### THE LIBRARY BOOK

Timber Press

After its Peruvian discovery in 2002, *Phragmipedium kovachii* became the rarest and most sought-after orchid in the world. Prices soared to \$10,000 on the black market. Then one showed up at Marie Selby Botanical Gardens, where every year more than 100,000 people visit. They come for the lush landscape on Sarasota Bay and for Selby's vast orchid collection, one of the most magnificent in the world. The collision between Selby's scientists and the smugglers of Phrag. *Kovachii*, a rare lady's slipper orchid hailed as the most significant and beautiful new species discovered in a century, led to search warrants, a grand jury investigation, and criminal charges. It made headlines around the country, cost the gardens hundreds of thousands of dollars in donations, and led to tremendous internal turmoil. Investigative journalist Craig Pittman unravels this tangled web to shine a spotlight on flaws in the international treaties governing trade in endangered wildlife—which may protect individual plants and animals in shipping but do little to halt the destruction of whole colonies in the wild. *The Scent of Scandal* unspools like a riveting mystery novel, stranger than anything in Susan Orlean's *The Orchid Thief* or the film *Adaptation*. Pittman shows how some people can become so obsessed—with beauty, with profit, with fame—that they will ignore everything, even the law.

### THE MAN WHO LOVED BOOKS TOO MUCH

Sasquatch Books

As heard on NPR's *This American Life* "Absorbing . . . Though it's non-fiction, *The Feather Thief* contains many of the elements of a classic thriller." —Maureen Corrigan, NPR's *Fresh Air* "One of the most peculiar and memorable true-crime books ever." —*Christian Science Monitor* A rollicking true-crime adventure and a captivating journey into an underground world of fanatical fly-tiers and plume peddlers, for readers of *The Stranger in the Woods*, *The Lost City of Z*, and *The Orchid Thief*. On a cool June evening in 2009, after performing a concert at London's Royal Academy of Music, twenty-year-old American flautist Edwin Rist boarded a train for a suburban outpost of the British Museum of Natural History. Home to one of the largest ornithological collections in the world, the Tring museum was full of rare bird specimens whose gorgeous feathers were worth staggering amounts of money to the men who shared Edwin's obsession: the Victorian art of salmon fly-tying. Once inside the museum, the champion fly-tier grabbed hundreds of bird skins—some collected 150 years earlier by a contemporary of Darwin's, Alfred Russel Wallace, who'd risked everything to gather them—and escaped into the darkness. Two years later, Kirk Wallace Johnson was waist high in a river in northern New Mexico when his fly-fishing guide told him about the heist. He was soon consumed by the strange case of the feather thief. What would possess a person to steal dead birds? Had Edwin paid the price for his crime? What became of the missing skins? In his search for answers, Johnson was catapulted into a years-long, worldwide investigation. The gripping story of a bizarre and shocking crime, and one man's

relentless pursuit of justice, *The Feather Thief* is also a fascinating exploration of obsession, and man's destructive instinct to harvest the beauty of nature.

*Flower Confidential* Simon & Schuster

"*The Orchid*" by Robert Grant is a story that has inspired readers for over a century. A headstrong young woman marries for money and divorces for love. She then sells her infant daughter back to her former husband to secure a two million dollar fortune. Romance and the search for your other half are at the core of this tale that shows money can't buy happiness and love is always worth the risk of a new life.

**My Kind of Place** Penguin

Award-winning author Amy Stewart takes readers on an around-the-world, behind-the-scenes look at the flower industry and how it has sought—for better or worse—to achieve perfection. She tracks down the hybridizers, geneticists, farmers, and florists working to invent, manufacture, and sell flowers that are bigger, brighter, and sturdier than anything nature can provide. There's a scientist intent on developing the first genetically modified blue rose; an eccentric horticultural legend who created the most popular lily; a breeder of gerberas of every color imaginable; and an Ecuadorean farmer growing exquisite roses, the floral equivalent of a Tiffany diamond. And, at every turn she discovers the startling intersection of nature and technology, of sentiment and commerce.

