In the tradition of Dave Barry, an irreverent look at fatherhood from a dad who truly loves his kids—even when they’re driving him nuts. “Robert Wilder’s hilarious and boldly candid essays about the realities of parenting go down like gin and tonic on a hot summer afternoon.”—People A Santa Fe dad shares heartwarming, comic, often ludicrous tales of raising a family in this laugh-out-loud book perfect for anyone who enjoys the edgy humor of David Sedaris or the whimsical commentary of Dave Barry. Waxing both profound and profane on issues close to a father’s heart—from exploding diapers to toddler tantrums, from the horrors of dressing up as Frosty the Snowman to the moments that make a father proud—Robert Wilder brilliantly captures the joys and absurdities of being a parent today. With an artist wife and two kids—a daughter, Poppy, and a son, London—Robert Wilder considers himself as open-minded as the next man. Yet even he finds himself parentally challenged when his toddler son, London, careens around the house in the buff or asks the kind of outrageous, embarrassing questions only a kid can ask. A high school teacher who sometimes refers to himself jokingly as Mister Mom (when his wife, Lala, is busy in her studio), Wilder shares warmly funny stories on everything from sleep deprivation to why school-sponsored charities can turn otherwise sane adults into blithering and begging idiots. Whether trying to conjure up the perfect baby name (“Poppy” came to his wife’s mother in a dream) or hiring a Baby Whisperer to get some much-needed sleep, Wilder offers priceless life lessons on discipline, potty training, even phallic fiddling (courtesy of young London). He describes the perils of learning to live monodextrously (doing everything with one hand while carrying your child around with the other) and the joys of watching his daughter morph into a graceful, wise, unique little person right before his eyes. By turns tender, irreverent, and hysterically funny, *Daddy Needs a Drink* is a hilarious and poignant tribute to his

family by a man who truly loves being a father.

A revealing look at stay-at-home fatherhood-for men, their families, and for American society It's a growing phenomenon among American families: fathers who cut back on paid work to focus on raising children. But what happens when dads stay home? What do stay-at-home fathers struggle with and what do they rejoice in? How does taking up the mother's traditional role affect a father's relationship with his partner, children, and extended family? And what does stay-at-home fatherhood mean for the larger society? In chapters that alternate between large-scale analysis and intimate portraits of men and their families, journalist Jeremy Adam Smith traces the complications, myths, psychology, sociology, and history of a new set of social relationships with far-reaching implications. As the American economy faces its greatest crisis since the Great Depression, Smith reveals that many mothers today have the ability to support families and fathers are no longer narrowly defined by their ability to make money-they have the capacity to be caregivers as well. The result, Smith argues, is a startling evolutionary advance in the American family, one that will help families better survive the twenty-first century. As Smith explains, stay-at-home dads represent a logical culmination of fifty years of family change, from a time when the idea of men caring for children was literally inconceivable, to a new era when at-home dads are a small but growing part of the landscape. Their numbers and cultural importance will continue to rise-and Smith argues that they must rise, as the unstable, global, creative, technological economy makes flexible gender roles both more possible and more desirable. But the stories of real people form the heart of this book: couples from every part of the country and every walk of life. They range from working class to affluent, and they are black, white, Asian, and Latino. We meet Chien, who came to Kansas City as a refugee from the Vietnam War and today takes care of a growing family; Kent, a midwestern dad who nursed his son through life-threatening disabilities (and Kent's wife, Misun, who has never doubted for a moment that breadwinning is the best thing she can do for her family); Ta-Nehisi, a writer in Harlem who sees involved fatherhood as "the ultimate service to black people"; Michael, a gay stay-at-home dad in Oakland who enjoys a profoundly loving and egalitarian partnership with his husband; and many others. Through their stories, we discover that as America has evolved and diversified, so has fatherhood. From the Trade Paperback edition.

Call Me Daddy Thomas Nelson

From the bestselling author of *The Girls* comes a “brilliant” (The New York Times) story collection exploring the dark corners of human experience. “Daddy’s ten masterful, provocative stories confirm that Cline is a staggering talent.”—Esquire NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY ENTERTAINMENT WEEKLY An absentee father collects his son from boarding school after a shocking act of violence. A nanny to a celebrity family hides out in Laurel Canyon in the aftermath of a tabloid scandal. A young woman sells her underwear to strangers. A notorious guest arrives at a placid, not-quite rehab in the Southwest. In ten remarkable stories, Emma Cline portrays moments when the ordinary is disturbed, when daily life buckles, revealing the perversity and violence pulsing under the surface. She explores characters navigating the edge, the limits of themselves and those around them: power dynamics in families, in relationships, the distance between their true and false selves. They want connection, but what they provoke is often closer to self-sabotage. What are the costs of one’s choices? Of the moments when we act, or fail to act? These complexities are at the heart of *Daddy*, Emma Cline’s sharp-eyed illumination of the contrary impulses that animate our inner lives.

From the host of the YouTube channel that went viral—Dad, How Do I?—comes a book that’s part memoir/part inspiration/part DIY. Rob Kenney’s father left him and his seven siblings when he was fourteen years old, and the youngest had to fend for themselves. He wished that he had someone who could teach him the basics—how to tie a tie, jump-start a car, unclog a drain, use tools properly—as well as succeed in life. But he and his siblings had to figure these things out on their own. Now a father himself, Rob decided that he would help people out by providing how-to tips as well as advice—and even throw in some bad dad jokes. He started a YouTube channel for anyone looking for fatherly advice, and in the course of three months, gained a following of nearly 2.5 million subscribers, with millions of views for his how-to and inspirational videos. In this book, Rob shares his story of overcoming a difficult childhood with the strength of faith and family, and offers inspiration and hope. In addition, he provides 50 practical DIY instructions (30 of which will be unique to the book), illustrated with helpful line drawings.

