The Trojan War is the foundation of Greek history. If Greek historians had little doubt of its existence they remained extremely sceptical regarding its mythological origin.

Archaeology has confirmed one essential point: there was indeed a general conflagration in the Greek world around 1200 BCE, the assumed period of that war, which caused the disappearance of two powerful empires: Mycenaean on one hand and Hittite with its vassals on the other hand. The inscriptions of Ramses III's year 8 describe actually a general invasion of the Mediterranean by the "Sea Peoples". A precise chronological reconstruction shows that there was a confrontation between a Greek heterogeneous confederation, consisting of pirates, and a set of vassal kingdoms of the Hittite empire, such as Troy and Ugarit, which ended with their complete mutual destruction in 1185 BCE, the climax of the Trojan War. This conclusion was already that of Eratosthenes.

This paper examines the causes, processes, and outcomes of Belize's 2016-17 sovereign debt restructuring—its third episode in last 10 years. As was the case in the earlier two restructurings, in 2006-07 and in 2012-13, the 2016-17 debt restructuring was executed through collaborative engagement with creditors outside an IMF-supported program. While providing liquidity relief and partially addressing long-term debt sustainability concerns, the restructuring will need to be underpinned by ambitious fiscal consolidation and growth-enhancing structural reforms to secure durable gains.

The world has never seen such a huge business opportunity for which they have so little understanding of how to address it. Many entrepreneurs have, more or less seriously, dreamt of being able to sell just one product to every single Chinese. That dream is now quickly turning into a possibility for many hotels, restaurants, shops and attractions. As of 2012. Chinese tourists are the largest group of travellers in the world. Unfortunately, understanding of the needs that these Chinese tourists have is exceptionally poor. What do they want to eat, do or buy? Where do they want to stay, and what places do they want to visit? All these differ radically from the needs of other tourists. In this book, we will take you through what is different and why it is so. In the book, we will also offer ideas on how to easily shift your offering to match what Chinese tourists want. We will also provide plenty of examples on what others have done to attract their business -- since, naturally, many have already invested heavily to do this. So yes, competition for Chinese tourists has undoubtedly begun, but an equally vital investment for winning

this fight is understanding. What do you know about their needs? INGEMAR FREDRIKSSON has 30+ years experience in top management, business development, profitability development and marketing. Among the world's myriad cultures and their associated calendars, the idea of a "New Year" is relative and hardly specifies a universal celebration or even a universal point in time. Ways of celebrating the New Year range from the observances of religious rituals and superstitions to social gatherings featuring particular foods, music, dancing, noisemaking, fireworks and

drinking. This first encyclopedia devoted exclusively to the New Year includes 320 entries that give a global perspective on the New Year, beyond its traditional Western associations with Christmas. National or regional entries detail the principal traditions and customs of 130 countries, while 27 entries discuss major calendar systems in current use or of significant historical interest. The remaining entries cover a wide variety of subjects including literary works, movies, and television specials; the customs of specific ethnic groups; universal customs such as toasting and drinking; football bowl games and parades; and the New Year celebrations at the White House and the Vatican.

Amulets and talismans have always been used for protection against enemies and the evil eye, to attract love and to cast spells of all kinds. This remarkable work - both scholarly and highly readable - contains the original texts with translations and descriptions of key Egyptian, Sumerian, Assyrian, Hebrew, Christian, Gnostic and Muslim amulets and magical devices and figures. In the past twenty years, work on the local culture of central Hunan has been one of the most exciting sources for rethinking the nature and variety of Chinese local society. At the heart of this society is a kind of statuary found nowhere else in China--sculpted images of local people, primarily religious specialists of a wide range, but also parents and ancestors who, according to Confucian orthodoxy, should be represented by tablets, not statues. While the consecration ceremonies of these statues include rites that are common to all China, they are embedded in unique local ritual traditions. Based on two decades of international collaborative research, Alain Arrault focuses on some 4,000 of these statues and studies them on the basis of consecration certificates inserted in the statues, the earliest of which date to the sixteenth century.

The Lucky Loadmaster is an action packed book. It does not matter whether you are with the airmen in Vietnam, the first night of TET or just reading about the author's hair raising childhood adventures. Sometimes growing up and learning defensive moves in a small middle North Carolina town can be interesting. For the first time, a book written that is about the honest daily occurrences and multiple battles of a real airman in Vietnam. These were battles like others, in which people died and others became heroes. Battles in which crews looked death in the face multiple times each day, flying into places without the security of arms or cover, the stress of actual war. Tom Stalvey's wishes to enlist and study at the great Air Force electronics schools at the time, did not come to pass, instead he was assigned to the very élite and extremely dangerous rolls of an enlisted aircrew member. The courses these young men completed were at the considered complete college courses equal to obtaining a degree in a matter of months. The duty aboard the Lockheed C-130 Hercules as a Weight and balance Technician or Loadmaster was and still is essential. He was

destined to end up in Vietnam. after two and a half years of training and protocol Only a slight recess was given these airmen as these young men were handed the keys to three fourths of a C-130 aircraft. Most of them averaged 22 years of age. Trained at doing their jobs by the book they soon learned that doing so in Vietnam could cost time and lives. Great at modifying plans on the run, many were awarded our nation's highest war time decorations. Laugh out loud as you follow a young boy into what must have been The start of The Lucky Loadmaster's ironic heavenly inspired protection and cry for the pain of his broken body!

"Love and lust can arrive at the same time and often do. Things can get super confusing. As a teen, I was driven largely by lust, but I was trying to focus on true love." Riya and Rehan didn't care for anyone after falling in love. They were on a rollercoaster without the seatbelt. They didn't care for highs and lows. They knew that they could be thrown out, trampled beneath the wheels or thrown up into the heavens. They loved and married against their parents' wishes. But the real problem began after two years when Rehan admitted himself in a hospital. Riya lost Rehan and struggled a lot. But that made her know the

importance of parents and the difference between love and marriage.

Calendars were at the heart of ancient culture and society, and were far more than just technical, time-keeping devices. *Calendars in Antiquity* offers a comprehensive study of the calendars of ancient Mesopotamia, Egypt, Persia, Greece, Rome, Gaul, and all other parts of the Mediterranean and the Near East, from the origins up to and including Jewish and Christian calendars in late Antiquity. In this volume, Stern sheds light on the political context in which ancient calendars were designed and managed. Set and controlled by political rulers, calendars served as expressions of political power, as mechanisms of social control, and sometimes as assertions of political independence, or even of sub-culture and dissidence. While ancient calendars varied widely, they all shared a common history, evolving on the whole from flexible, lunar calendars to fixed, solar schemes. The Egyptian calendar played an important role in this process, leading most notably to the institution of the Julian calendar in Rome, the forerunner of our modern Gregorian calendar. Stern argues that this common, evolutionary trajectory was not the result of scientific or technical progress. It was rather the result of major political and social changes that transformed the ancient world, with the formation of the great Near Eastern empires and then the Hellenistic and Roman Empires from the first millennium BC to late Antiquity. The institution of standard, fixed calendars served the administrative needs of these great empires but also contributed to their cultural cohesion.
