Nothing is more important than worship. It is the theme of Scripture, the theme of eternity, and the theme of redemptive history—to worship the true and living and glorious God is the purpose of all creation. So why do we treat it as only what is sung or played in church on Sunday morning? Pastor John MacArthur leads you through Scripture texts about true worship. You will learn that worship is any essential expression of service rendered unto God by a soul that loves and extols Him for who He is. Worship is the nonstop role of believers, not merely part of a church service. So get ready to alter your priorities, aiming higher than entertaining worshipers on Sunday mornings. Worship shows that your ultimate priority must always be to worship the true and living God, with a radically different type of living.

Nice Talking with You is a two-level oral communication series designed to get students talking.

Nice Talking with You Level 2 is designed for elementary and pre-intermediate students. It contains 12 topic-based units and two review units. Topics in Level 2 relate to the equivalent units in Level 1, and include Going out, Fashion, Learning, Experience abroad, Health, and Careers. Practical conversation strategies are introduced in each unit and recycled in later units. Examples of strategies featured in Nice Talking with You Level 2 are: introducing a new idea; making, accepting and declining invitations; changing the focus of a topic; and making an inference.

Interconnecting Cisco Network Devices, Part 1 (ICND1), Second Edition, is a Cisco®-authorized, self-paced learning tool for CCENT™ and CCNA® foundation learning. This book provides you with the knowledge needed to configure Cisco switches and routers to operate in corporate

internetworks. By reading this book, you will gain a thorough understanding of concepts and configuration procedures required to build a multswitch, multirouter, and multigroup internetwork that uses LAN and WAN interfaces for the most commonly used routing and routed protocols. In Interconnecting Cisco Network Devices, Part 1 (ICND1), you will study installation and configuration information that network administrators need to install and configure Cisco products. Specific topics include building a simple network, Ethernet LANs, wireless LANs (WLANS), LAN and WAN connections, and network management. Chapter-ending review questions illustrate and help solidify the concepts presented in the book. Whether you are preparing for CCENT or CCNA certification or simply want to gain a better understanding of how to build small Cisco networks, you will benefit from the foundation information presented in this book. Interconnecting Cisco Network Devices, Part 1 (ICND1), is part of a recommended learning path from Cisco that includes simulation and hands-on training from authorized Cisco Learning Partners and self-study products from Cisco Press. To find out more about instructor-led training, e-learning, and hands-on instruction offered by authorized Cisco Learning Partners worldwide, please visit www.cisco.com/go/authorizedtraining. Sexual Harassment in the Workplace and Academia Michael O'Mara Books

For decades, sexual harassment went unnoticed or was denied, minimized, or simply ignored. In recent years, however, the topic has moved to the forefront of public awareness, demanding attention as a serious issue in business and professional arenas. In Sexual Harassment in the Workplace and Academia: Psychiatric Issues, 14 experts in the field provide a timely and practical guide to identification, treatment, and advocacy for individuals, particularly women, who have been sexually harassed. Psychiatrists and other mental health practitioners must be well informed about sexual harassment and its psychiatric implications to provide competent and therapeutic care to their patients. This provocative book offers valuable information on sexual harassment issues relevant to the clinician, including physical and emotional effects of harassment, individual and organizational responses to harassment, and characteristics and types of harassers. A semistructured interview for psychiatric assessment of harassment victims and comprehensive information on therapeutic interventions and resources are presented. Also covered are forensic issues, such as the role of the psychiatrist in sexual harassment cases, the litigation process and how to support a patient throughout it, and the potential for misuse and abuse of psychiatry. Special settings and types of harassment for which information is not readily available, including sexual harassment of children and adolescents and harassment in academia and medicine, are discussed. Case vignettes are presented that illustrate the damaging psychological, medical, social, and economic consequences of sexual exploitation and discrimination. By acquiring a fuller understanding of this serious and pervasive problem, practitioners will be able not only to recognize and avoid common clinical pitfalls (for example, inflicting secondary injury by blaming the victim) but also to provide more knowledgeable assessment and effective treatment for all of their patients.

Landscape archaeology, particularly the archaeology of monuments in the landscape, has made a significant contribution to the development of archaeological thinking in Britain. This book brings together some major studies influenced by these approaches. Prehistory is covered in studies of south-west and southern England, as well as Wales, France and Portugal; Romano-British remains are considered from Salisbury Plain and the Peak District; the medieval period ranges from Sutton Hoo to the Yorkshire Wolds and Carew Castle in Wales; the post-medieval and modern periods take us to the Scottish High-lands and Islands and the Northumberland National Park. What connects them all is an appreciation of the archeological signatures in the landscape as monuments to human endeavor.

Drawing on more than 100 interviews, Vuic allows the nurses to tell their own captivating stories, from their reasons for joining the military to the physical and emotional demands of a horrific war and postwar debates about how to commemorate their service. Vuic also explores the gender issues that arose when a male-dominated army actively recruited and employed the services of 5,000 women nurses in the midst of a growing feminist movement and a changing nursing profession. Women drawn to the army's patriotic promise faced disturbing realities in the virtually all-male hospitals of South Vietnam. Men who joined the nurse corps ran headlong into the army's belief that women should nurse and men should fight.
