JADA WOOD

Shatter City Simon and Schuster

The first two novels of Scott Westerfeld's New York Times bestselling series—a global phenomenon that started the dystopian trend—now available in one edition. Tally can't wait to turn sixteen. Only then will she be able to have an operation to turn her from a repellant ugly into a stunningly attractive pretty and live in New Pretty Town—a high-tech paradise where her only job will be to have fun. But when Tally finally becomes pretty, everything isn't as perfect as it seems. Underneath all the beauty and luxury is a nagging sense that something is wrong. Very wrong. Searching for the truth, Tally discovers a whole new side of the pretty world—and it isn't very pretty. Now Tally has a choice to make: fight to forget what she knows or fight for her life.

SO YESTERDAY

Delacorte Press

Reprint.

THE LUCK UGLIES

Penguin

The second installment of Scott Westerfeld's New York Times bestselling and award-winning Uglies series—a global phenomenon that started the dystopian trend. Tally has finally become pretty. Now her looks are beyond perfect, her clothes are awesome, her boyfriend is totally hot, and she's completely popular. It's everything she's ever wanted. But beneath all the fun—the nonstop parties, the high-tech luxury, the total freedom—is a nagging sense that something's wrong. Something important. Then a message from Tally's ugly past arrives. Reading it, Tally remembers what's wrong with pretty life, and the fun stops cold. Now she has to choose between fighting to forget what she knows and fighting for her life—because the authorities don't intend to let anyone with this information survive.

The Last Book in the Universe Penguin

The danger rises and the deception grows in the heart-stopping third book in the New York Times bestselling Impostors series! Frey's return to the city of her birth isn't going to be an easy one. She and her love Col must surge on new faces and bodies in order to infiltrate Shreve by dropping from the sky and landing undetected. Frey's sister Rafi -- no longer a twin in features, but still a twin by birth -- is the wild card. Are the sisters on the same side . . . or are they playing to their own agendas? If their father is deposed from Shreve, who will take control? And what other forces may be waiting in the wings? Mirror's Edge is another

brilliant blockbuster from one of the greatest speculative writers YA fiction has ever seen, set within the world of *Uglies* . . . and about to converge with *Uglies* in a spectacular way.

[Youngbloods](#) Simon and Schuster

Sixteen-year-old Thomas wakes up with no memory in the middle of a maze and realizes he must work with the community in which he finds himself if he is to escape.

Miles Morales: Spider-Man Simon and Schuster

The Chosen introduces the first book in the Contender trilogy, an epic young adult fantasy from Taran Matharu, author of the New York Times–bestselling *Summoner* series. Throughout history, people have vanished with no explanation. A group of teenagers are about to discover why. Cade is settling into a new boarding school, contemplating his future, when he finds himself transported to another realm. He soon discovers their new world is populated with lost remnants from the past: prehistoric creatures, ancient relics, and stranger still—people. Overwhelmed by his new surroundings, Cade has little time to adjust, for soon he and his fellow classmates are forced to become contenders in a brutal game, controlled by mysterious overlords. But who are these beings and why did they choose these teens? Cade must prepare for battle . . . because hiding is not an option. Fans of fantasy and LitRPG will welcome this new character and world from the author of the *Summoner* series.

[Uglies](#) Kate Daniels

The complete New York Times bestselling *Uglies* series is available as a collectible boxed set. The future isn't far away. In Tally Youngblood's world, looks matter. She lives in a society created to function with perfect-looking people who never have a chance to think for themselves. And she's tired of it. First as an ugly, then a pretty, and finally a special, Tally takes down the social infrastructure. And then, a generation later, a world obsessed with fame and instant celebrity—and filled with extras—will reap the consequences. This collectible boxed set contains the complete *Uglies* series: *Uglies*, *Pretties*, *Specials*, and *Extras*.

SPILL ZONE BOOK 2

Columbia University Press

This fast-paced action novel is set in a future where the world has been almost destroyed. Like the award-winning novel *Freak the Mighty*, this is *Philbrick* at his very best. It's the story of an epileptic teenager nicknamed Spaz, who begins the heroic fight to bring human intelligence back to the planet. In a world where most people are plugged into brain-drain entertainment systems, Spaz is the rare human being who can see life as it really is. When he meets an old man called Ryter, he begins to learn about Earth and its past. With Ryter as his companion, Spaz sets off an unlikely quest to save his dying sister -- and in the process, perhaps the world.

UGLY'S ELECTRICAL DESK REFERENCE

Scholastic UK

There are the acknowledged classics of world literature: the canonical works assigned in schools, topping every must-read list . . . and then there are the B-Sides. These are the books that slipped through the cracks, went unread, missed their rightful appointment with posterity. They were ahead of their times or behind their times or on a whole different schedule than the rest of the universe. What do you do when a book that you love has been neglected or dismissed by everyone else? In *B-Side Books*, leading writers, critics, and scholars show why their favorite forgotten books deserve a new audience. From dusty westerns and far-out science fiction to obscure Czech novelists and romance-novel precursors, the contributors advocate for the

unsung virtues of overlooked books. They write about unheralded novels, poetry collections, memoirs, and more with understanding, respect, passion, and love. In these thoughtful, often personal essays, contributors—including Stephanie Burt, Caleb Crain, Merve Emre, Ursula K. Le Guin, Carlo Rotella, and Namwali Serpell—read books by writers such as Helen DeWitt, Shirley Jackson, Stanislaw Lem, Dambudzo Marechera, Paule Marshall, and Charles Portis.

[Uglies & Pretties](#) Routledge

"Special Circumstances" - These words have sent chills down Tally's spine since her days as a rebellious Ugly. Back then Specials were a sinister rumour - frighteningly beautiful, dangerously strong, breathtakingly fast. Ordinary pretties might live their whole lives without meeting a Special. But Tally's never been ordinary... Now she's been turned into one of them: a superamped fighting machine, engineered to keep the Uglies down and the Pretties stupid. The strength, the speed, and the clarity and focus of her thinking feel better than anything Tally can remember... most of the time. One tiny corner of her heart still remembers something more. Still, it's easy to tune that out - until Tally's offered a chance to stamp out the rebels of the New Smoke permanently. It all comes down to one last choice: carry out the mission she's programmed to complete, or listen to that tiny, faint heartbeat telling her that something's wrong... Either way, Tally's world will never be the same.