*The Big Year* Simon and Schuster

A New York Times bestseller • One of Time Magazine's 100 Best YA Books of All Time • Winner of the Michael L. Printz Award • A Stonewall Honor Book The radiant, award-winning story of first love, family, loss, and betrayal for fans of John Green, Becky Albertalli, and Adam Silvera "Dazzling." —The New York Times Book Review "A blazing prismatic explosion of color." —Entertainment Weekly "Powerful and well-crafted . . . Stunning." —Time Magazine "We were all heading for each other on a collision course, no matter what. Maybe some people are just meant to be in the same story." At first, Jude and her twin brother are Noah and Jude; inseparable. Noah draws constantly and is falling in love with the charismatic boy next door, while daredevil Jude wears red-red lipstick, cliff-dives, and does all the talking for both of them. Years later, they are barely speaking. Something has happened to change the twins in different yet equally devastating ways . . . but then Jude meets an intriguing, irresistible boy and a mysterious new mentor. The early years are Noah's to tell; the later years are Jude's. But they each have only half the story, and if they can only find their way back to one another, they'll have a chance to remake their world. This radiant, award-winning novel from the acclaimed author of *The Sky Is Everywhere* will leave you breathless and teary and laughing—often all at once.

Riverhead Books

The adventures of a British girl in China, hunting for the orchid that will save her family. Staid, responsible Elodie Buchanan is the eldest of ten sisters growing up in a small English market town in 1861. The girls barely know their father, a plant hunter usually off adventuring through China, more myth than man. Then disaster strikes: Mr. Buchanan reneges on his contract to collect an extremely rare and valuable orchid. He will be thrown into

debtors' prison while his daughters are sent to the orphanage and the workhouse. Elodie can't stand by and see her family destroyed, so she persuades her father to return to China once more to try to hunt down the flower—only this time, despite everything she knows about her place in society, Elodie goes with him. She has never before left her village, but what starts as fear turns to wonder as she adapts to seafaring life aboard the tea clipper *The Osprey*, and later to the new sights, dangers, and romance of China. She comes to find that both the world and her place in it are so much bigger than she'd ever dreamed. But now, even if she can find the orchid, how can she ever go back to being the staid, responsible Elodie that everybody needs?

**VAN GOGH**

Simon and Schuster

Traces the author's decision to quit her job and travel the world for a year after suffering a midlife crisis and divorce, an endeavor that took her to three places in her quest to explore her own nature, experience fulfillment and learn the art of spiritual balance. (Biography & autobiography). Reissue. A best-selling book. Movie tie-in.

**Life's Work** Simon & Schuster

In the tradition of *The Orchid Thief*, a compelling narrative set within the strange and genteel world of rare-book collecting: the true story of an infamous book thief, his victims, and the man determined to catch him. Rare-book theft is even more widespread than fine-art theft. Most thieves, of course, steal for profit. John Charles Gilkey steals purely for the love of books. In an attempt to understand him better, journalist Allison Hoover Bartlett plunged herself into the world of book lust and discovered just how dangerous it can be. John Gilkey is an obsessed, unrepentant book thief who has stolen hundreds of thousands of dollars worth of rare books from book fairs, stores, and libraries around the country. Ken Sanders is the self-appointed "bibliodick" (book dealer with a penchant for detective work) driven to catch him. Bartlett befriended both outlandish characters and found herself caught in the middle of efforts to recover hidden treasure. With a mixture of suspense, insight, and humor, she has woven this entertaining cat-and-mouse chase into a narrative that not only reveals exactly how Gilkey pulled off his dirtiest crimes, where he stashed the loot, and how Sanders ultimately caught him but also explores the romance of books, the lure to collect them, and the temptation to steal them. Immersing the reader in a rich, wide world of literary obsession, Bartlett looks at the history of book passion, collection, and theft through the ages, to examine the craving that makes some people willing to stop at nothing to possess the books they love.

**I'll Give You the Sun** Penguin

You just can't keep a good girl down . . . unless you use the proper methods. Piper McCloud can fly. Just like that. Easy as pie. Sure, she hasn't mastered reverse propulsion and her turns are kind of sloppy, but she's real good at loop-the-loops. Problem is, the good folk of Lowland County are afraid of Piper. And her ma's at her wit's end. So it seems only fitting that she leave her parents' farm to attend a top-secret, maximum-security school for kids with exceptional abilities. School is great at first with a bunch of new friends whose skills range from super-strength to super-genius. (Plus all the homemade apple pie she can eat!) But Piper

