Argument and Persuasion in Descartes' Meditations

Cambridge University Press
 Rene Descartes is generally accepted as the "father of modern philosophy", and his Meditations is perhaps the most famous philosophical text ever written. In this Routledge

Philosophy GuideBook, Gary Hatfield guides the reader through the text of the Meditations, providing commentary and analysis throughout. He assesses Descartes' importance in the history of philosophy and his continuing relevance to contemporary thought. Descartes and the Meditations will be essential reading for all students of philosophy, and for anyone

coming to Descartes for the first time. Shinto Meditations for Revering the Earth Council Oaks Distribution 'A leader's ability to achieve anything great for God begins in his or her heart and mind.' —John C. Maxwell
 Effective leadership starts with healthy, clear thinking. Successful leaders know how to focus on the essentials. Best-selling author and leadership specialist John

C. Maxwell shares meditations sure to challenge us as leaders to reach our full potential as servants of God. In this 30th anniversary edition of his very first book, we learn that 'our ability to achieve anything great for God begins in our hearts and minds.' Ready for a change of heart? Ready to be transformed by the renewing of your mind? Increase your effectiveness

as both leader and servant as you 'think on these things. **Descartes' Meditations** Cosimo, Inc. Material Falsity and Error in Descartes's Meditations approaches Descartes's Meditations as an intellectual journey, wherein Descartes's views develop and change as he makes new discoveries about self, God and matter. The first book to focus closely on Descartes's notion of material falsity, it

shows how Descartes's account of material falsity - and correspondingly his account of crucial notions such as truth, falsehood and error - evolves according to the epistemic advances in the Meditations. It also offers important new insights on the crucial role of Descartes's Third Meditation discussion of material falsity in advancing many subsequent arguments in the

<p>Meditations. This book is essential reading for those working on Descartes and early modern philosophy. It presents an independent reading on issues of perennial interest, such as Descartes's views on error, truth and falsehood. It also makes important contributions to topics that have been the focus of much recent scholarship, such as Descartes's ethics and his theodicy. Those working</p>	<p>on the interface between medieval and modern philosophy will find the discussions on Descartes's debt to predecessors like Suárez and Augustine invaluable. <i>Meditations on First Philosophy</i> Routledge Consisting of twelve newly commissioned essays and enhanced by William Molyneux's famous early translation of the <i>Meditations</i>, this volume touches on all the major</p>	<p>themes of one of the most influential texts in the history of philosophy. Situates the <i>Meditations</i> in its philosophical and historical context. Touches on all of the major themes of the <i>Meditations</i>, including the mind-body relation, the nature of the mind, and the existence of the material world. <i>The preciousness of Christ; or, Meditations, in the person and work of ... Descartes'

Meditations on

First

Philosophy

has proven to

be not only

one of the

canonical

texts of

Western

philosophy,

but also the

site of a great

deal of

interpretive

activity in

scholarship on

the history of

early modern

philosophy

over the last

two decades.

David

Cunning's

monograph

proposes a

new

interpretation,

which is that

from

beginning to

end the

reasoning of

the

Meditations is

the first-

person

reasoning of a

thinker who

starts from a

confused non-

Cartesian

paradigm and

moves slowly

and

awkwardly

toward a

grasp of just a

few of the

central theses

of Descartes'

system. The

meditator of

the

Meditations is

not a full-

blown

Cartesian at

the start or

middle or

even the end of inquiry, and accordingly the Meditations is riddled with confusions throughout. Cunning argues that Descartes is trying to capture the kind of reasoning that a non-Cartesian would have to engage in to make the relevant epistemic progress, and that the Meditations rhetorically models that reasoning. He proposes that Descartes is reflecting on what happens

in philosophical inquiry: we are unclear about something, we roam about using our existing concepts and intuitions, we abandon or revise some of these, and then eventually we come to see a result as clear that we did not see as clear before. Thus Cunning's fundamental insight is that Descartes is a teacher, and the reader a student. With that reading in mind, a significant

number of the interpretive problems that arise in the Descartes literature dissolve when we make a distinction between the Cartesian and non-Cartesian elements of the Meditations, and a better understanding of surrounding texts is achieved as well. This important volume will be of great interest to scholars of early modern philosophy.

The offerings are primarily short, instructive messages that are anchored by a scripture or a song that speaks to the inner thought world. It is hoped that this book will aid those who have found	great benefit in using a bit of time each day to be alone with their thoughts, in their own space and without distraction from the many things that seek their attention.
