OMB No. 5600183156789 edited by

LEON MIKAYLA

A Novel Games Workshop

The War Correspondent looks at the role of the war reporter today: the attractions and the risks of the job; the challenge of objectivity and impartiality in the war zone; the danger of journalistic independence being compromised by military control, censorship, and public relations; as well as the commercial and technological pressures of an intensely concentrated, competitive news media environment. This new edition substantially updates the original, ending with an extended section on the return of history and ideology to the reporting of international conflict, and interviews with prominent war and foreign correspondents including John Pilger, Robert Fisk, Mary Dvesky, and Alex Thomson.

It's a hot, hot summer, and in the depths of the Toronto Transit Authority's Lost and Found, 17-year-old Duncan is cataloging lost

things and sifting through accumulated junk. And between Jacob, the cranky old man who runs the place, and the endless dusty boxes overflowing with stuff no one will ever claim, Duncan's just about had enough. Then he finds a little leather book. It's a diary filled with the dark and dirty secrets of a twisted mind, a serial killer stalking his prey in the subway. And Duncan can't make himself stop reading. What would you do with a book like that? How far would you go to catch a madman? And what if time was running out. . . .

Deathwatch SparkNotes

Sixteen-year-old Tina and two friends leave Kenya and slip into the Congo, from where she and her mother fled years before, seeking revenge for her mother's murder but uncovering startling secrets.

City of Saints & Thieves Games Workshop

Two children die of a disease thought to be nonexistence in the United States. Within hours, thoroughbreds at the legendary Churchill Downs are dying of a virus that cannot be identified, even by the most expert veterinarians. Called in to solve these

lethal mysteries, noted virologist Jack Bryne discovers the two bear uncanny similarities to the Fifth and Sixth Plagues described in the Book of Exodus. And the horror is just beginning... Every month another monstrosity claims its victims. Every month brings the reenactment of another more catastrophic plague. Soon Bryne's own worldwide medical computer network, ProMED, is invaded by the power behind the horrors--a diabolically intelligent serial killer with a sophisticated knowledge of toxins and an obsession with a with biblical retribution. To make matters worse, the FBI is convinced Bryne himself is the killer. Caught between both sides, the brilliant virus hunter joins forces with his bright lab assistant, an ambitious TV newswoman, and a young religious scholar to find this madman and stop him before it's too late. But even Bryne does not know how close the killer is...until he meets this modern medical Moriarity on a midnight confrontation that will determine the future of the world.

Romeo and Juliet SparkNotes Literature Guide Infobase Publishing Omnibus edition of all three novels in the Forges of Mars trilogy - Priests of Mars, Lords of Mars and Gods of Mars - as well as an additional short story. The Martian Mechancius's thirst for knowledge is insatiable, and when Archmagos Lexell Kotov learns of an ancient expedition that went in search of the very source of life in the universe itself, he immediately assembles a powerful Explorator fleet to follow in its footsteps. Not only does Kotov have the powerful engines and warriors of the Adeptus Mechanicus to call upon, even the troops of the Imperial Guard and the vaunted Space Marines join his crusade. The way, however, is treacherous and fraught with perils both within and without the fleet. There are marvels and wonders at the edge of

known space, discoveries beyond price, but there are those who believe the secrets of the universe should stay hidden and beings there who pose a danger not only to the fleet but to the Imperium itself.

TORPEDO RUN

Games Workshop

They say the dead should rest in peace. Not all the dead agree. This start to The Undertaken trilogy is a "thought-provoking gothic fantasy" and a "genuinely eerie tale" (Publishers Weekly). When Silas Umber's father, Amos, doesn't come home from work one night, Silas discovers that his father was no mere mortician, but an Undertaker who worked to bring The Peace to lost and wandering souls. With Amos gone, Silas and his mother move back to Lichport, the crumbling seaside town where he was born, and Silas seizes the opportunity to investigate his father's disappearance. When his search leads him to his father's old office, he comes across a powerful artifact: the Death Watch, a tool that allows the owner to see the dead. Death Watch in hand, Silas begins to unearth Lichport's secret history—and discovers that he has taken on his father's mantle as Lichport's Undertaker. Now, Silas must embark on a dangerous path into the Shadowlands to embrace his destiny and discover the truth about his father—even if it kills him. Critically acclaimed folklorist Ari Berk explores the worlds of the living and the dead, and the relationships between parents and children in a novel steeped in

lore, mystery, and magic.

