Mission Possible, by Kay Kotan and Blake Bradford, has been taken to a new level. In Mission Possible 3+, Kay Kotan and Blake Bradford have re-written and updated their best-selling resource for local churches to better assist congregations seeking to use the simplified accountable leadership structure, often called the one-board model. This expanded third edition includes new resources, activities, and checklists. In Mission Possible 3+, Kay and Blake focus on ministry while making meetings fewer in number but larger in meaning. In this book aimed at congregational leaders, particularly United Methodists, the authors provide practical, field-tested steps to simplify your church structure and unleash more people into ministry. Too often churches try to simplify their structures by just having fewer people at the meeting table. But real simplification and accountable leadership means that meetings - and leaders - are transformed. Kay and Blake walk you through both the technical and adaptive changes to simplify your structure for missional effectiveness. Mission Possible 3+ includes more than 50 pages of additional resources, making the transition to a simplified structure even more straightforward.

Based on Elliott Jaques' latest research, this is a thorough revision of a book that has established itself as a classic in its

field. Jaques has written a practical high-level, how-to book, that applies to all kinds of working organizations - industrial, commercial, service and public. He sets out a totally new way of doing business. Step by step, he builds up the concepts, and then introduces the working procedures to enable CEOs and senior executives, managers, and HR specialists, to develop requisite organization for themselves - in other words, organization which enhances creativity, productive effectiveness, human satisfaction and excellent morale. Requisite Organization challenges all of our current methods and assumptions in the field of organization, leadership and management, and presents a unified total management system built upon a rigorous theoretical base, Stratified Systems Theory. Cyber Worship in Multifaith Perspectives, as is implied by its name, explores worship (i.e., Prayer, Praise, Scripture, Sacrament, Rituals, Confessions, Eucharist, Rites, Pilgrimages, Reflection, Contemplation, etc.) on the Internet. It is not an "everything you need to know" guide about the subjects of faith and belief, religions-online, religions on the Net, or religions in cyberspace. Rather, it is a book about religious and spiritual experience under the rubric, cyber worship, which is the variety of ways religious devotion is performed and carried out on the Internet. The term 'Cyber Worship' is a catchall phrase, which includes variants such as online worship, virtual worship, electronic prayer, cyber puja, cyber synagogue, and so on. Dr. Mohamed Taher has thus assembled a quick reference for two groups: those communities that are involved in Cyber Worship and business Webs that collaborate in sustaining wired environments. As such, this book provides an interesting and current perspective on a practice that will continue to grow in the future.

Humanity faces problems of an unprecedented scope: vast inequality, climate change threatening the conditions of life on this planet, and a great population migration that includes human trafficking and desperate refugees. What does this global plight demand of a church called to be a sign and instrument of the union of all in God? In this book, Mary Doak shows how the church must rectify its own historic failures to embody the unity-in-diversity it proclaims, especially with regard to women and Jews. Only then, and through responding to the demands of the current global crises, can we learn what it means to be the church—that is, to be a prophetic witness and public agent of the harmony that God desires and the world deeply needs.
