After a distinguished  
career of more than 35

years, Ignace Bossuyt retired as professor at the Musicology Department of the University of Leuven on October 1st 2007. As an internationally recognised leader in the field of later-16th-century music, Bossuyt consolidated the

department's reputation as a centre of excellence in renaissance music studies. Articles in this volume deal with music from the period on which the dedicatee focussed his own research. Subjects discussed include newly discovered

music by Philippe de Monte and Heinrich Isaac, humour in the motets of Orlando di Lasso, the begi.

Risk management and contingency planning has really come to the fore since the first edition of this book was originally published. Computer failure, fire, fraud, robbery, accident, environmental damage, new regulations - business is constantly under threat.

But how do you determine which are the most important dangers for your business? What can you do to lessen the chances of their happening - and minimize the impact if they do happen? In this comprehensive volume Kit Sadgrove shows how you can identify - and control - the relevant threats and ensure that your company will survive. He begins by asking 'What is risk?', 'How do we assess it?' and 'How can it be managed?' He goes on to examine in detail the key

danger areas including finance, product quality, health and safety, security and the environment. With case studies, self-assessment exercises and checklists, each chapter looks systematically at what is involved and enables you to draw up action plans that could, for example, provide a defence in law or reduce your insurance premium. The new edition reflects the changes in the global environment, the new risks that have emerged and the effect of macroeconomic factors on

business profitability and success. The author has also included a set of case studies to illustrate his ideas in practice.

Sierra Skye is an American swimsuit model and internet sensation who is mostly famous for an exotic picture on Instagram. Besides, the

dashing and gorgeous model is known for her modeling work for Boutine Los Angeles. According to a reliable source, the bikini model Sierra Skye's net worth is estimated at \$1 million as of 2020. On the other hand, Sierra Skye is one of the most lucrative bikini models in the modeling industry. Likewise, she also works for popular brands like Fashion Nova, White Fox Active, MESHKI, Plumeria Swimwear, and Gooseberry Intimates. Sierra Skye developed her career in fashion and

modeling from her tender age. Despite being passionate in fashion from an early age, she never thought of making it a career goal. Additionally, Sierra started in the modeling field by joining various social media platforms. She started uploading her exotic bikini pictures on her Instagram account in May 2015. Sierra's career peaked in the modeling industry after she met her boyfriend Roman Palumbo. Sierra's boyfriend Roman is a professional

photographer. With help from her boyfriend, Sierra received her first modeling contract with Boutine Los Angeles. After encouragement from her mother and boyfriend, she started focusing her career in modeling. Later, she signed a contract with the talent agency, Elite Model Management. Subsequently, she started working as a professional model from international fashion brands. After her impressive photoshoots, she gained huge fame as a swimsuit model. As of now, she has over 4.2

million followers on her Instagram account. Epoca Laurence King Publishing Medieval (political) communication followed rules that were defined, negotiated, and altered in processes of exchange. Conflicts resulting from different communication practices, as well as forms of innovation, revolve around rules that are not self-evident. Political actors such as princes and cities, chanceries, secretaries, ambassadors, and councillors formed rules of political

participation, which became visible in written documentation. These rules were both formed and negotiated via processes of communication (a practice-oriented understanding of political participation). Medieval chanceries can thus be understood as a vast field of experimentation where different solutions were tested, passed on, or discarded. This book explores communication practices in German, French, Italian, Tyrolian, and Gorizian chanceries,

as well as at diets from the tenth to the sixteenth century. Its chapters examine royal, monastic, princely, and communal chanceries. For the early and high Middle Ages, a close analysis of documents will reconstruct negotiation and communication from within the documents themselves. For the later Middle Ages, focus will turn to the chancery, with the appearance of chancery orders and chancery annotations that provide explicit insight in communication between

the chancellors, secretaries, and political authorities (princes or cities). The growing amount and variety of documents issued in the late Middle Ages allows us to retrace conflicts resulting from differing chancery practices as well as attempts to reorganise the chancery into a political instrument for the prince. The processes of political communication will be followed in three parts. Part I focuses on the rules within documents. Part II looks at administrative

processes within specific chanceries, while Part III explores forms of exchange between the chancery and other political actors.

