Back Bay Books

A gargantuan, mind-altering comedy

about the Pursuit of Happiness in America Set in an addicts' halfway house and a tennis academy, and featuring the most endearingly screwed-up family to come along in recent fiction, Infinite Jest explores essential questions about what entertainment is and why it has come to so dominate our lives; about how our desire for entertainment affects our need to connect with other people; and

about what the pleasures we choose say about who we are. Equal parts philosophical quest and screwball comedy, *Infinite Jest* bends every rule of fiction without sacrificing for a moment its own entertainment value. It is an exuberant, uniquely American exploration of the passions that make us human - and one of those rare books that renew the idea of what a novel can do. "The next step in fiction...Edgy, accurate, and darkly witty...Think Beckett, think Pynchon, think Gaddis. Think." --Sven Birkerts, *The Atlantic A History of a Land, Its Regions, and Their Peoples* Farrar, Straus and Giroux

In this groundbreaking biography, David Maraniss captures all of football great Vince Lombardi: the myth, the man, his game, and his God. More than any other

sports figure, Vince Lombardi transformed football into a metaphor of the American experience. The son of an Italian immigrant butcher, Lombardi toiled for twenty frustrating years as a high school coach and then as an assistant at Fordham, West Point, and the New York Giants before his big break came at age forty-six with the chance to coach a struggling team in snowbound Wisconsin. His leadership of the Green Bay Packers to five world championships in nine seasons is the most storied period in NFL history. Lombardi became a living legend, a symbol to many of leadership, discipline, perseverance, and teamwork, and to others of an obsession with winning. In *When Pride Still Mattered*, Pulitzer Prize-winning author David Maraniss captures the myth and

the man, football, God, and country in a thrilling biography destined to become an American classic.

All That Has Been Done to Ensure That the Italians of the South Became

"Southerners" The Pursuit of Italy

A History of a Land, Its Regions, and Their Peoples

A dramatically new understanding of human history, challenging our most fundamental assumptions about social evolution—from the development of agriculture and cities to the origins of the state, democracy, and inequality—and revealing new possibilities for human emancipation. For generations, our remote ancestors have been cast as primitive and childlike—either free and equal innocents, or thuggish and warlike.

Civilization, we are told, could be achieved only by sacrificing those original freedoms or, alternatively, by taming our baser instincts. David Graeber and David Wengrow show how such theories first emerged in the eighteenth century as a conservative reaction to powerful critiques of European society posed by Indigenous observers and intellectuals. Revisiting this encounter has startling implications for how we make sense of human history today, including the origins of farming, property, cities, democracy, slavery, and civilization itself. Drawing on pathbreaking research in archaeology and anthropology, the authors show how history becomes a far more interesting place once we learn to throw off our conceptual shackles and perceive what's

really there. If humans did not spend 95 percent of their evolutionary past in tiny bands of hunter-gatherers, what were they doing all that time? If agriculture, and cities, did not mean a plunge into hierarchy and domination, then what kinds of social and economic organization did they lead to? The answers are often unexpected, and suggest that the course of human history may be less set in stone, and more full of playful, hopeful possibilities, than we tend to assume. The Dawn of Everything fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom, new ways of organizing society. This is a monumental book of formidable intellectual range, animated by curiosity, moral vision, and

a faith in the power of direct action. Includes Black-and-White Illustrations

## **IMPERIAL LIVES IN THE VICTORIAN RAJ**

Oxford University Press

Tinderbox tells the exclusive, explosive, uninhibited true story of HBO and how it burst onto the American scene and screen to detonate a revolution and transform our relationship with television forever. The Sopranos, Game of Thrones, Sex and the City, The Wire, Succession...HBO has long been the home of epic shows, as well as the source for brilliant new movies, news-making documentaries, and controversial sports journalism. By thinking big, trashing tired formulas, and killing off cliches long past their primes,

