A groundbreaking parenting guidebook addressing the trait of “high sensitivity” in children, from the psychologist and bestselling author of *The Highly Sensitive Person* whose books have sold more than 1 million copies With the publication of *The Highly Sensitive Person*, pioneering psychotherapist Dr. Elaine Aron became the first person to identify the inborn trait of “high sensitivity” and to show how it affects the lives of those who possess it. In *The Highly Sensitive Child*, Dr. Aron shifts her focus to the 15 to 20 percent of children who are born highly sensitive—deeply reflective, sensitive to the subtle, and easily overwhelmed. These qualities can

make for smart, conscientious, creative children, but also may result in shyness, fussiness, or acting out. As Dr. Aron shows in *The Highly Sensitive Child*, if your child seems overly inhibited, particular, or you worry that they may have a neurodevelopmental disorder, such as ADHD or autism, they may simply be highly sensitive. And raised with proper understanding and care, highly sensitive children can grow up to be happy, healthy, well-adjusted adults. Rooted in Dr. Aron's years of experience working with highly sensitive children and their families, as well as in her original research on child temperament, *The Highly Sensitive Child* explores the challenges of raising an HSC; the four keys to successfully parenting an HSC; how to help HSCs thrive in a not-so-sensitive world; and how to make school and friendships enjoyable. With chapters addressing the needs of specific age groups, from newborns to teens, *The Highly Sensitive Child* is the ultimate resource for parents, teachers, and the sensitive children in their lives.

Traditions in World Cinema Bloomsbury Publishing

An enormously entertaining account of the gifted and eccentric directors who gave us the golden age of modern horror in the 1970s, bringing a new brand of politics and gritty realism to the genre. Much has been written about the storied New Hollywood of the 1970s, but at the same time as Martin Scorsese, Steven Spielberg, and Francis Ford Coppola were making their first classic movies, a parallel universe of directors gave birth to the modern horror film-aggressive, raw, and utterly original. Based on unprecedented access to the genre's major players, *The New York Times's* critic Jason Zinoman's *Shock Value* delivers the first definitive account of horror's golden age. By the late 1960s, horror was stuck in the past, confined mostly to drive-in theaters and exploitation houses, and shunned by critics. *Shock Value* tells the unlikely story of how the much-disparaged horror film became an ambitious art form while also conquering the multiplex. Directors such as Wes Craven, Roman Polanski, John Carpenter, and Brian De Palma—counterculture types operating largely outside the confines of Hollywood—revolutionized the genre,

exploding taboos and bringing a gritty aesthetic, confrontational style, and political edge to horror. Zinoman recounts how these directors produced such classics as *Rosemary's Baby*, *Carrie*, *The Texas Chainsaw Massacre*, and *Halloween*, creating a template for horror that has been imitated relentlessly but whose originality has rarely been matched. This new kind of film dispensed with the old vampires and werewolves and instead assaulted audiences with portraits of serial killers, the dark side of suburbia, and a brand of nihilistic violence that had never been seen before. *Shock Value* tells the improbable stories behind the making of these movies, which were often directed by obsessive and insecure young men working on shoestring budgets, were funded by sketchy investors, and starred porn stars. But once *The Exorcist* became the highest grossing film in America, Hollywood took notice. The classic horror films of the 1970s have now spawned a billion-dollar industry, but they have also penetrated deep into the American consciousness. Quite literally, Zinoman reveals, these movies have taught us what to be afraid of. Drawing on interviews with hundreds of the most important artists in horror, *Shock Value* is an enthralling and personality-driven account of an overlooked but hugely influential golden age in American film. How to Survive a Horror Movie B.E.S. Publishing

Examining the popularity of low-budget cinema, particularly slasher, occult, and rape-revenge films, the author argues that, while such films have been traditionally understood as offering only sadistic pleasure to their mostly male audiences, in actuality they align spectators not with the male tormentor but with the females being tormented--particularly the slasher movie's "final girls"-Who endure fear and degradation before rising to save themselves.--Adapted from publisher description.

Winner of the Bram Stoker Award for Best Novel In her quickly gentrifying rural lake town Jade sees recent events only her encyclopedic knowledge of horror films could have prepared her for in this latest chilling novel that “will give you nightmares. The good kind, of course” (BuzzFeed) from the Jordan Peele of horror literature, Stephen Graham Jones. “Some girls just don’t know how to die...” Shirley Jackson meets Friday the 13th in My Heart Is a Chainsaw, written by the New York Times bestselling author of The Only Good Indians Stephen Graham Jones, called “a literary master” by National Book Award winner Tananarive Due and “one of our most talented living writers” by Tommy Orange. Alma Katsu calls My Heart Is a Chainsaw “a homage to slasher films that also manages to defy and transcend genre.” On the surface is a story of murder in small-town America. But beneath is its beating heart: a biting critique of American colonialism, Indigenous displacement, and gentrification, and a heartbreaking portrait of a broken young girl who uses horror movies to cope with the horror of her own life. Jade Daniels is an angry, half-Indian outcast with an abusive father, an absent mother, and an entire town that wants nothing to do with her. She lives in her own world, a world in which protection comes from an unusual source: horror movies...especially the ones where a masked killer seeks revenge on a world that wronged them. And Jade narrates the quirky history of Proofrock as if it is one of those movies. But when blood actually starts to spill into the waters of Indian Lake, she pulls us into her dizzying, encyclopedic mind of blood and masked murderers, and predicts exactly how the plot will unfold. Yet, even as Jade drags us into her dark fever dream, a surprising and intimate portrait emerges...a portrait of the scared and traumatized little girl beneath the Jason Voorhees mask: angry, yes, but also a girl

who easily cries, fiercely loves, and desperately wants a home. A girl whose feelings are too big for her body. My Heart Is a Chainsaw is her story, her homage to horror and revenge and triumph.
