The Wisdom Books: Job, Proverbs, and Ecclesiastes: A Translation with Commentary Oxford University Press

Academic Writing for Military Personnel is written for members of the military who are either new to or re-entering the academic community and who need to familiarize themselves with

academic writing. The authors, an experienced writing instructor and a retired military officer, show how persuasive academic writing enhances officers' effectiveness in their regular duties, especially as they reach more senior levels of service. They explain the differences between staff writing and academic writing, and outline some of the common errors military personnel make when transitioning from one to the other. The book's chapters outline the value of strong written communication skills, the research process, the writing process, academic referencing, and frequent grammatical and syntactical errors. Specific examples chosen with a military audience in mind are integrated throughout the book to provide the reader with relevant and practical guidance. The book concludes with a discussion on how officers can use the knowledge they have acquired through their professional experiences in their academic work. As the only comprehensive guide to effective academic writing designed specifically for military personnel, this book will be a crucial addition to the libraries of junior and senior officers in militaries worldwide.

The Gospel of Mark Prenada Media

Revision is often taken as a largely instrumental process which happens after the real work of writing is done - it is an unavoidable and tedious process. Refining by contrast is imaginative work, it requires craft, connoisseurship and courage,

and builds knowledge about academic writing purposes and practices. *Refining Your Academic Writing* will help you complete your writing project and provides a reading, revising and rewriting repertoire that you can adapt and add to. It offers ways to think about revision and a basic tool kit which will help you to identify what needs your attention and why. This accessible book draws on and extends some of the most heavily used posts on Thomson's popular academic writing blog Patter, as well as tried and tested writing workshops. Exercises and templates are grounded in research and theory on doctoral experience and academic writing. The wider context of academic writing is clearly explained, and the terms used to describe text refinement build understanding while challenging taken-for-granted assumptions about revision, editing and proof-reading. Written with a light touch, this book is ideal reading for doctoral and early career researchers, and provides strategies needed to support the writing revision process. The 'Insider Guides to Success in Academia' offers support and practical advice to doctoral students and early-career researchers. Covering the topics that really matter, but which often get overlooked, this indispensable series provides practical and realistic guidance to address many of the needs and challenges of trying to operate, and remain, in academia. These neat pocket guides fill specific and significant gaps in current literature. Each book offers insider perspectives on the often implicit rules of the game – the things you need to know but usually aren't told by institutional postgraduate support, researcher development units, or supervisors – and will address a practical topic that is key to career progression. They are essential reading for doctoral students, early-career researchers, supervisors, mentors, or anyone looking to launch or maintain their career in academia.

This book offers the first sustained attempt to read the Gospel of Mark both as an ancient biography and as a form of ancient rhetoric. Ben Witherington applies to Mark the socio-rhetorical approach for which he is well known, opening a fresh new perspective on the earliest Gospel. Written when the fledging Christian faith was experiencing a major crisis during the Jewish war, Mark provides us with the first window on how the life and teachings of Jesus were presented to a largely non-Jewish audience. According to Witherington, the structure of Mark demonstrates that this Gospel is biographically focused on the identity of Jesus and the importance of knowing who he is--the Christ, the Son of God. This finding reveals that Christology stood at the heart of the earliest Christians' faith. It also shows how important it was to these earliest Christians to persuade others about the nature of Jesus, both as a historical figure and as the

Savior of the world.

See What Can Be Done Langham Publishing

Academic Writing is a unique introduction to the subject. As the author puts it in her preface, "this book develops from a strong claim: namely, that style is meaningful." In developing that theme, the author draws meaningfully on theory, especially genre theory, while remaining grounded in the particular. Giltrow presents and discusses examples of actual academic writing of the sort that students must learn to deal with daily, and to write themselves. As newcomers to the scholarly community, students can find that community's ways of reading and writing mysterious, unpredictable and intimidating. *Academic Writing* demystifies the scholarly genres, shedding light on their discursive conventions and on academic readers' expectations and values. Throughout, *Academic Writing* respects the student writer; it engages the reader's interest without ever condescending, and it avoids the arbitrary and the dogmatic. The book also offers abundant exercises to help the student develop techniques for working productively at each stage of the scholarly writing process; mastering and summarizing difficult scholarly sources; planning; and revising to create good working conditions for the reader. The third edition of Giltrow's extremely successful book incorporates extensive revisions that integrate the theoretical perspectives of genre theory into the whole of the book in a more organic fashion; the changes are designed to make the book both more attuned to scholarly practice and more accessible to the undergraduate student. Giltrow's *Academic Reading* is designed as an accompanying reader for *Academic Writing*.

Inside Academic Writing is designed to prepare students in any academic discipline for graduate-level writing. The text situates students within their writing communities by prioritizing the steps of learning; students are directed to use common threads of academic writing across disciplines. The goal of *Inside Academic Writing* is to give students the opportunity to write for a variety of audiences and to develop the knowledge necessary to recognize how to write for different audiences and purposes. *Inside*

Academic Writing allows students to examine basic assumptions about writing before they learn specific strategies for targeting the audience or mapping the flow of information. Through the material in this textbook, students will create a portfolio of writings that includes a biographical statement and a research interest essay—important pieces of writing that are rarely taught in courses. Other types of writing featured are a summary, a problem-solution text, a comparative structure paper, and a commentary. Other textbooks prepare students for graduate writing, but *Inside Academic Writing* was designed to bridge the gap between non-academic writing and the writing required within an academic community, with one's peers, colleagues, and field experts. In addition, *Inside Academic Writing* offers guidance on writing materials for grants, fellowships, conferences, and publication.