is special, even among the special. And there are consequences. Consequences too dire to talk about. Too crazy to consider. And too dangerous to ignore. At turns exhilarating and terrifying, Victoria Forester's debut novel has been praised by Stephenie Meyer, author of the Twilight saga, as "the oddest/sweetest mix of Little House on the Prairie and X-Men...Prepare to have your heart warmed." The Girl Who Could Fly is an unforgettable story of defiance and courage about an irrepressible heroine who can, who will, who must . . . fly. This title has Common Core connections. Praise for Victoria Forester and The Girl Who Could Fly: "It's the oddest/sweetest mix of Little House on the Prairie and X-Men. I was smiling the whole time (except for the part where I cried). I gave it to my mom, and I'm reading it to my kids—it's absolutely multigenerational. Prepare to have your heart warmed." Stephenie Meyer, author of the Twilight saga "In this terrific debut novel, readers meet Piper McCloud, the late-in-life daughter of farmers...The story soars, just like Piper, with enough loop-de-loops to keep kids uncertain about what will come next....Best of all are the book's strong, lightly wrapped messages about friendship and authenticity and the difference between doing well and doing good."--Booklist, Starred Review "Forester's disparate settings (down-home farm and futuristic ice-bunker institute) are unified by the rock-solid point of view and unpretentious diction... any child who has felt different will take strength from Piper's fight to be herself against the tide of family, church, and society."--The Horn Book Review The Girl Who Could Fly is a 2009 Bank Street - Best Children's Book of the Year.

### THE FALCON THIEF

#### Basic Books

A beautifully packaged edition of one of García Márquez's most beloved novels, with never-before-seen color illustrations by the Chilean artist Luisa Rivera and an interior design created by the author's son, Gonzalo García Barcha. In their youth, Florentino Ariza and Fermina Daza fall passionately in love. When Fermina eventually chooses to marry a wealthy, well-born doctor, Florentino is devastated, but he is a romantic. As he rises in his business career he whiles away the years in 622 affairs—yet he reserves his heart for Fermina. Her husband dies at last, and Florentino purposefully attends the funeral. Fifty years, nine months, and four days after he first declared his love for Fermina, he will do so again.

#### My Kind of Place Feiwel & Friends

NEW YORK TIMES BESTSELLER • “The definitive biography for decades to come.”—Leo Jansen, curator, the Van Gogh Museum, and co-editor of Vincent van Gogh: The Complete Letters Steven Naifeh and Gregory White Smith, who galvanized readers with their Pulitzer Prize-winning biography of Jackson Pollock, have written another tour de force—an exquisitely detailed, compellingly readable portrait of Vincent van Gogh. Working with the full cooperation of the Van Gogh Museum in Amsterdam, Naifeh and Smith have accessed a wealth of previously untapped materials to bring a crucial understanding to the larger-than-life mythology of this great artist: his early struggles to find his place in the world; his intense relationship with his brother Theo; and his move to Provence, where he painted some of the best-loved works in Western art. The authors also shed new light on many unexplored aspects of Van Gogh's inner world: his erratic and tumultuous romantic life; his bouts of depression and mental illness; and the cloudy circumstances surrounding his death at the age of thirty-seven. Though countless books have been written about Van Gogh, no serious, ambitious examination of his life has been attempted in more than seventy years. Naifeh and Smith have re-created Van Gogh's life with an astounding vividness and psychological acuity that bring a completely new and sympathetic understanding to this unique artistic genius. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • The Washington Post • The Wall Street Journal • San Francisco Chronicle • NPR • The Economist • Newsday • BookReporter “In their magisterial new biography, Van Gogh: The Life, Steven Naifeh and Gregory White Smith provide a guided tour through the personal world and work of that Dutch painter, shining a bright light on the evolution of his art. . . . What [the authors] capture so powerfully is Van Gogh's extraordinary will to learn, to persevere against the odds.”—Michiko Kakutani, The New York Times “Brilliant . . . Steven Naifeh and Gregory White Smith are the big-game hunters of modern art history. . . . [Van Gogh] rushes along on a tide of research. . . . At once a model of scholarship and an emotive, pacy chunk of hagiography.”—Martin Herbert, The Daily Telegraph (London)

#### The Orchid HarperCollins

"As Charlie struggles to adapt Orlean's best selling book 'The Orchid Thief', he writes himself into his own movie." [box cover note].

### THE SCENT OF SCANDAL

#### Random House

The orchid is the most evocative of flowers, inspiring in some of its admirers a fanaticism akin to madness, as demonstrated in Susan Orlean's popular novel The Orchid Thief. This elegant

survey of the orchid treats its place in legend and suggests the impact that these exotic plants had on the temperate European mind. Berliocchi chronicles the adventurers and scientists who introduced these marvels, discusses their place in the arts from literature and magic to cuisine, and concludes with accounts of the most important genera and their cultivation. Splendidly illustrated with period engravings and botanical paintings, it is literate and delightful.

