The USA Today bestselling author of In

Another Time reimagines the pioneering, passionate life of Marie Curie using a parallel structure to create two alternative timelines, one that mirrors her real life, one that explores the consequences for Marie and for science if she'd made a different choice. In Poland in 1891, Marie Curie (then Marya Sklodowska) was engaged to a budding mathematician, Kazimierz Zorawski. But when his mother insisted she was too poor and not good enough, he broke off the engagement. A heartbroken Marya left Poland for Paris, where she would attend the Sorbonne to study chemistry and physics. Eventually Marie Curie would go on to change the course of science forever and be the first woman to win a Nobel Prize. But what if she had made a different choice? What if she had stayed in Poland, married Kazimierz at the age of twenty-four, and never attended the Sorbonne or discovered radium? What if she had chosen a life of domesticity with a

constant hunger for knowledge in Russian Poland where education for women was restricted, instead of studying science in Paris and meeting Pierre Curie? Entwining Marie Curie's real story with Marya Zorawska's fictional one, *Half Life* explores loves lost and destinies unfulfilled—and probes issues of loyalty and identity, gender and class, motherhood and sisterhood, fame and anonymity, scholarship and knowledge. Through parallel contrasting versions of Marya's life, Jillian Cantor's unique historical novel asks what would have happened if a great scientific mind was denied opportunity and access to education. It examines how the lives of one remarkable woman and the people she loved – as well as the world at large and course of science and history—might have been irrevocably changed in ways both great and small.

Syncretism - the synthesis of different religious - is a contentious word. Some regard it as a pejorative term, referring to local versions of notionally standard 'world religions' which are deemed 'inauthentic' because saturated with indigenous content. Syncretic versions of Christianity do not conform to 'official' (read 'European') models. In other contexts however, the syncretic amalgamation of religions may be validated as a mode of resistance to colonial hegemony, a sign of cultural survival, or as a means of authorising political dominance in a multicultural

state. In *Syncretism/Anti-Syncretism* the contributors explore the issues of agency and power which are integral to the very process of syncretism and to the competing discourses surrounding the term.

NEW YORK TIMES BESTSELLER • “An unflinching examination of how our drinking culture hurts women and a gorgeous memoir of how one woman healed herself.”—Glennon Doyle, #1 New York Times bestselling author of *Untamed* “You don’t know how much you need this book, or maybe you do. Either way, it will save your life.”—Melissa Hartwig Urban, Whole30 co-founder and CEO The founder of the first female-focused recovery program offers a groundbreaking look at

alcohol and a radical new path to sobriety. We live in a world obsessed with drinking. We drink at baby showers and work events, brunch and book club, graduations and funerals. Yet no one ever questions alcohol’s ubiquity—in fact, the only thing ever questioned is why someone doesn’t drink. It is a qualifier for belonging and if you don’t imbibe, you are considered an anomaly. As a society, we are obsessed with health and wellness, yet we uphold alcohol as some kind of magic elixir, though it is anything but. When Holly Whitaker decided to seek help after one too many benders, she embarked on a journey that led not only to her own sobriety, but revealed the insidious role alcohol plays in our society and in the lives of women in particular. What’s more, she could not ignore the ways that alcohol companies were targeting women, just as the tobacco industry had successfully done generations before. Fueled by her own emerging feminism, she also realized that the predominant systems of recovery are archaic, patriarchal, and ineffective for the unique needs of women and other historically oppressed people—who don’t need to lose their egos and surrender to a

male concept of God, as the tenets of Alcoholics Anonymous state, but who need to cultivate a deeper understanding of their own identities and take control of their lives. When Holly found an alternate way out of her own addiction, she felt a calling to create a sober community with resources for anyone questioning their relationship with drinking, so that they might find their way as well. Her resultant feminine-centric recovery program focuses on getting at the root causes that lead people to overindulge and provides the tools necessary to break the cycle of addiction, showing us what is possible when we remove alcohol and destroy our belief system around it. Written in a relatable voice that is honest and witty, *Quit Like a Woman* is at once a groundbreaking look at drinking culture and a road map to cutting out alcohol in order to live our best lives without the crutch of intoxication. You will never look at drinking the same way again.

"In the present work the author discusses the characteristics of the contents of Malay folk beliefs. Besides Islam, which is the professed religion of the Malays, the folks in the kampung (village) still subscribe to the belief elements which they have inherited from their distant past. The author argues that these different elements which are derived from the animistic and Hindu-Buddhist period of the Malay history may seem to be disparate, but they are well-integrated in the world-view of the Malay folk beliefs".--

Theoretical and Empirical Investigations of Divination and Magic Oxford University Press

In the 11th Century AD there was a great deterioration in Muslim's belief and observance of the Shariah as a result of the evil influence of AlFarabi and IbnSina's Neoplatonic philosophy, of Shia Batinism , of false Sufis and evil religious scholars. It was at this time of laxity in beliefs and practices that Abu hamid Muhammad Al Ghazali (D 505 Hijri) flourished as a renewer (Mujaddid) of the deen and as

one of the greatest intellectuals of Islamic history. Well versed in almost all major intellectual disciplines of the time, Al-Ghazali refuted the prevailing false beliefs completely and fully exposed the wrongness of existing practices. As substitutes to these, he presented a belief system following the Ashari Sunni tradition and a system of practices in the light of the Quran and the Sunnah, Fiqh, Sufism and his own thoughts and experiences. This system of practices may be called Al Ghazali's theory of Islamic guidance, an aspect of which is set forth in the Present work.
