit of the times we live in, I dedicated a whole chapter to COVID-19 trivia and weird medical conditions. I am well aware that many potential readers might be overwhelmed by the condensed negativity, but hey... a fact is a fact! Continue to read if you are curious to learn: \* Why were the trousers of New Zealand's farmers exploding? \* What is the depressing origin of the phrase "Hip Hip, Hooray"? \* Why did the Spanish Habsburgs royal family sleep with human mummies? \* Why was it legal in Iceland until 2015 to kill Basque people? \* Who was the "Deep Throat" informer from the Watergate scandal? \* How many people were killed trying to cross the notorious Berlin Wall? \* Why do snakes make a better pet than cats or dogs? \* How can millipedes cause a train crash? \* What is the etymology of "thug"? \* What are the chances of getting killed by rubbish falling from space? \* How did polygamist men in Kuwait manage to visit all their wives during the coronavirus lockdown? 1000 Interesting Facts and Trivia Little, Brown Spark

Following the success of my site <http://www.RaiseYourBrain.com> and numerous requests from readers, I decided to compile some of the most interesting facts in an e-book. That's why I decided to collect the best gems of breath-taking trivia and to present you a great compilation of facts, suitable for a broad audience. This is the result of years of sifting through history and reference books on a myriad of subjects as well as searching the Internet and paying attention to the news. This book is intended to be fun for anyone older than 14 - even the most 'spicy' entries, neatly separated in the chapter 'Facts about human and animal sexuality,' remain factual and abstain from profanity. To my greatest delight, an avid reader of my site explained that she has been preparing daily fact sheets for her son's lunch box. She prints out three facts every day to create some

lunchtime fun for her son, thus enticing him to read more and provoking his intellectual curiosity. I wish my parents had done something like that for me! I confess that most trivia books are insufferably boring. This book is different, packed with interesting, educational and fun ingredients; it seeks to entertain as well as challenge. It will provide you with never-ending intellectual ammunition for a lifetime of dinner parties. You will amaze your friends and family by recounting to them that the greatest Chinese pirate of all times was a woman, or that herrings use flatulence to communicate! The book will be your strongest ally in combatting social awkwardness and will arm you with plenty of icebreaking pieces of trivia, suitable for any occasion.

The book will be a strong and faithful ally preventing social awkwardness by arming you with plenty of icebreaking pieces of trivia, suitable for any occasion. My goal was to write a quiz book that would stand out with interesting, educational and fun content; a book that would both entertain and

challenge. The concept is based on the well-known multiple choice format, with an added twist of introducing the "Which is NOT true?" approach for the half of the questions. This approach has its merit in allowing you to learn two crazy facts about people, places or animals by answering a single question. The book is not meant to be "your go-to" book for facts. I assure you however that it is loaded with fun and verified facts presented in a manner that can provide you with hours of entertainment. All the material is fresh, and is not simply recycled from my previous publication. Life is too short to settle for the run-of-the-mill. This book will show you just how fantastical and funny the real world is. It will provide you with never-ending intellectual ammunition for a lifetime of dinner parties. You can use it to organise pub or family quizzes, or use it as a prep tool to give you the edge when participating in these.
