WOMEN AND THE GREAT WAR

The Years of Alienation in Italy

This book continues the editors' work (started in the volume "Masters of Political Science") of highlighting and re-evaluating the contributions of the most important political scientists who have gone before. Its basis is the belief that the future development and sophistication of the discipline will benefit from a critical understanding of the works of early political "giants" whose contributions are presented and analysed: Gabriel A. Almond, Raymond Aron, Philip Converse, Maurice Duverger, Stanley Hoffmann, Paul Lazarsfeld, Arend Lijphart, Elinor Ostrom, William H. Riker, Stein Rokkan and Susan Strange. The editors review and consider the contributions of these maestri to the study of contemporary democracy, political culture, electoral systems, political communication, the transformation of capitalism and state formation in Europe. *Maestri of Political Science* is aimed not only at a new generation of political scientists but is a valuable opportunity for established scholars to see new light through old windows. Also available: *Masters of Political Science Volume 1*, ISBN: 978-0-9558203-3-5

John of Garland's *Parisiانا poetria*, first published about 1220, expounds medieval poetic theory and summarizes contemporary thought about writing. The long account of rhymed poetry included here is the most complete that has survived. This volume presents the most authoritative edition of the Latin text alongside a fresh English translation.

Working in 1970s Italy, a group of artists—namely Ugo La Pietra, Maurizio Nannucci, Francesco Somaini, Mauro Staccioli, Franco Summa, and Franco Vaccari—sought new spaces to create and exhibit art. Looking beyond the gallery, they generated sculptural, conceptual, and participatory interventions, called *Arte Ambientale* (Environmental Art), situated in the city streets. Their experiments emerged at a time of cultural crisis, when fierce domestic terrorism aggravated an already fragile political situation. To confront the malaise, these artists embraced a position of artistic autonomy and social critique, democratically connecting the city's inhabitants through direct art practices.

GIORNALE DELLA LIBRERIA

Haynes Publishing UK

For more than 120 years (1714-1837) Great Britain was linked to the German Electorate, later Kingdom, of Hanover through Personal Union. This made Britain a continental European state in

many respects, and diluted her sense of insular apartness. The geopolitical focus of Britain was now as much on Germany, on the Elbe and the Weser as it was on the Channel or overseas. At the same time, the Hanoverian connection was a major and highly controversial factor in British high politics and popular political debate. This volume was the first systematically to explore the subject by a team of experts drawn from the UK, US and Germany. They integrate the burgeoning specialist literature on aspects of the Personal Union into the broader history of eighteenth- and early nineteenth-century Britain. Never before had the impact of the Hanoverian connection on British politics, monarchy and the public sphere, been so thoroughly investigated.

The Years of Alienation in Italy offers an interdisciplinary overview of the socio-political, psychological, philosophical, and cultural meanings that the notion of alienation took on in Italy between the 1960s and the 1970s. It addresses alienation as a social condition of estrangement caused by the capitalist system, a pathological state of the mind and an ontological condition of subjectivity. Contributors to the edited volume explore the pervasive influence this multifarious concept had on literature, cinema, architecture, and photography in Italy. The collection also theoretically reassesses the notion of alienation from a novel perspective, employing Italy as a paradigmatic case study in its pioneering role in the revolution of mental health care and factory work during these two decades.

Carlo Abarth was a performance tuning maestro. He created and modified the small displacement Italian cars of the times, adding his own tuned exhausts, cylinder heads and other components. The results were championship-winning racers and street cars. The *Abarth Buyer's Guide* tells the story of all the Abarth cars, including the earliest Cisitalia's, Fiats, Simcas, the Zagato and Bialbero cars, Porsche Abarth Carrera, Lancias, formula cars, record-setters and the sports racers. The book is built on an impressive archive of historical photographs, many of them rare original Abarth factory pictures. The detailed text chronicles the development history of Abarth, including specifications, restoration and authenticity notes, and the *Buyer's Guide* star investment ratings. Author Peter Vack is an Abarth enthusiast of long standing, and he writes of the cars with passion and experience. Over a period of 13 years, the *Abarth Buyer's Guide* has proven to be a very dependable and useful book for those interested in Abarth cars. Now in its third printing, it remains one of the best and most comprehensive Abarth books ever written. Of that we are proud. We hope that it will continue to encourage others to do further research and create enthusiasm for the restoration of all Abarths. *A Practical Treatise on Gas-light* Veloce Enterprises Incorporated

Unlike conventional grammars, it gives special attention to those areas of vocabulary and grammar which cause most difficulty to English-speakers. Careful consideration is given throughout to questions of style, register, and politeness which are essential to achieving an appropriate level of formality or informality in writing and speech. It surveys the contemporary linguistic scene in Italy and gives ample space to the new varieties of Italian that are emerging in modern Italy. The influence of the dialects in shaping the development of Italian is also acknowledged. Clear, readable and easy to consult via its two indexes, this is an essential reference for learners seeking access to the finer nuances of the Italian language.