HBO shook off the shackles of convention and led the way to a bolder world of content, opening the door to all that was new, original, and worthy of our attention. In *Tinderbox*, award-winning journalist James Andrew Miller uncovers a bottomless trove of secrets and surprises, revealing new conflicts, insights, and analysis. As he did to great acclaim with *SNL in Live from New York*; with ESPN in *Those Guys Have All the Fun*; and with talent agency CAA in *Powerhouse*, Miller continues his record of extraordinary access to the most important voices, this time speaking with talents ranging from Abrams (J. J.) to Zendaya, as well as every single living president of HBO—and hundreds of other major players. Over the course of more than 750 interviews with key sources,

Miller reveals how fraught HBO's journey has been, capturing the drama and the comedy off-camera and inside boardrooms as HBO created and mobilized a daring new content universe, and, in doing so, reshaped storytelling and upended our entertainment lives forever.

Starting with the Roman army's first foray beyond its borders and ending with Hadrian's death (138 CE), David Potter's panorama of the early Empire recounts the wars, leaders and social transformations that lay the foundations of imperial success. As today's parallels reveal, the Romans have much to teach us about power, governance and leadership.

Victorious Century Penguin UK

A New York Times Notable Book of 2020 "[A] sweeping and authoritative history" (The New York Times Book Review), *Black Wave* is an unprecedented and ambitious examination of how the modern Middle East unraveled and why it started with the pivotal year of 1979. Kim Ghattas seamlessly weaves together history, geopolitics, and culture to deliver a gripping read of the largely unexplored story of the rivalry between Saudi Arabia and Iran, born from the sparks of the 1979 Iranian revolution and fueled by American policy. With vivid story-telling, extensive historical research and on-the-ground reporting, Ghattas dispels accepted truths about a region she calls home. She explores how Sunni Saudi Arabia and Shia Iran, once allies and twin pillars

of US strategy in the region, became mortal enemies after 1979. She shows how they used and distorted religion in a competition that went well beyond geopolitics. Feeding intolerance, suppressing cultural expression, and encouraging sectarian violence from Egypt to Pakistan, the war for cultural supremacy led to Iran's fatwa against author Salman Rushdie, the assassination of countless intellectuals, the birth of groups like Hezbollah in Lebanon, the September 11th terrorist attacks, and the rise of ISIS. Ghattas introduces us to a riveting cast of characters whose lives were upended by the geopolitical drama over four decades: from the Pakistani television anchor who defied her country's dictator, to the Egyptian novelist thrown in jail for

indecent writings all the way to the murder of journalist Jamal Khashoggi in the Saudi consulate in Istanbul in 2018. *Black Wave* is both an intimate and sweeping history of the region and will significantly alter perceptions of the Middle East.

**This Is Just a Test** Cambridge University Press

Engine Testing: Electrical, Hybrid, IC Engine and Power Storage Testing and Test Facilities, Fifth Edition covers the requirements of test facilities dealing with e-vehicle systems and different configurations and operations. Chapters dealing with the rigging and operation of Units Under Test (UUT) are updated to include electric motor-based systems, test cell services and thermo-dynamics. Control module and system testing using advanced, in-the-Loop (XiL) methods are described, including powertrain component integrated simulation and testing. All other chapters dealing with test cell design, installation, safety and

use together with the cell support systems in IC engine testing are updated to reflect current developments and research. Covers multiple technical disciplines for anyone required to design, modify or operate an automotive powertrain test facility Provides tactics on the development of electrical and hybrid powertrains and energy storage systems Presents coverage of the housing and testing of automotive battery systems in addition to the use of 'virtual' testing in the form of 'x-in-the-loop' throughout the powertrain's development and test life

