Credit Analysis and Lending Management is a new Australasian text that focuses on the core lending functions of financial institutions, covering asset management, credit risk assessment and analysis, lending policy formulation and management, and the rise of new product development and marketing in the financial services sector. The value of any financial institution is measured by its ability to effectively manage and reduce its credit risk. This text details the structure of the credit organisation, including loan markets. Relevant financial statements are presented to develop students' interpretative and analytical understanding of financial statements. Features: * Developments in loan marketing and new loan products are profiled and assessed (see chapter 17.) * Problem loan management is discussed as a growing professional issue (see chapter 16). * Detailed case studies at the end of the text present a diverse set of professional scenarios that can be used for assignment, assessment and group work activities. * 'Industry insight' boxes profile current professional issues and identify industry developments. * 'A day in the life of...' boxes highlight the diversity of professional roles in the banking industry.

Curriculum design options cover a continuum from regional and school-based programs to national and international frameworks. How does policy speak to practice? What have teacher-researchers discovered through in-classroom studies? Where do you begin to describe or measure 'effective' language education curriculum design? The Routledge Handbook of Language Education

Curriculum Design presents a comprehensive collection of essays on these issues by 31 established practitioners and new researchers. Informed by experienced scholarship and fresh studies, this handbook shares international perspectives on language education from policy and curriculum to teacher training and future directions. The handbook addresses language education curriculum design across five sections: Language curriculum design: perspectives, policies and practices Designs across the curriculum Curriculum designs in language education Curriculum resources, evaluation and assessment Teacher education, research and future projects With contributions from Australia, Brazil, Indonesia, Switzerland, Timor-Leste and more, the handbook represents the breadth of research into and the global implications for sound language education curriculum design. It considers equally the needs of students and policy makers from urban metropolises and remote communities. It is designed to reinvigorate discussions about education policy, curriculum management and the role of teacher-researchers.

Topology is a branch of pure mathematics that deals with the abstract relationships found in geometry and analysis. Written with the mature student in mind, *Foundations of Topology, Second Edition*, provides a user-friendly, clear, and concise introduction to this fascinating area of mathematics. The author introduces topics that are well-motivated with thorough proofs, that make them easy to follow. Historical comments are dispersed throughout the text, and exercises, varying in degree of difficulty, are found at the end of each chapter. *Foundations of Topology* is an excellent text for teaching students how to develop the skills for writing clear and precise proofs. *Sitxccc303*
