publishers of the market leading Science Focus, Pearson Science New South Wales is written to exactly match the final NSW Syllabus for the Australian Curriculum. It will not only save you time in implementing the NSW Syllabus for the Australian Curriculum, but is the only series that really engages your students. The Pearson Science series includes content and activities presented within the context of the three NSW Syllabus strands: Knowledge and Understanding, Working Scientifically and Learning Across the Curriculum. Content identified as 'Additional' in the NSW syllabus has been clearly differentiated from core content and is carefully placed in the flow of content. Extensive research and the development of a clear and fully accessible approach to content forms how the book is written.Pearson Science 9 Teacher CompanionThe Pearson Science Second Edition Teacher Companion make lesson preparation and implementation easy by combining full Student Book pages with a wealth of teacher support, to help you meet the demands of the Australian Curriculum: Science as well as the 2017 Victorian Curriculum.Pearson Mathematics 8S.BPearson Mathematics student book for Year 8 follows the Australian Curriculum for Mathematics. It has been strategically designed to attract maximum student engagement, develop a deep understanding of key concepts and skills, and to encourage inquiry and problem solving. This student book provides you with extensive material, with a collection of maths games, investigations, problem solving tasks, revision activities, practice questions and technology explorations. Additionally, a mini, re-usable whiteboard has been provided, in the back of Pearson Mathematics student book for Year 8, to help encourage active participation from your students. All exercises within the student books are split into the Australian Curriculum proficiency strands: fluency, understanding and reasoning. You'll also find open-ended questions that encourage creative maths thinking. Accuracy has been observed by this series, with experienced teachers carefully checking every question within Pearson Mathematics - up to five times!Pearson Science New South Wales 8 Activity BookThe Pearson Science New South Wales 8 Activity Book reinforces, extends and enriches learning initiated through the student book. Developed from the ground up with scientific literacy and accessibility at its core, the write-in book offers a variety of activities, learning styles and questions that are used to reinforce learning outcomes, including: clear labelling to indicate which New South Wales Syllabus areas each worksheet is covering, and a literacy review for each chapter to help students learn key terms. The Activity Book can be used for independent student work, independent classroom work, or as a complete homework program. The Pearson Science New South Wales series will not only save you time in implementing the New South Wales Syllabus for the Australian Curriculum, but it's the only series that really engages your students. The series includes content and activities presented within the context of the three New South Wales Syllabus strands: Knowledge and Understanding, Working Scientifically and Learning Across the Curriculum. Content identified as 'Additional' in the New South Wales syllabus has been clearly differentiated from core content and is carefully placed in the flow of content.Pearson Geography New South Wales Stage 4 Activity BookThe write-in Pearson Geography New South Wales Activity Books cater for a variety of learning styles, reinforcing and enriching geographical learning and skills.Pearson Science New South Wales 8 Teacher CompanionPearson Science New South Wales 8 Teacher Companion saves you time in implementing the new AC for NSW syllabus. We have done the work for the Year 7-10 New South Wales teachers by comprehensively supporting you in the Teacher Companion. Help cater for a diversity of learners with hundreds of teaching and learning strategies, as well as extension activities and support for practical activities. These learning strategies include support for student-designed investigations, additional varied skill level activities, as well as learning strategies that specifically target Learning Across the Curriculum areas, such as literacy and numeracy support. The Pearson Science NSW series will not only save you time in implementing the NSW Syllabus for the Australian Curriculum, but it's the only series that really engages your students. The series includes content and activities presented within the context of the three NSW Syllabus strands: Knowledge and Understanding, Working Scientifically and Learning Across the Curriculum. Content identified as 'Additional' in the NSW syllabus has been clearly differentiated from core content and is carefully placed in the flow of content.Pearson English 9 Second Edition Activity BookThe Second Edition of the Pearson English 9 Activity Book offers updated texts, activities, design and coverage of the Australian Curriculum: English. It caters for students of all abilities, including students with English as an Additional Language. The Pearson English Activity Books are designed to develop and consolidate students' knowledge and understanding of the English language and grammar. They integrate cumulative learning in the Language strand of the curriculum, as well as in the Literature and Literacy strands. Using the Activity Books, students develop higher order language and literacy skills. They are supported with a solid language foundation, clear explanations and scaffolded learning. Students are exposed to rich and varied literature sources and text types, including contemporary and classic texts, Australian Aboriginal storytelling and news articles. Each level of the Activity Books includes core units which offer clear Language explanations followed by scaffolded activities to use the

language in context and build on grammar, vocabulary, spelling, reading and writing skills. At the back of the book, four revision units support students in preparing for summative assessment. Teachers will also find extension activities, tests, pedagogical support, Australian Curriculum correlation charts and more online for free. Pearson Science 8

When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.

Student Book

The Pearson English series has been specifically developed to meet the content and assessment requirements of the new Australian Curriculum: English. The series has been carefully crafted by practicing teachers and has been trialled in schools to ensure that all tasks are 'classroom ready'.

Pearson English 9 Second Edition Activity Book

Recommended for primary and middle school students, Universal Science is a series of eight books that adheres to the National Curriculum Framework (2005). The books have been designed in accordance with the latest guidelines laid down by the National Council of Educational Research and Training. The series is based on extensive feedback received from teachers and education consultants experienced in teaching and interacting with students in this age group. All the books present concepts and provide exercises with the view to nurturing scientific temperament in young learners. The well-structured chapters, interspersed with interesting information and questions make learning almost effortless. Together with the activities that instill the spirit of experimentation, the detailed coverage of topics and the variety of exercises lend the textbooks the right balance between the theoretical and practical aspects of Science.

Capture evidence of your students' progress in one place with our Exploring Science International Workbooks.

Pearson Science 8