### **A HISTORY OF A LAND, ITS REGIONS AND THEIR PEOPLES**

Penguin UK

NATIONAL BOOK AWARD FINALIST •

NATIONAL BESTSELLER • A twisting, haunting true-life murder mystery about one of the most monstrous crimes in American history, from the author of *The Lost City of Z*. In the 1920s, the richest people per capita in the world were members of the Osage Nation in Oklahoma. After oil was discovered beneath their land, the Osage rode in chauffeured automobiles, built mansions, and sent their children to study in Europe. Then, one by one, the Osage began to be killed off. The family of an Osage woman, Mollie Burkhart, became a prime target. One of her relatives was shot. Another was poisoned. And it was just the beginning, as more and more Osage were dying under mysterious circumstances, and many of those who dared to investigate

the killings were themselves murdered. As the death toll rose, the newly created FBI took up the case, and the young director, J. Edgar Hoover, turned to a former Texas Ranger named Tom White to try to unravel the mystery. White put together an undercover team, including a Native American agent who infiltrated the region, and together with the Osage began to expose one of the most chilling conspiracies in American history.

*The Renaissance Reform of the Book and Britain* Routledge

As one of the first investigative journalists to publicly question Berlusconi's fitness for government, Economist writer David Lane helped sparked an uproar in Italy. Now, after years of research and using many unique documents and material,

including numerous in-depth interviews with senior magistrates, top lawyers and a former President, he reveals the truth about Berlusconi's life and career: his dubiously acquired wealth and secret offshore companies; his shadowy business associates; his links with noted mafia figures; his extreme right-wing contacts and lingering sympathy for the high days of Italian Fascism; his scandalous manipulation of the legal system; and the staggering conflicts of interest that enable him to exploit his money and media to silence opposition. *Berlusconi's Shadow* is also an exploration of the dark underside of Italy today: a nation still steeped in violence and corruption, where bribery and backhanders are commonplace and the Mafia seems unstoppable. It is a crisis

which, Lane shows, matters now more than ever and we cannot afford to ignore.

Are We There Yet? Simon and Schuster  
A sweeping history of nineteenth-century Britain by one of the world's most respected historians. "An evocative account . . . [Cannadine] tells his own story persuasively and exceedingly well." —The Wall Street Journal To live in nineteenth-century Britain was to experience an astonishing and unprecedented series of changes. Cities grew vast; there were revolutions in transportation, communication, science, and work--all while a growing religious skepticism rendered the intellectual landscape increasingly unrecognizable. It was an exhilarating time, and as a result, most of the countries in the world

that experienced these changes were racked by political and social unrest. Britain, however, maintained a stable polity at home, and as a result it quickly found itself in a position of global leadership. In this major new work, leading historian David Cannadine has created a bold, fascinating new interpretation of nineteenth-century Britain. Britain was a country that saw itself at the summit of the world and, by some measures, this was indeed true. It had become the largest empire in history: its political stability positioned it as the leader of the new global economy and allowed it to construct the largest navy ever built. And yet it was also a society permeated with doubt, fear, and introspection. Repeatedly, politicians and writers felt themselves to be staring

into the abyss and what is seen as an era of irritating self-belief was in fact obsessed with its own fragility, whether as a great power or as a moral force. Victorious Century is a comprehensive and extraordinarily stimulating history--its author catches the relish, humor and staginess of the age, but also the dilemmas faced by Britain's citizens, ones we remain familiar with today. *The Pursuit of Italy* Yale University Press This book introduces the reader to the relationship between the Italian national movement, achieved by the Risorgimento, and the Italian unification in 1860. These themes are discussed in detail and related to the broader European theatre. Covering the literary, cultural, religious and political history of the period, Beales and Biagini show Italy

struggled towards nation state status on all fronts. The new edition has been thoroughly rewritten. It also contains a number of new documents. In addition, all the most up to date research of the last 20 years has been incorporated. The Risorgimento and the Unification of Italy remains the major text on nineteenth century Italy. The long introduction and useful footnotes will be of real assistance to those interested in Italian unification. [A Brief History of Italy](#) Cambridge University Press Visiting a villa built by Lorenzo de' Medici outside Pisa, David Gilmour fell into conversation about the unification of Italy with a distinguished former minister: "You know, Davide," he said in a low conspiratorial voice, as if uttering a heresy, "Garibaldi did Italy a great

