The purpose of this book is to provide a basic understanding of the aerodynamics involved in designing an ultra-streamlined land vehicle. It describes many of the important design goals and parameters for producing a low-drag body. It is designed to be a how-to manual for the budding ground-up solar car and ultralight vehicle constructor, as well as the solar/electric/ultralight vehicle enthusiast.

Autocar Ashgate Publishing, Ltd.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.