### EAT PRAY LOVE

#### Random House

Presents the text of Alice Walker's story "Everyday Use"; contains background essays that provide insight into the story; and features a selection of critical response. Includes a chronology and an interview with the author.

#### Love in the Time of Cholera (Illustrated Edition) Random House

The creator of Deadwood and NYPD Blue reflects on his tumultuous life, driven by a nearly insatiable creative energy and a matching penchant for self-destruction. Life's Work is a profound memoir from a brilliant mind taking stock as Alzheimer's loosens his hold on his own past. "This is David Milch's farewell, and it will rock you."—Susan Orlean, author of The Orchid Thief ONE OF THE BEST BOOKS OF THE YEAR: NPR, USA Today, Kirkus Reviews "I'm on a boat sailing to some island where I don't know anybody. A boat someone is operating and we aren't in touch." So begins David Milch's urgent accounting of his increasingly strange present and often painful past. From the start, Milch's life seems destined to echo that of his father, a successful if drug-addicted surgeon. Almost every achievement is accompanied by an act of self-immolation, but the deepest sadnesses also contain moments of grace. Betting on racehorses and stealing booze at eight years old, mentored by Robert Penn Warren and excoriated by Richard Yates at twenty-one, Milch never did anything by half. He got into Yale Law School only to be expelled for shooting out streetlights with a shotgun. He paused his studies at the Iowa Writers' Workshop to manufacture acid in Cuernavaca. He created and wrote some of the most lauded television series of all time, made a family, and pursued sobriety, then lost his fortune betting horses just as his father had taught him. Like Milch's best screenwriting, Life's Work explores how chance encounters, self-deception, and luck shape the people we become, and wrestles with what it means to have felt and caused pain, even and especially with those we love, and how you keep living. It is both a master class on Milch's unique creative process, and a distinctive, revelatory memoir from one of the great American writers, in what may be his final dispatch to us all.

#### Everyday Use Good Press

The prize-winning history of the orchid: "an engaging and enlightening account of one of the Earth's most mythologized botanical wonders" (Richard Conniff, author of House of Lost Worlds). At once delicate, exotic, and elegant, orchids are beloved for their singular, instantly recognizable beauty. Found in nearly every climate, the many species of orchid have had varying forms of significance in countless cultures over time. Following the orchid's journey from Ancient Greek medicine to twentieth century detective novels, science historian Jim Endersby explores the flower's four recurring themes: science, empire, sex, and death. Orchids were a symbol of the exotic riches sought by 19th century Europeans in their plans for colonization. They became subjects of scientific scrutiny for Charles Darwin, who investigated their methods of cross-pollination. As Endersby shows, orchids—perhaps because of their extraordinarily diverse colors, shapes, and sizes—have also bloomed repeatedly in films, novels, plays, and poems, from Shakespeare to science fiction. Featuring many gorgeous illustrations from the collection of the Royal Botanic Gardens, Kew, Orchid: A Cultural History was awarded the Watson Davis and Helen Miles Davis Prize by the History of Science Society. It is an enchanting tale not only for gardeners and plant collectors, but anyone curious about the flower's obsessive hold on the imagination in history, cinema, literature, and more.

#### The Girl Who Could Fly The Orchid Thief

Susan Orlean's bestseller and New York Times Notable Book is "a sheer delight...as rich in insight and as varied as the treasures contained on the shelves in any local library" (USA TODAY)—a dazzling love letter to a beloved institution and an investigation into one of its greatest mysteries. "Everybody who loves books should check out The Library Book" (The Washington Post). On the morning of April 28, 1986, a fire alarm sounded in the Los Angeles Public Library. The fire was disastrous: it reached two thousand degrees and burned for more than seven hours. By the time it was extinguished, it had consumed four hundred thousand books and damaged seven hundred thousand more. Investigators descended on the scene, but more than thirty years later, the mystery remains: Did someone purposefully set fire to the library—and if so, who? Weaving her lifelong love of books and reading into an investigation of the fire, award-winning New Yorker reporter and New York Times bestselling author Susan Orlean delivers a "delightful...reflection on the past, present, and future of libraries in America" (New York magazine) that manages to tell the broader story of libraries and librarians in a way that

has never been done before. In the "exquisitely written, consistently entertaining" (The New York Times) The Library Book, Orlean chronicles the LAPL fire and its aftermath to showcase the larger, crucial role that libraries play in our lives; delves into the evolution of libraries; brings each department of the library to vivid life; studies arson and attempts to burn a copy of a book herself; and reexamines the case of Harry Peak, the blond-haired actor long suspected of setting fire to the LAPL more than thirty years ago. "A book lover's dream...an ambitiously researched, elegantly written book that serves as a portal into a place of history, drama, culture, and stories" (Star Tribune, Minneapolis), Susan Orlean's thrilling journey through the stacks reveals how these beloved institutions provide much more than just books—and why they remain an essential part of the heart, mind, and soul of our country.