disservice. If he had not invaded Sicily and Naples, we in the north would have the richest and most civilized state in Europe." After looking cautiously round the room he added in an even lower voice, "Of course to the south we would have a neighbour like Egypt." Was the elderly Italian right? Was the unification of Italy a mistake? The Pursuit of Italy traces the whole history of the Italian peninsula in a wonderfully readable style, full of well-chosen stories and observations from personal experience, and peopled by many of the great figures of the Italian past, from Cicero and Virgil to Dante and the Medici, from Cavour and Verdi to the controversial political figures of the twentieth century. The book gives a clear-eyed view of the Risorgimento, the pivotal event in

modern Italian history, debunking the influential myths which have grown up around it. Gilmour shows that the glory of Italy has always lain in its regions, with their distinctive art, civic cultures, identities and cuisine. The regions produced the medieval communes and the Renaissance, the Venetian Republic and the Grand Duchy of Tuscany, two of the most civilized states of European history. Their inhabitants identified themselves not as Italians, but as Tuscans and Venetians, Sicilians and Lombards, Neapolitans and Genoese. This is where the strength and culture of Italy still comes from, rather than from misconceived and mishandled concepts of nationalism and unity. This wise and enormously engaging book explains the course of Italian history in a manner and

with a coherence which no one with an interest in the country could fail to enjoy.

**On the Move!** Vintage

A sweeping portrait of the turmoil of the twentieth century and the legacy of immigration, as seen through the German-American family of the celebrated book publisher Kurt Wolff. A literary gem researched over a year the author spent living in Berlin, Endpapers excavates the extraordinary histories of the author's grandfather and father: the renowned publisher Kurt Wolff, dubbed "perhaps the twentieth century's most discriminating publisher" by the New York Times Book Review, and his son Niko, who fought in the Wehrmacht during World War II before coming to America. Kurt Wolff was born in Bonn into a highly cultured German-Jewish

family, whose ancestors included converts to Christianity, among them Baron Moritz von Haber, whose desire to demand satisfaction in a duel sparked off bloody antisemitic riots. Always bookish, Kurt became a publisher at twenty-three, setting up his own firm and publishing Franz Kafka, Joseph Roth, Karl Kraus, and many other authors whose books would soon be burned by the Nazis. Fleeing Germany in 1933, a day after the Reichstag fire, Kurt and his second wife, Helen, sought refuge in France, Italy, and ultimately New York, where in a small Greenwich Village apartment they founded Pantheon Books. Pantheon would soon take its own place in literary history with the publication of Nobel laureate Boris Pasternak's novel Doctor Zhivago, and as the conduit that brought

major European works to the States. But Kurt's taciturn son Niko, offspring of his first marriage to Elisabeth Merck, was left behind in Germany, where despite his Jewish heritage he served the Nazis on two fronts. As Alexander Wolff visits dusty archives and meets distant relatives, he discovers secrets that never made it to the land of fresh starts, including the connection between Hitler and the family pharmaceutical firm E. Merck, and the story of a half-brother Niko never knew. With surprising revelations from never-before-published family letters, diaries, and photographs, *Endpapers* is a moving and intimate family story, weaving a literary tapestry of the perils, triumphs, and secrets of history and exile.

The Pope and Mussolini Robinson

The Italian Empire and the Great War brings an imperial and colonial perspective to the Italian experience of the First World War. Italy's decision for war in 1915 built directly on Italian imperial ambitions from the late nineteenth century onwards, and its conquest of Libya in 1911-12. The Italian empire was conceived both as a system of overseas colonies under Italian sovereignty, and as an informal global empire of emigrants; both were mobilized to support the war in 1915-18. The war was designed to bring about 'a greater Italy' both literally and metaphorically. In pursuit of global status, Italy fought a global war, sending troops to the Balkans, Russia, and the Middle East, though with limited results. Italy's newest colony, Libya, was also a

theatre of the war effort, as the anti-colonial resistance there linked up with the Ottoman Empire, Germany, and Austria to undermine Italian rule. Italian race theories underpinned this expansionism: the book examines how Italian constructions of whiteness and racial superiority informed a colonial approach to military occupation in Europe as well as the conduct of its campaigns in Africa. After the war, Italy's failures at the Peace Conference meant that the 'mutilated victory' was an imperial as well as a national sentiment. Events in Paris are analysed alongside the military occupations in the Balkans and Asia Minor as well as efforts to resolve the conflicts in Libya, to assess the rhetoric and reality of Italian imperialism.