Rad Dad: Dispatches from the Frontiers of Fatherhood combines the best pieces from the award-winning zine Rad Dad and from the blog Daddy Dialectic, two kindred publications that have tried to explore parenting as political territory. Both of these projects have pushed the conversation around fathering beyond the safe, apolitical focus most books and websites stick to; they have not been complacent but have worked hard to create a diverse, multi-faceted space in which to grapple with the complexity of fathering. Today more than ever, fatherhood demands constant improvisation, risk, and struggle. With grace and honesty and strength, Rad Dad’s writers tackle all the issues that other parenting guides are afraid to touch: the brutalities, beauties, and politics of the birth experience, the challenges of parenting on an equal basis with mothers, the tests faced by transgendered and gay fathers, the emotions of sperm donation, and parental confrontations with war, violence, racism, and incarceration. Rad Dad is for every father out in the real world trying to parent in ways that are loving, meaningful, authentic, and ultimately revolutionary. Contributors Include: Steve Almond, Jack Amoureux, Mike Araujo, Mark Andersen, Jeff Chang, Ta-Nehisi Coates, Jeff Conant, Sky Cosby, Jason Denzin, Cory Doctorow, Craig Elliott, Chip Gagnon, Keith Hennessy, David L. Hugh O' Neill, a frequent contributor to NPR's "Morning Edition", offers a collection of nearly 40 stories in which he expounds upon the joyful (and not-so-joyful) times of fatherhood. Written in the same tradition as the clever and humorous books of Dave Barry and Erma Bombeck, this book will make a wonderful gift for Father's Day or to celebrate the birth of a child.

After Eric Davis spent over 16 years in the military, including a decade in the SEAL Teams, his family was more than used to his absence on deployments and secret missions that could obscure his whereabouts for months at a time. Without a father figure in his own life since the age of fifteen, Eric was desperate to maintain the bonds he'd fought so hard to forge when his children were young—particularly with his son, Jason, because he knew how difficult it was to face the challenge of becoming a man on one’s own. Unfortunately, Eric learned the hard way that Quality Time

doesn’t always show up in Quantity Time. Facebook, television, phones, video games, school, jobs, friends—they all got in the way of a real, meaningful father-son relationship. It was time to take action. As a SEAL, Eric learned to innovate and push boundaries, allowing him to function at levels beyond what was expected, comfortable, ordinary, and even imaginable, and he knew that as a father he needed to do the same with his son. Meeting extreme with extreme was the only answer. Using a unique blend of discipline, leadership, adventure, and grace, Eric and his SEAL brothers will teach you how to connect, and reconnect, with your sons and learn how to raise real men—the Navy SEAL way.

Ever Feel Like Your Son Is From a Different Planet? Don't worry, Mom. There's a good reason why your son perplexes you. He's the OPPOSITE sex!

Boys really do think, communicate, and process the world differently than girls. But no matter your son's age, he needs you, and he needs you in not-so-apparent ways. Drawing from her own experiences, as well as those from moms and sons from around the country, Cheri Fuller shares what makes boys and young men tick and how to become a more welcome influence at every stage in their lives. She answers all the top questions, including:

"How can I help my son (and me!) deal with his emotions in a healthy way?" "School is such a struggle. How can I help him?" "Our personalities are SO different. How can we get on the same page?" "My son hardly says a thing. What can I do?" "What are the best ways to instill good values?" "How can I encourage a lasting faith in God?" With page after page of use-it-today advice and encouraging stories, this book will help you steer your son toward becoming a caring, confident young man. Includes Reflection Questions for Personal or Group Use Great for understanding grandsons, too! "Some mother-son relationships seem to add credence to the adage that 'men are from Mars, women are from Venus.' Even mothers who have a close bond with their sons may think they harbor a complete stranger when their male offspring reach puberty. Fuller is a speaker and author, as well as mother of three (two boys and a girl) and grandmother of six. She lists specific activities that all sons need from their mothers, such as encouragement, communication, prayer, and confidence-building. She adds questions at each chapter's end to 'ponder, journal or discuss,' lending the book to both individual and group study. Recommended for the parenting section of any church library." --Church Libraries

There is a cause that has the power to change the course of society, heal the ills of our communities and determine the future of our very existence. It is a cause of great significance, but the importance of its relevance has been weakened by the prison system, capitalism, social genocide, irresponsibility and absenteeism. Yet the power of this cause remains unmatched, unmistakable and irreplaceable with the positive effects of this cause on society being absolute and irrefutable. With that being said, I am honored and grateful to share my thoughts on this most important cause. We who call ourselves men must recommit and realign ourselves to this endeavor, for it is the only real answer to some specific societal illnesses. That cause is fatherhood, and its effect is life-saving.

Inspired by his family experiences and his parents' paintings, a young boy creates four poems. In four vibrant verses and spectacular oil paintings, a young boy revels in the everyday pleasures of growing up in a family of fine artists. A still life of shoes inspires Noah to measure his own little ones against the big ones of his father. The whirl of an abstract painting encourages him to spin with his older sister. The moon outside his window is the same one that glows on his mother’s canvas. But the subject that brings out the best in Noah -- and inspires his daddy to call him a man -- has her crib right there in his parents' studio. With its bold colors and arresting perspectives, this book is a celebration of art and an exaltation of family.
