The author connects two natural, healing powers for a potent mutual effect. While Reiki, the universal life energy, brings the physical and emotional functions back into their original harmony, gemstones concentrate light-filled powers and color vibrations into the chakras, whose unrestricted functioning is greatly important for vitality and well-being. By connecting Reiki and gemstone therapy, the powers of self-healing are activated in a natural manner.

From the poet who brought you "It's okay to be sensitive that's what happens when you have magic in your heart" and "Maybe the people we love, live in the moon, so they can guide us home. Guide us to the light." Comes morgana.love's first poetry book debut. Finding Aquamarine takes us on a journey of wonder, as she explores the topics of love, hope, faith and magic. A journey where it is safe to be yourself, and most importantly, believe in yourself. A place where, if only for a minute, the world is at peace.

Personal Stories of College Students with Autism Andrews McMeel Publishing

"Age never matters, these things are about bravery and heart." Thirteen-year-old Condi Bloom's dream is to learn to surf, but her laid-back beach town isn't what it used to be. Big resort owners are taking over the cove. Worse, someone's harassing the Beachlings, the mysterious old women living in the cliffs off Windy Hollow, a lonely tower of rock that people say is haunted. When a new surfer boy named Trustin shows up in town and invites Condi to a forbidden surfing spot, she's swept into an extraordinary underwater adventure, where a surprising encounter with Koan, the Riddlemaster of the Sea, changes her life. Along with Trustin, his quirky twin and a mystical aquamarine surfboard, Condi learns the untold stories of the Beachlings, uncovering the timeless secrets of Windy Hollow. Ebbing and flowing between reality and magic, times past and present, *The Aquamarine Surfboard* by Kellye Abernathy is a riveting beach tale about opening up to mystery, building community when and where you can - and discovering the ocean is filled with magic-the really BIG kind-the kind that changes the world.

2151, côte nord de l'Australie. La mer joue un rôle prépondérant dans la vie des hommes, qui exploitent les fonds océaniques. Méfie-toi de l'eau ! Evite la mer ! Ne va jamais nager ! Telles sont les mises en garde que Saha Leeds, 16 ans, a entendues durant toute son enfance, car une étrange blessure héritée du temps où elle était bébé lui interdit toute activité sportive aquatique. Elevée, depuis son plus jeune âge, par sa tante sourde et muette après la mort de sa mère, elle ignore tout de son père. A Seahaven, zone régie par les règles néo-traditionalistes, sa particularité physique fait d'elle une marginale, car tout le monde nage, plonge ou fait de la voile, et quiconque ne peut participer à ces activités s'exclut d'entrée de jeu de la vie sociale. Saha a presque fini par accepter cette existence solitaire lorsque, poussée dans un bassin par des camarades de classe, elle manque se noyer. L'examen médical qui s'ensuit et l'amitié qu'elle noue avec le condisciple qui l'a sauvée après plus de quinze minutes d'immersion la conduisent à s'interroger sur sa nature. Bravant l'interdit, elle se risque en mer — et fait une découverte incroyable...

Best-selling author Alice Hoffman's luminous tale of nostalgia and enchantment, for readers both young and old. Hailey and Claire are spending their last summer together when they discover something at the bottom of the murky pool at the Capri Beach Club. There in the depths is a

mysterious and beautiful creature with a sharp tongue and a broken heart: a mermaid named Aquamarine who has left her six sisters to search for love on land. Now, as this mythological yet very real being starts to fade in the burning August sun, a rescue is begun. On the edge of growing up, during a summer that is the hottest on record, Hailey and Claire are discovering that life can take an unpredictable course, friendship is forever, and magic can be found in the most unexpected places. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Water Tales Independently Published

Aquamarine, fluid like water, is a compound of two elements: language and imagery. "Aquamarine" and "Marine," crisscross diverse Mexican landscapes and cities, of both external and internal geographies, much like a road movie plowing straight through historical episodes into the present. The "revolution" of the river, the people, the places: they come and go, leave and return, are drawn from the ether about us and disappear again into nothingness, which is a something-ness - if the narrator chooses it to be. Aquamarine is a novel comprising seven "tales" that explore the unfolding of an idea, of sitting before a palette and taking some blue, yellow, and beiges, or "leg-colored" ideas and wrapping them around like a coiled garden hose with all its kinks, awkward convolutions, and ungainly twists, each loop having its own radius but belonging to the same - is the same - loop. Revolution in every sense.

The Aquamarine Issue is the fifth anniversary issue of Fairy Tale Review, and is appropriately its most oceanic, its most aesthetically diverse, issue to date. Despite this diversity the fairy tale pulse or "feel" is present in each piece in The Aquamarine Issue. What also contains this issue and holds it within the salt palace of tiny sea horses is how the narratives and poems, taken together in here, can be seen to contribute not only to the very important living body of contemporary fairy tales—so nascent and now—but also to the conversation about what constitutes "a fairy tale," that monumental type of art.

Olympic swimmer Jesse Austin is seduced and consequently edged out for a gold medal by her Australian rival. From there, Anshaw intricately traces three possible paths for Jesse, spinning

exhilarating variations on the themes of lost love and parallel lives unlived. Dorothy Allison, author of Bastard Out of Carolina, writes, "I found myself wishing I could buy a dozen copies and start a discussion group, just so I'd be able to debate all the questions this astonishing novel provokes." A Reader's Guide is available.

Within every crystal is a message. Each stone has a story that can teach and heal us if we reflect deeply on its image. Written by the world's leading crystal expert, Judy Hall, The Crystal Seer is a portable crystal reference and oracle. Readers can peruse the pages until their finger catches a page or simply choose a stone that speaks to them. Each entry includes a dazzling full-color crystal image and explains its magical power and how it can be used in meditation and ritual. Whether used intuitively or as a reference guide, The Crystal Seer will show you how to tap into the power of the stones.

Gemstones is the first attempt in English to bring together the geological, mineralogical and gemmological developments that have taken place during the last thirty years. Though there have been many gemstone books published in that time, most have been concerned, understandably and rightly, with the science of gem testing and have covered that area very well. Details of the geological occurrence of many of the classic gemstones, and of nearly all those which have only recently been discovered, have been less adequately dealt with. Coverage has been restricted to a number of papers in a wide variety of geological and mineralogical journals. Gemstones hopes to get the balance right. In the preparation of the book all the journals and monographs in the field have been consulted so that the book should stand for some years as the authority to which gemmologists and others turn in the first instance. Ease of reference and depth of coverage make Gemstones both a reference book and a bench book. Acknowledgements I am grateful to Brian Jackson of the Department of Geology, Royal Museums of Scotland who read the manuscript and painstakingly indicated places where amendment or alteration was needed. I am also grateful to the publishers of the books on which the line illustrations are based. The colour plates present in the book derive from a number of sources, which I would like to acknowledge as follows. Plates 1, 4-15 and 17 Crown copyright reserved.