"We have to recreate the  
enthusiasm that  
surrounded the SPORT  
models, ever a synonym  
for the Lancia Zagatos": in  
1991 this was the brief  
the recent graduate  
Andrea Zagato gave to

Marco Pedracini, a young  
designer who had not long  
been hired by prestigious  
coachbuilder. It was out of  
this fortuitous and  
fortunate coming together  
of this far-sighted idea  
and the enthusiasm of  
Paul Koot, a Dutch fan  
and a businessman in the  
automotive sector, that an  
icon was born, the HYENA.  
A beautiful car, but one  
practically unknown to the  
general public. A car that  
could have repeated and  
even surpassed the  
commercial and sporting  
success of the Lancia  
Delta Integrale from

which it was derived.  
Unfortunately just 24  
examples were produced  
due to the debatable  
decision taken by the  
Fiat/Lancia directors of  
the time. Following a  
rapid review of the  
evolution of the Lancia  
Delta over the year, this  
book, written by an  
enthusiastic collector,  
examines the difficult  
genesis of the Hyena,  
from the first steps with  
the publication of the very  
first (previously  
unpublished) sketches  
and numerous photos and  
then follows its

development, engineering and production through to its presentation at the car shows and in brochures. The book is completed by a comprehensive technical section, with the project list and the spare parts catalogue as well as an extensive photographic portrait of one particular example, N. 20. Lastly, all 24 Lancia Hyenas are examined, with the intention of reconstructing their specifications, their destination and the country in which they are jealously conserved by

the enthusiast and collectors who possess a precious example.

Jakou výbavu měla speciální série vozů Aston Martin, nazvaná Alfred Dunhill? Jak souvisí logo Maserati s fontánou z 16. století? Je slovo Aero spojeno jen s českou automobilkou, nebo najdeme vozy tohoto jména i v jiných částech světa? Co přesně jsou „daňové koně“? Vymysleli název Citroën Elysée Číňané? Jak ovlivnil vývoj

automobilového průmyslu fakt, že zakladatelé značek Ferrari a Lamborghini spolu nevycházeli? Ing. Jiří Fiala (publicista, automobilový historik a sběratel automobilové literatury) a doc. Petr Strossa (vědec, expert přes jazyky a dorozumívání s počítači) předkládají všem automobilovým fanatikům unikátní výkladový slovník jmen značek a jejich typů, který obsahuje hesla o přibližně 1600 značkách a více než 5000 typech a modelech. Čtenáři v knize najdou mimo jiné základní

informace o výrobcích automobilů, jejich filozofii označování typů, používání interních kódů či recyklování názvů vozů. Dozvěděl se, proč se jeden automobil prodával pod různými názvy, proč se některá jména nesměla používat nebo jakých dosáhly jednotlivé vozy sportovních úspěchů. Vůbec poprvé je u nás pak publikován systém kódů sovětských vozidel a přehled čínských značek a výrobců. Zvláštní pozornost je věnována znakům (logům) všech důležitých značek, jejich

vzniku a proměnám v čase. Celá tato speciální problematika je navíc zasazena do kontextu společenských a geopolitických událostí a okořeněná množstvím pozoruhodných historek a kuriozit souvisejících s auty, jejich jmény a výrobci.

This edited volume aims to problematise and rethink the contemporary European migrant crisis in the Central Mediterranean through the lens of the Black Mediterranean. Bringing together scholars working in geography,

political theory, sociology, and cultural studies, this volume takes the Black Mediterranean as a starting point for asking and answering a set of crucial questions about the racialized production of borders, bodies, and citizenship in contemporary Europe: what is the role of borders in controlling migrant flows from North Africa and the Middle East?; what is the place for black bodies in the Central Mediterranean context?; what is the relevance of the citizenship in

reconsidering black subjectivities in Europe? The volume will be divided into three parts. After the introduction, which will provide an overview of the theoretical framework and the individual contributions, Part I focuses on the problem of borders, Part II features essays focused on the body, and Part III is dedicated to citizenship. **The Livery Collar in Late Medieval England and Wales** Springer Why and how do companies remember

their past in terms of history and tradition? This book empirically explores the phenomenon of organizational remembrance in the German automobile company Audi AG from a cultural perspective. By dissecting the relationships between memory, identity, and image in a business setting, this study makes sense of the complex cultural forces at work in the corporate handling of the past, the present, and the future.

In this volume, thirteen of the world's leading scholars of medieval France explore some of the most important ideas, events, personalities, and artistic creations of the Capetian world (987-1328). From some of the earliest medieval attempts to make narrative treatments of French history, through

the invention of the schools, the creation of Gothic architecture, the practices of chivalry, the practice of statecraft, and the promulgation of law codes, the volume offers a panoramic view of the kingdom and the era that has come to define the medieval world in both the scholarly and popular imaginations. The scholars brought together in this volume share as well a common sense of gratitude and an intellectual debt to Elizabeth A. R. Brown, whose own rigour and

brilliance has inspired their work and shaped their sense of the past. Political Ritual and Practice in Capetian France is both a tribute to a scholar of real accomplishment and a collection of original scholarship raised upon the foundations that Elizabeth A. R. Brown herself set down.
