#### The Interface of Domestic and International Factors in India's Foreign Policy

Universal-Publishers One of the objects of the International Centre for Sheikh Mujib Studies (ICSS) is to propagate the highly enlightened political and economic philosophy of the Founding Father of the Bangladeshi Nation, and its first President, Sheikh Mujibur Rahman. Sheikh Mujib was more interested in the concrete than the abstract. He was a thinker and a man of action, and insisted that thought without action was a luxury the people of Bangladesh can ill afford. His emphasis was on Praxis. For him the supreme objective was to utilise knowledge, research, and intellectual and other scholarly tools to change the world for the better for the poor and underprivileged. He was at heart an egalitarian. He was religious, but he

believed firmly that prayer and practical action went hand in hand.

It is often only years after the commission of core international crimes that prosecutions and investigations take place. This anthology addresses challenges associated with such delayed justice: the location, treatment, and assessment of old evidence. Part I considers the topic from the perspective of different actors involved in the prosecution of core international crimes at the domestic and international levels. Part II comprises chapters focusing on the efforts of the Bangladeshi authorities to investigate and prosecute international crimes perpetrated during the 1971 war. This book brings together experienced judges, prosecutors, lawyers, scientists, and commentators who have dealt with questions of old evidence in their work. Among the contributors are Shafique Ahmed, Andrew Cayley, David Cohen,

Seena Fazel, Siri S. Frigaard, M. Amir-Ul Islam, Md. Shahinur Islam, Agnieszka Klonowiecka-Milart, Alphons M.M. Orie, Stephen J. Rapp, Patrick J. Treanor, Otto Triffterer and Martin Witteveen. The chapters describe the challenges encountered in practice and suggest concrete solutions that can be tailored to fit the circumstances of the case or country. By providing a comprehensive analysis of the relevant problems in this area and a variety of views, this anthology will serve as an invaluable resource for criminal justice actors and researchers seeking to address questions of old evidence.

Critical Appraisal of Legal Framework and Jurisprudence Routledge

The growing economic and political significance of Asia has exposed a tension in the modern international order. Despite expanding power and influence, Asian states have played a minimal role in creating the norms and institutions of international law; today they are the least likely to be parties to international agreements or to be represented in international organizations. That is changing. There is widespread scholarly and practitioner interest in international law at present in the Asia-Pacific region, as well as developments in the practice of states. The change has been driven by threats as well as opportunities.

Transnational issues such as climate change and occasional flashpoints like the territorial disputes of the South China and the East China Seas pose challenges while economic integration and the proliferation of specialized branches of law and dispute settlement mechanisms have also encouraged greater domestic implementation of international norms across Asia. These evolutions join the long-standing interest in parts of Asia (notably South Asia) in post-colonial theory and the history of international law. The Oxford Handbook of International Law in Asia and the Pacific brings together pre-eminent and emerging specialists to analyse the approach to and influence of key states of the region, as well as whether truly 'Asian' trends can be identified and what this might mean for international order.

Child soldiers remain poorly understood and inadequately protected, despite significant media attention and many policy initiatives. This Research Handbook aims to redress this troubling gap. It offers a reflective, fresh and nuanced review of the complex issue of child soldiering. The Handbook brings together scholars from six continents, diverse experiences, and a broad range of disciplines. Along the way, it unpacks the life-cycle of youth and militarization: from recruitment to demobilization to return to civilian life. The

overarching aim of the Handbook is to render the invisible visible – the contributions map the unmapped and chart new directions. Challenging prevailing assumptions and conceptions, the Research Handbook on Child Soldiers focuses on adversity but also capacity: emphasising the resilience, humanity, and potentiality of children affected (rather than 'afflicted') by armed conflict.

*Ethnic Conflict and Resolution* Oxford University Press

This book discusses the current reality and the future of ethnic Rohingyas in Myanmar. It presents Myanmar's history, policy, politics and, most importantly, while focusing on Rohingya ethnic conflict, presents a resolution by looking at the global and regional policies and politics of South Asia and South-East Asia. The recent coup unfolded in Myanmar and the detention of the democratic leaders has surprised the world with its subsequent emergency declaration in 2021, thus making this book relevant and well-timed. Eventually, the book offers an account of a previously little known, yet much-discussed role of media, international actors, human trafficking, and humanitarian-based resolution for Rohingya refugee crisis. It shows a new perspective in the post-Rohingya influx era of Bangladesh and the neighbouring countries.

Secret Documents of Intelligence Branch on Father of the Nation, Bangladesh: Bangabandhu Sheikh Mujibur Rahman, is a 14-volume set of declassified documents edited by Sheikh Hasina, Honorable Prime

Minister of Bangladesh. These are a compilation of the files maintained by the Intelligence Branch of Pakistan Government on Sheikh Mujibur Rahman, who emerged as the sole leader of the country and became Bangabandhu (Friend of Bangladesh). For his long-standing struggle and contribution in fostering notions of Bengali nationhood that led to the independence of Bangladesh, he has been honored as the Father of the Nation. The volumes provide records for period 1948 to 1971 and chronologically elucidate the trajectory of the various movements and political struggles that led to the formation of an independent nation state called People's Republic of Bangladesh. These include the 1952 Bengali Language Movement that catalyzed the assertion of Bengali national identity in the region and became a forerunner to Bengali nationalist movements. Bangabandhu Sheikh Mujibur Rahman led the struggle for independence, first through massive populist and civil disobedience movements and later during the Bangladesh Liberation War. Important events cited in the present volumes include the 1954 United Front election victory, 1966 Six Point Movement, 1968 Agartala Conspiracy Case, 1969 mass uprising, 1970 election victory and 1971 Non-Cooperation Movement among others. These are the first ever declassified documents released by the Government of Bangladesh and will serve as an invaluable historical resource in understanding the liberation of Bangladesh. This 5th volume holds records for the period 1958-1959.

**Bangladesh in Bondage** Disha Publications  
This is the first volume to comprehensively and systematically study, describe, and theorize the financial obligation created and governed by public international law. Legal globalization has given rise to a number of financial issues in international law in areas as diverse as development financing, investment protection, compensation of human rights victims, and sovereign debt crises. The claims resulting from the proliferation of financial activity are not limited to those primarily involving financial obligation (e.g. loans and grants) but include secondary

obligation resulting from the law on international responsibility. Among the many instances of financial obligation covered in this study, the reader will find inter-State financial transactions, inter-State sale of goods, transnational services such as telecommunications and post, the financial operations of multilateral institutions, loans, grants and guarantees provided by the various international financial institutions, certain financial relations between non-State actors (including natural persons) and States, intergovernmental organizations or other international legal actors, and government loans to international organizations. Rich in historical detail and systematic in its coverage of contemporary law, this book will be valued by all practitioners and scholars with an interest in the nature of international financial obligation.
