Making Sense of Japanese is the fruit of one foolhardy American's thirty-year struggle to learn and teach the Language of the Infinite. Previously known as Gone Fishin', this book has brought Jay Rubin more feedback than any of his literary translations or scholarly tomes, "even if," he says, "you discount the hate mail from spin-casters and the stray gill-netter." To convey his conviction that "the Japanese language is not vague," Rubin has dared to explain how some of the most challenging Japanese grammatical forms work in terms of everyday English.

Reached recently at a recuperative center in the hills north of Kyoto, Rubin declared,

"I'm still pretty sure that Japanese is not vague. Or at least, it's not as vague as it used to be. Probably." The notorious "subjectless sentence" of Japanese comes under close scrutiny in Part One. A sentence can't be a sentence without a subject, so even in cases where the subject seems to be lost or hiding, the author provides the tools to help you find it. Some attention is paid as well to the rest of the sentence, known technically to grammarians as "the rest of the sentence." Part Two tackles a number of expressions that have baffled students of Japanese over the decades, and concludes with Rubin's patented technique of analyzing upside-down Japanese sentences right-side up, which, he claims, is "far more restful" than the traditional way, inside-out. "The scholar," according to the great Japanese novelist Soseki Natsume, is "one who specializes in making the comprehensible

incomprehensible." Despite his best scholarly efforts, Rubin seems to have done just the opposite. Previously published in the Power Japanese series under the same title and originally as Gone Fishin' in the same series.

Specifically designed as an introduction to the exciting world of engineering, **ENGINEERING FUNDAMENTALS: AN INTRODUCTION TO ENGINEERING** encourages students to become engineers and prepares them with a solid foundation in the fundamental principles and physical laws. The book begins with a discovery of what engineers do as well as an inside

look into the various areas of specialization. An explanation on good study habits and what it takes to succeed is included as well as an introduction to design and problem solving, communication, and ethics. Once this foundation is established, the book moves on to the basic physical concepts and laws that students will encounter regularly. The framework of this text teaches students that engineers apply physical and chemical laws and principles as well as mathematics to design, test, and supervise the production of millions of parts, products, and services that people use every day. By gaining problem solving skills and an understanding of fundamental principles, students are on their way to becoming analytical, detail-oriented, and creative engineers. A comprehensive, communicative, and practical guide to using Japanese, Kodansha's Furigana English-Japanese

Dictionary is an invaluable reference tool for anyone with an interest in the Japanese language. It has been edited with the needs of English-speaking users in mind students, teachers, business people, and casual linguists. What is furigana and why is it so important? Furigana refers to the small kana that are printed above or alongside kanji to show the pronunciation of the Chinese character. With furigana superscripts, the beginner who is familiar with hiragana and katakana is able to read even the most difficult and obscure kanji at a glance. Other dictionaries either provide little or no guide to kanji readings or romanize some or all of the Japanese words and sentences. In the past, romanized dictionaries were of some value to students using textbooks that contained no Japanese script. Now, however, an increasing number of influential curriculums around the world are based on a rationale and methodology that demands the introduction of hiragana and katakana from the earliest stages. Learners and their teachers studying under such curriculums will inevitably feel more comfortable with a dictionary such as Kodansha's Furigana English-Japanese Dictionary, one that shows the pronunciation of kanji with familiar and authentic kana script. FEATURES • More than 14,000 entries comprising the most commonly used words in English • Furigana pronunciation guides added to all kanji • Semantic and usage differences between Japanese words and expressions explained clearly in English • Thousands of full-length example sentences illustrate typical usage in natural Japanese • Idioms, phrases, and common expressions help expand vocabulary and sentence building skills • Many encyclopedic entries offer useful background information on Japanese history and culture • Includes many current terms such as artificial intelligence and internet • Hundreds of scientific and medical terms with full Japanese equivalents With its sister publication, Kodansha's Furigana Japanese-English Dictionary, this dictionary makes the perfect reference for all students of Japanese. The two books are combined in Kodansha's Furigana Japanese Dictionary.

I'll Get Right Back to You & Other Annoyances Routledge

Every serious student of Japanese needs a reliable and user-friendly dictionary in their collection. Tuttle Concise Japanese Dictionary, now with 30% more content, is a completely updated dictionary designed for students and business people who are living in Japan and using the Japanese language on a daily basis. Its greatest advantage is that it contains recent idiomatic expressions which have become popular in the past several years and which are not found in other competing dictionaries. The dictionary has been fully

updated with the addition of recent vocabulary relating to computers, mobile phones, social media and the Internet. Other special features that set this dictionary apart include: Over 25,000 words and expressions including idioms and slang. User-friendly layout with main entries in color. Complete Japanese-English and English-Japanese sections. Romanized forms and the Japanese script are given for all Japanese words. A guide to pronunciation helps the user to pronounce Japanese words correctly. Different senses of each word are distinguished by multiple definitions. *Designing Type* Vertical Inc Essential Japanese Grammar is an indispensable study guide for students of the Japanese language at all levels. Long the standard in Japanese language education, it provides clear, jargon-free explanations of how Japanese grammar works and offers hundreds of example sentences. It is an essential handbook for self-study or for the classroom and should be a valued resource for years to come. A strong foundation in grammar is vital to those wishing to learn Japanese as a whole. Essential Japanese Grammar presents a number of unique features. First, grammatical terminology has been kept to a minimum so that extensive prior knowledge of grammar is not required. Second, abundant example sentences written in Japanese characters (kana and kanji) followed by romanji and English translations. Third, the authors have tried to reveal aspects of grammar that may not be found in comparable grammar books such as rare Japanese verbs, adjectival nouns, clauses adverbs, etc. This Japanese grammar book contains: parts of speech. sentence constructions. conjugations forms. speech styles and tones. accentuation rules. essential words and functional elements. an appendix for referencing and cross-referencing Japanese words.

Joining Merriam-Webster's bestselling line of bilingual dictionaries, this edition contains 15,000 headwords, 44,000 references, and 44,000 translations.

Japanese Grammar Vertical Inc
'This extraordinarily lucid book demonstrates that women from all walks of life get the short end of the stick because of their gender. From welfare mothers to corporate executives, Albelda and Tilly show and why the powers-that-be benefit from scapegoating and marginalizing women.' Professor Mimi Abramowitz, author, *Regulating the Lives of Women* A cogent analysis of the economic and social realities for women in the United States, across class lines. In an age when the right wing manipulates the dialogue around women's issues to separate middle- and upper-class women from their poorer sisters this book's facts, figures, and analysis provide a much needed antidote.

Making Sense of Japanese Tuttle Publishing

Containing high-frequency English words with Japanese equivalents, technical terms, new words, and vocabulary related to Japanese culture, this book presents interjections, idioms, and phrasal verbs. It includes entries on Japanese usage, and grammar appendices / key verb declensions. Furigana superscript is used to indicate kanji pronunciation. The fruit of 15 years of research, this remarkable book contains all of the words needed for daily and even sophisticated conversation, as great care has gone into the selection of the entry words and their meanings.