“Edgar-winning Vaught, a neuropsychologist, has both personal and professional experience to draw on in crafting a narrator who is admirably smart and resilient despite an ‘itchy’ brain and a compulsion to count things.” —Booklist (starred review) “Deeply smart and considerate.” —BCCB “An absorbing mystery.”

—Kirkus Reviews “A strong addition to help diversify realistic fiction collections to include neuroatypical characters and heroines.” —School Library Journal Jesse is on the case when money goes missing from the library and her dad is looking like the #1 suspect in Edgar Award-winning author Susan Vaught’s latest middle grade mystery. I could see the big inside of my Sam-Sam. I had been training him for 252 days with mini tennis balls and pieces of bacon, just to prove to Dad and Mom and Aunt Gus and the whole world that a tiny, fluffy dog could do big things if he wanted to. I think my little dog always knew he could be a hero. I just wonder if he knew about me. When the cops show up at Jesse’s house and arrest her dad, she figures out in a hurry that he’s the #1 suspect in the missing library fund money case. With the help of her (first and only) friend Springer, she rounds up suspects (leading to a nasty confrontation with three notorious

school bullies) and asks a lot of questions. But she can’t shake the feeling that she isn’t exactly cut out for being a crime-solving hero. Jesse has a neuro-processing disorder, which means that she’s “on the spectrum or whatever.” As she explains it, “I get stuck on lots of stuff, like words and phrases and numbers and smells and pictures and song lines and what time stuff is supposed to happen.” But when a tornado strikes her small town, Jesse is given the opportunity to show what she’s really made of—and help her dad. Told with the true-as-life voice Susan Vaught is known for, this mystery will have you rooting for Jesse and her trusty Pomeranian, Sam-Sam.

Deathwatch by Robb White Dell Publishing Company

Images have never been as freely circulated as they are today. They have also never been so tightly controlled. As with the birth of photography, digital reproduction has created new possibilities for the duplication and consumption of images, offering greater dissemination and access. But digital reproduction has also stoked new anxieties concerning authenticity and ownership. From this contemporary vantage point, *After Uniqueness* traces the ambivalence of reproducibility through the intersecting histories of experimental cinema and the moving image in art, examining how artists, filmmakers, and theorists have found in the copy a utopian promise or a dangerous inauthenticity—or

both at once. From the sale of film in limited editions on the art market to the downloading of bootlegs, from the singularity of live cinema to video art broadcast on television, Erika Balsom investigates how the reproducibility of the moving image has been embraced, rejected, and negotiated by major figures including Stan Brakhage, Leo Castelli, and Gregory Markopoulos. Through a comparative analysis of selected distribution models and key case studies, she demonstrates how the question of image circulation is central to the history of film and video art. *After Uniqueness* shows that distribution channels are more than neutral pathways; they determine how we encounter, interpret, and write the history of the moving image as an art form.

A beloved classic that captures the powerful bond between man and man's best friend. Billy has long dreamt of owning not one, but two, dogs. So when he's finally able to save up enough money for two pups to call his own—Old Dan and Little Ann—he's ecstatic. It doesn't matter that times are tough; together they'll roam the hills of the Ozarks. Soon Billy and his hounds become the finest hunting team in the valley. Stories of their great achievements spread throughout the region, and the combination of Old Dan's brawn, Little Ann's brains, and Billy's sheer will seems unbeatable. But tragedy awaits these determined hunters—now friends—and Billy learns that hope can grow out of despair, and that the seeds of the future can come from the scars of the past.
