The approach, developed by Kurt Lewin, is a significant contribution to the fields of social science, psychology, social psychology, organizational development, process management, and change management. His theory was expanded by John R. P. French who related it to organizational and industrial settings. Kurt Lewin - Wikipedia  
Kurt Lewin, author of over 80 articles and eight books on a wide range of issues in psychology is recognised as the founding father of modern social psychology. He was a seminal theorist who deepened the understanding of groups, experiential learning, and action research. Through his pioneering use of Theorists - Kurt Lewin « Organisation Development Born on the 9th September 1890, Kurt Lewin was a profoundly influential figure within the field of social psychology. Lewin was instrumental in demonstrating that experiments on groups could be conducted under precisely controlled conditions and in doing so pioneered the scientific study of group dynamics. Kurt Lewin - Psychology Building on the foundational works of Kurt Lewin, John Dewey and others, experiential learning theory offers a

<p>dynamic theory based on a learning cycle driven by the resolution of the dual dialectics of action/reflecti on and experience/ab straction. Expe riential Learning Theory - Experience Based Learning ...by Ross A. Wirth, Ph.D. (2004) Kurt Lewin theorized a three-stage model of change that has come to be known as the unfreezing-change-refreeze model that</p>	<p>requires prior learning to be rejected and replaced. Edgar Schein provided further detail for a more comprehensiv e model of change calling this approach “cognitive redefinition.” Building on the foundational works of Kurt Lewin, John Dewey and others, experiential learning theory offers a dynamic theory based on a learning cycle driven by the resolution of the dual dialectics of</p>	<p>action/reflecti on and experience/ab straction. <i>The Lewin Center</i> Although commonly referred to as the Kolb Learning Cycle this cycle was proposed by Kurt Lewin who got the idea from control engineering.