#### On Animals Vintage

NEW YORK TIMES BESTSELLER • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • Entertainment Weekly • Kirkus Reviews • The Christian Science Monitor In the picturesque village of Guzmán, Spain, in a cave dug into a hillside on the edge of town, an ancient door leads to a cramped limestone chamber known as "the telling room." Containing nothing but a wooden table and two benches, this is where villagers have gathered for centuries to share their stories and secrets—usually accompanied by copious amounts of wine. It was here, in the summer of 2000, that Michael Paterniti found himself listening to a larger-than-life Spanish cheesemaker named Ambrosio Molinos de las Heras as he spun an odd and compelling tale about a piece of cheese. An unusual piece of cheese. Made from an old family recipe, Ambrosio's cheese was reputed to be among the finest in the world, and was said to hold mystical qualities. Eating it, some claimed, conjured long-lost memories. But then, Ambrosio said, things had gone horribly wrong. . . . By the time the two men exited the telling room that evening, Paterniti was hooked. Soon he was fully embroiled in village life, relocating his young family to Guzmán in order to chase the truth about this cheese and explore the fairy tale-like place where the villagers conversed with farm animals, lived by an ancient Castilian code of honor, and made their wine and food by hand, from the grapes growing on a nearby hill and the flocks of sheep floating over the Meseta. What Paterniti ultimately discovers there in the highlands of Castile is nothing like the idyllic slow-food fable he first imagined. Instead, he's sucked into the heart of an unfolding mystery, a blood feud that includes accusations of betrayal and theft, death threats, and a murder plot. As the village begins to spill its long-held secrets, Paterniti finds himself implicated in the very story he is writing. Equal parts mystery and memoir, travelogue and history, The Telling Room is an astonishing work of literary nonfiction by one of our most accomplished storytellers. A moving exploration of happiness, friendship, and betrayal, The Telling Room introduces us to Ambrosio Molinos de las Heras, an unforgettable real-life literary hero, while also holding a mirror up to the world, fully alive to the power of stories that define and sustain us. Praise for The Telling Room "Captivating . . . Paterniti's writing sings, whether he's talking about how food activates memory, or the joys of watching his children grow."—NPR

### ORCHID FEVER

#### Simon and Schuster

A "well-written, engaging detective story" (Kirkus Reviews, starred review) about a rogue who trades in rare birds and their eggs—and the wildlife detective determined to stop him. On May 3, 2010, an Irish national named Jeffrey Lendrum was apprehended at Britain's Birmingham International Airport with a suspicious parcel strapped to his stomach. Inside were fourteen rare peregrine falcon eggs snatched from a remote cliffside in Wales. So begins a "vivid tale of obsession and international derring-do" (Publishers Weekly), following the parallel lives of a globe-trotting smuggler who spent two decades capturing endangered raptors worth millions of dollars as race champions—and Detective Andy McWilliam of the United Kingdom's National Wildlife Crime Unit, who's hell bent on protecting the world's birds of prey. "Masterfully constructed" (The New York Times) and "entertaining and illuminating" (The Washington Post), The Falcon Thief will whisk you away from the volcanoes of Patagonia to Zimbabwe's Matobo National Park, and from the frigid tundra near the Arctic Circle to luxurious aviaries in the deserts of Dubai, all in pursuit of a man who is reckless, arrogant, and gripped by a destructive compulsion to make the most beautiful creatures in nature his own. It's a story that's part true-crime narrative, part epic adventure—and wholly unputdownable until the very last page.

### SATURDAY NIGHT

#### Timber Press (OR)

The orchid thief is John Laroche, a renegade plant dealer and sharply handsome guy in spite of the fact that he is missing all his teeth and has the posture of al dente spaghetti. This national bestseller follows him into the Florida swamp to relate his mesmerizing true story of beauty and obsession.