**Berlusconi's Shadow** Penguin UK  
Take a trip to Italy in this “introspective, moving, and honest” (Publishers Weekly) novel by bestselling author David Levithan (Every Day; Will Grayson, Will Grayson with John Green) in which fledgling family bonds are threatened by new love. Sixteen-year-old Elijah is completely mellow and his 23-year-old brother Danny is completely not, so it's no wonder they can barely tolerate one another. So what better way to repair their broken relationship than to trick them into taking a trip to Italy together? Soon, though, their parents' perfect solution has become Danny and Elijah's nightmare as they're forced to spend countless hours together. But then Elijah meets Julia, and soon the brothers aren't together nearly as much. And when Julia

suddenly decides that maybe it's Danny she's really interested in, Danny has a decision to make: does he honor his relationship with the brother he thinks hates him, or does he follow his heart, which sorely needs some repairing of its own? Elijah and Danny don't think they have anything in common except their parents. Danny thinks Elijah is a lazy, slacking, clueless dreamer who doesn't know how to make a living. Elijah thinks Danny is a workaholic, stuck-up, soulless drone who doesn't know how to make a life. Yes, they're brothers. Then their parents trick them into taking a trip to Italy together. Nine days of escape. Nine days of somewhere else. Elijah and Danny aren't sure it's going to work. Until they each meet a girl—the same girl. Julia. And nothing will ever be the

same again. AN ALA BEST BOOK FOR YOUNG ADULTS

**HBO's Ruthless Pursuit of New Frontiers** Knopf Books for Young Readers

This book critically interrogates the work of David Harvey, one of the world's most influential geographers, and one of its best known Marxists. Considers the entire range of Harvey's oeuvre, from the nature of urbanism to environmental issues. Written by contributors from across the human sciences, operating with a range of critical theories. Focuses on key themes in Harvey's work. Contains a consolidated bibliography of Harvey's writings.

*Electrical, Hybrid, IC Engine and Power Storage Testing and Test Facilities*  
Routledge

Rosenberg and Wan-Long Shang tell the story of a boy caught in the middle of cultures, friends, and growing up Chinese-Jewish-American in this hilariously witty and heartwarming coming-of-age.

**The Pursuit of Italy** Bordighera Incorporated

Giuseppe Garibaldi, the Italian revolutionary leader and popular hero, was among the best-known figures of the nineteenth century. This book seeks to examine his life and the making of his cult, to assess its impact, and understand its surprising success. For thirty years Garibaldi was involved in every combative event in Italy. His greatest moment came in 1860, when he defended a revolution in Sicily and provoked the collapse of the Bourbon

monarchy, the overthrow of papal power in central Italy, and the creation of the Italian nation state. It made him a global icon, representing strength, bravery, manliness, saintliness, and a spirit of adventure. Handsome, flamboyant, and sexually attractive, he was worshiped in life and became a cult figure after his death in 1882. Lucy Riall shows that the emerging cult of Garibaldi was initially conceived by revolutionaries intent on overthrowing the status quo, that it was also the result of a collaborative effort involving writers, artists, actors, and publishers, and that it became genuinely and enduringly popular among a broad public. The book demonstrates that Garibaldi played an integral part in fashioning and promoting himself as a new kind of “charismatic” political hero.

It analyzes the way the Garibaldi myth has been harnessed both to legitimize and to challenge national political

structures. And it identifies elements of Garibaldi's political style appropriated by political leaders around the world, including Mussolini and Che Guevara.
